CATALOG

This catalog, at the time of preparation for printing, accurately describes the academic programs, course offerings, policies, procedures, and requirements of the University. However, it does not establish contractual agreements. The University reserves the right to alter or change any statement contained herein without prior notice. Students starting their collegiate training during the period covered by this catalog (Fall 2023 through Summer 2024) are subject to the curricular requirements as specified herein. The requirements herein will extend for a five-year period from the date of entry for baccalaureate programs. If students have not met their undergraduate educational objectives by that time, they will then become subject to current curricular requirements. Mississippi Valley State University offers equal educational opportunity to all persons without regard to sex, race, religion, national origin, physical or mental handicap, or age as specified by applicable laws and regulations. All policies relating to employees' rights to freedom from sexual harassment are extended to students, also.

BOARD OF TRUSTEES OF STATE INSTITUTIONS OF HIGHER LEARNING OF MISSISSIPPI

Mississippi Valley State University is one of eight universities operating under the control of the Board of Trustees of State Institutions of Higher Learning of the State of Mississippi. The Board, established by the State Constitution, consists of 12 members, serving terms of varying lengths. Because of changes to the legislation regarding the appointment of Board members, "after January 1, 2004, as vacancies occur, the twelve-member Board shall be appointed from each of the three Mississippi Supreme Court districts until there are four members from each Supreme Court district. The terms of office are reduced from twelve years to nine years. The terms are staggered so that all members appointed after 2012 will have a term of nine years." There are no ex-officio members. All final authority for the operation of the institutions under its control lies within the Board. No outside body exercises any jurisdiction over the administration, the policies, or the financial affairs of the institutions. All legislative appropriations for operating expenses are made directly to the Board, which in turn allocates funds to the eight institutions under its jurisdiction.

Board Members

Donald Clark, Jr
Steven Cunningham
Ormella Cummings, Ph.D.
Jerry Griffith
James (Jimmy) Heidelberg
Teresa Hubbard
Jeanne Carter Luckey
Gee Ogletree
Hal Parker
Gregory Rader
Charles Stephenson

Officers of the Board

Bruce Martin, President
Jeanne Luckey, Vice President

Commissioner

Dr. Alfred Rankins, Jr.

UNIVERSITY ADMINISTRATION

The members of the Executive Cabinet work with, and advise, the President in the determination of administrative policies throughout the University and assist in solving administrative problems. The Executive Cabinet makes administrative decisions on matters submitted by committees, university officials, and others.

Jerryl Briggs, Ed.D.	President
Kathie Stromile-Golden, Ph.D.....	Provost/Senior Vice-President for Academic Affairs
Joyce Dixon, MBA	Vice President for Business & Finance/CFO
Thomas Calhoun, Jr., Ph.D	Vice President for Student Affairs and Enrollment Management
George Ivory, MA.....	Interim Director of Athletics
Auguster Wallace, MS	Chief of Staff/Legislative Liaison
Dameon Shaw, MBA	Vice President for Information Technology/Chief Information Officer
Michael Switzer, B.S.	Vice President for Facilities Management and Capital Projects
Stephen McDaniel., B.A.	Interim Vice President for University Advancement, Governmental Affairs and External Relations

GENERAL INFORMATION

Historical Milestones

Legislation authorizing the establishment of the institution under the name Mississippi Vocational College was enacted by the Mississippi Legislature in 1946. The expressed purpose for the new college is to train teachers for rural and elementary schools and to provide vocational training.

The groundbreaking ceremony is held February 19, 1950, with the late Honorable Governor Fielding Wright, the Board of Trustees of State Institutions of Higher Learning, Dr. James Herbert White, the first president of the University, and interested friends participating.

The College opens in the summer of 1950 with enrollment of 305 in-service teachers.

The first academic year, 1950-51, opens with 14 regular students and seven faculty members. The college offers the Bachelor of Science degree in 14 areas and provides Extension Services.

The name of the institution changes to Mississippi Valley State College in 1964. The College is authorized to offer the Liberal Arts degree, as well as Science and the Education degrees.

Dr. Earnest A. Boykins, the University's second president, takes office in July 1971.

The Honorable Governor William A. Waller signs into law the bill granting "University" status to the institution on March 15, 1974. The institution has since been known as Mississippi Valley State University.

The University offers its first Master's degree in 1976. The University now offers the Master of Science degree in Bioinformatics, Business Administration, Environmental Health, Elementary Education, Criminal Justice, Social Work, Sport Administration, Rural Public Policy and Planning, and the Master of Arts in Convergent Media, and Teaching.

Dr. Joe L. Boyer, the third president of MVSU, takes office in January 1982.

Dr. William W. Sutton, the fourth president of MVSU, takes office in July 1988. The Greenwood Center, an off-campus site of MVSU, opens January 1996.

Dr. Lester C. Newman, the fifth president of MVSU, takes office on July 1, 1998. The Greenville Higher Learning Center, an off-campus site of MVSU, opens January 2001. The Business Education Building, the first new academic building in 32 years, opens in 2007. A second building, the Science and Technology Building opens in 2009.

Dr. Roy C. Hudson becomes Interim President in July 2007.

Dr. Donna H. Oliver, the 6th President of MVSU, takes office on January 1, 2009. Dr. Alfred Rankins Jr. becomes Acting President in November 2012.

Dr. William B. Bynum, Jr., the 7th President of MVSU, takes office on November 6, 2013.

Dr. Jerryl Briggs, Sr., the 8th President of MVSU, takes office on October 19, 2017.

The University is under the jurisdiction of the Board of Trustees of State Institutions of Higher Learning which is composed of 12 members. Funds for the operation of the University come from general appropriations of the Legislature, students' tuition and fees, federal grants, and gifts.

Location

Mississippi Valley State University is located in Leflore County, one mile northeast of Itta Bena, adjacent to U.S. Highway 82. The Institution is located on a 450-acre tract of land. The site for campus development consists of 200 acres. Mississippi Valley State University is approximately five miles from Greenwood, which has a population of 15,205 and approximately 50 miles from Greenville, which has a population of 34,400. The University is approximately 100 miles north of Jackson, Mississippi, and 120 miles south of Memphis, Tennessee. It is located in the heart of the Mississippi Delta where 34 percent of the black population of the state is located.

Institutional Statements

Mission

Mississippi Valley State University, as a Carnegie Classified Master's University, provides comprehensive undergraduate and graduate programs in education, the arts and sciences, and professional studies. The University is driven by its commitment to excellence in teaching, learning, service, and research – a commitment resulting in a learner-centered environment that prepares critical thinkers, exceptional communicators, and service-oriented, engaged, and productive citizens. MVSU is fundamentally committed to positively impacting the quality of life and creating extraordinary educational opportunities for the Mississippi Delta and beyond.

Vision

Mississippi Valley State University aspires to become the educational crown jewel of the Mississippi Delta, and in so doing, the institution will attract students of diverse backgrounds as a result of its innovative academic programs; commitment to developing entrepreneurs; and globalized focus intertwined throughout the academic curricula and support services. In its quest for distinctiveness, uniqueness, innovation, and longevity, the University will become the public square of the Mississippi Delta, responsible for engaging an ever-expanding group of collaborators focused on identifying and implementing solutions to the problems that have plagued the delta region for generations. As a result, Mississippi Valley State University will serve as the catalyst for an enhanced quality of life and increased educational opportunities for the citizens of a revitalized Mississippi Delta.

Core Values

As an institution of higher learning within the Mississippi Delta, Mississippi Valley State University believes it exists to meet the needs of all its stakeholders and to create a positive impact throughout the region. To achieve its mission and move towards realization of its vision, MVSU is driven by seven values that act as an internal compass responsible for ensuring unity of effort, dedication to a common direction, and commitment to fulfilling its calling.

Service

Service is at the core of the University's charter, is the impetus behind our creed, and compels us to embrace the responsibility of caring for and proactively meeting the needs of our students, our community, our region, and beyond.

Learning

Learning impels us to ensure that our students receive a world-class education. Our institution engages itself in a continuous cycle of knowledge attainment and implementation, and those best practices developed from emerging knowledge drives our decision-making and direction setting.

Excellence

Excellence obliges us to reject mediocrity and instead consistently pursue high quality in regard to our programs, services, faculty and staff, initiatives, and outreach.

Integrity

Integrity impresses upon us that as a steward of public funding and trust, we must operate as persons and an institution of high character guided by a commitment to honor, transparency, fairness, and honesty.

Distinctiveness

Distinctiveness reflects our charge to ensure that we provide relevant and contextually appropriate academic programming, deliver services that meet the emerging needs of our stakeholders, and continually assess and take advantage of potential opportunities.

Engagement

Engagement commits us to reach out and connect to current, former, and future students, establish our University as a true public square, integrate our University into the life of communities throughout the region, and partner with individuals, groups, and companies within the Mississippi Delta and beyond.

Respect

Respect encourages us to move beyond tolerance towards acceptance of the differences that make us human, to embrace the concept that all people have inherent worth and are deserving of dignity, and to act with civility, kindness, and compassion to our students, faculty, staff, and the greater community of the Mississippi Delta.

Alma Mater

Hail to thee our Alma Mater Colors Green and White
M.V.S.U. our sons and daughters
Always stand for right.

When the days of joy and laughter
Fade upon our sight
We will love our Alma Mater
Dear Old Green and White.

We will love and cherish thee
Through all our lives
Green and White we will honor
Keeping standards high.

Chorus:
Grateful, loyal, true and faithful
We will be true
May thy name be everlasting
Dear Old M. V. S. U.

Residence Halls for Student Housing

Student housing on the University campus consists of 9 residence halls, four for women and five for men. Residence halls are equipped with air conditioning, beds, chairs, desks, storage areas for clothing and school supplies, cable television and Internet access. All residence halls are managed by at least one full-time Area Coordinator or Residence Hall Director, Residence Hall Monitor, Weekend Monitor, and student staff persons. Halls are secured by fire detection equipment, residence hall staff, and University police officers. The resident facilities for female students are Edna Horton Hall, Magnolia Annex, New Women Hall and Valley Annex. The residential facilities for male students are College Hall I, James Hall, McTeer Hall, Magnolia Hall, and William J. Stewart Hall.

ADMISSIONS POLICIES, REQUIREMENT AND PROCEDURES

To attend classes at Mississippi Valley State University, students must gain official admission to the University and must complete the enrollment process, which includes advisement, registration, and payment of tuition and fees. Admission to Mississippi Valley State University is administered through the Office of Admissions and Recruitment in accordance with the policies established by the Board of Trustees of State Institutions of Higher Learning. Specific admission requirements are listed throughout this section by application type. Specific requirements may not apply to adult learners (21 years of age), or the applications may be exempted. Admission decisions are made as applications and supporting documents are received; therefore, early applications are encouraged. Information submitted to Mississippi Valley State University must be true and accurate. The withholding of pertinent information or the submission of false information may result in denial of admission or dismissal. The University reserves the right to deny admission to any applicant and to forbid enrollment of any previously admitted student.

Mississippi Valley State University complies with all laws regarding affirmative action and equal opportunity in all its activities and programs and does not discriminate against anyone protected by law because of age, color, national origin, race, religion, sex, handicap, or veterans' status. The University welcomes applications from individuals whose preparation and abilities give them a reasonable chance of success in programs offered by the University. Questions regarding admission should be directed to the Office of Admissions and Recruitment, MVSU 7222, 14000 Highway 82 W., Itta Bena, MS 38941-1400, 662-254-3347, Fax: 662-254-3759; or E-mail: admissions@mvsu.edu. University Web site: www.mvsu.edu.

To be eligible for admission, a person must graduate from an accredited high school. Applicants who are not high school graduates are required to submit passing scores on the General Education Development (GED) Test before admission may be granted. A student who has graduated from an accredited high school may participate in the University's Emerging Scholars program ONLY if they have been denied admission and have not attended a collegiate institution.

Admission Procedures

Prospective students must complete a formal application for admission. The admission period sought must be stated. The application will be acted upon for the stated period only and cannot be considered a continuing application. In the event an application is denied for any reason, a new application is required for subsequent consideration. A high school transcript of work completed through the junior year showing courses in progress for the senior year and the American College Test (ACT) or the Scholastic Aptitude Test (SAT) scores are requested. Students may be granted conditional admission at any point during their senior year; however, full admission will be determined by the cumulative grade point average (CGPA), test scores (ACT or SAT, if taken), completion of the College Preparatory Curriculum (CPC) at the time of high school graduation, and receipt of a complete and official transcript in the Office of Admissions and Recruitment. Immunizations records are also required. An official transcript must be mailed or emailed to the Office of Admissions and Recruitment which lists the date of graduation, grade-point average, and class rank. The high school course units listed in the next section are required and must be listed on the transcript.

Orientation Program for New Students

The University makes every effort to assist each new student in obtaining the maximum benefit from his/her university career. To achieve this effort, all incoming freshmen and transfer students are encouraged to participate in orientation which includes a series of discussions, tours, and other activities related to academics, health, housing, and student services.

High School Course Requirements

All entering freshman applicants must have earned at least a 2.00 in the high school units listed below. The official high school transcript must indicate credit in the College Preparatory Curriculum (CPC) noted below.

Full Admission Standards

For an applicant to be fully admitted to Mississippi Valley State University, one of the following criteria must be attained:

- Completion of the College Preparatory Curriculum (CPC) with a minimum 3.20 high school GPA.
- Completion of the CPC with a minimum 2.50 high school GPA on the CPC and a minimum score of 16 on the composite ACT (or 880 on the SAT).
- Completion of the CPC with a minimum 2.00 high school GPA on the CPC and a minimum composite score of 18 on the ACT (or 960 on the SAT).
- Having a class rank in the top 50 percent and a minimum score of 16 on the composite ACT (or 880 on the SAT).
- Completion of the CPC with a minimum 2.00 high school GPA on the CPC and a minimum composite score of 18 on the ACT (or 860 on the old SAT critical reading/mathematics or 960 on the new SAT).
- Satisfying the National Collegiate Athletic Association (NCAA) standards for “full qualifiers” or “academic redshirts”.

(2) Completion of any two-year Career and Technical course may count as one unit. <i>Example: completion of</i>

<i>Example: completion of both Health Sciences I & II will count as an advanced elective.</i>	<i>both Health Sciences I & II will count as an advanced elective.</i>
Technology or Computer Science Course: 1 Carnegie Unit A technology course is defined as one that emphasizes the use of technology as a productivity tool. Instruction should include utilizing various forms of technology to create, collaborate, organize, and publish information. The application of technology as a productivity tool, rather than specific hardware and/or software packages should be the focus of the course. A computer science course emphasizes computational thinking to solve problems. Courses will involve the study of computers and algorithmic processes, including their principles, their hardware and software designs, their applications, and their impact on society and should include focus on one or more of the following core concepts: computing systems, networks and the internet, data and analysis, algorithms and programming, and impacts of computing. Course equivalent or additional advanced elective may be acceptable for non-Mississippi residents. Substitutions Advanced Placement (AP), International Baccalaureate (IB), Academic or Career Technical Dual Credit (DC), and Advanced International Certificate of Education (AICE) courses may be substituted for each requirement in the College Preparatory Curriculum.	Substitutions Advanced Placement (AP), International Baccalaureate (IB), Academic or Career Technical Dual Credit (DC), and Advanced International Certificate of Education (AICE) courses may be substituted for each requirement in the College Preparatory Curriculum.

If an applicant meets one of the above requirements except for the full CPC, he or she may be admitted with up to two curriculum deficiencies (but no more than one in any allowable area). English and mathematics are not allowed deficiencies.

Freshman applicants who do not meet the above-listed standards will be required to participate in a screening process that will include the diagnostic test -ACCUPLACER. These admission standards are applicable to students graduating from high school beginning with the spring of 1996. Students who graduated from high school before the spring of 1996 will follow the admission standards that were applicable at that time. Check the MVSU Office of Admissions and Recruitment for clarification.

The Emerging Scholars Program is an eight-week program offered through Mississippi's eight public universities. Qualified students take coursework in reading, composition, and mathematics. This program includes classroom instruction, as well as computer-assisted tutorials. In addition, the students receive counseling and support needed to participate successfully in the academic and social community of the University. These courses do not count toward graduation. However, with successful completion of the Summer Developmental Program, the students will be able to enroll in freshman courses.

The Academic Support Program is a year-long academic support program consisting of classroom, individual, and computer-assisted instruction in a laboratory setting, along with career counseling. This program is designed to assist students admitted with academic deficiencies, as well as other volunteer students, with their freshman courses.

International (Foreign) Student Applicants

International students are required to meet the same admission standards stated above. However, a score of 525 written test (194 computer based or 75 internet-based test) and above is required on the Test of English as a Foreign Language (TOEFL). Alternatively, a score of 5.5 on the International English Language Testing System (IELTS), a Duolingo score of 90 or Pearson Test of English (PTE) score of 42 may be used to meet this requirement. A Certificate of Compliance with Immunization Requirements for college admission, evaluated transcripts and an affidavit of financial sponsorship are also required of all international students.

Additionally, first-year undergraduate international applicants must have received a high school diploma with a B average or above, in laboratory science, social studies, and mathematics. In addition, freshmen international applicants are required to submit either the American College Test (ACT) score of 21 or above or the Scholastic Aptitude Test (SAT) score of 970 or above.

Transfer international applicants who have completed 12 or more hours of university-level academic courses with a B average will not be required to take the ACT or SAT and may be awarded transfer credit. Applicants transferring from U.S. Institutions must meet the requirements outlined in the section “Admission of Junior/Community College and Other Transfer Students with Advanced Standing.” All international applicants whose native language is not English are required to submit a TOEFL, IELTS, Duolingo or PTE score as indicated above. However, a waiver can be granted if any of the following conditions are met: the prospective student must have taken and passed at least two years of English language in his or her country of residence; or the prospective student must have a telephone interview with a representative of the MVSU English Department, Admissions Office, as well as a representative of the MVSU International Program so that those representatives can assess the student’s level of proficiency in speaking the English language. If all of those representatives conclude that the prospective student is proficient at speaking English, then the student can be admitted to the University, but must take the TOEFL or IELTS promptly after arrival on campus.

Copies of transcripts, diplomas and certificates of all previous academic work must be certified and translated into English. The I-20 document, authorizing the student’s visa (F-1), is sent after the student is admitted to the university.

Early Admission

A secondary school student may be offered early admission at the end of the third year in high school if the following criteria are met:

- At least a 3.20 on a minimum of 15 units completed toward the College Preparatory Courses and
- A minimum composite ACT score of 20 or comparable SAT score and recommendation by the applicant’s high school principal or counselor.

Dual Enrollment

The Mississippi Valley State University Dual Enrollment program is a multifaceted educational outreach program. Our Dual Enrollment program is designed to provide rigorous academic instruction on local high school campuses, in an effort to make courses more accessible. All courses are taught by University faculty members. The cost of the program is covered by the local school district and student fees.

Dual Admission

Dual Enrollment - Dual Credit

MVSU allows high school students to enroll in our dual enrollment program who meet the following criteria: students must have completed a minimum of 14 core high school units; students must have a 3.0 grade point average, on a 4.0 scale, or better in all high school courses, as documented by an official high school transcript; a home-schooled student must submit a transcript prepared by a parent, guardian or custodian with a signed, sworn affidavit to meet the requirement of this paragraph; and students must have an unconditional written recommendation from their high school principal and/or guidance counselor. A home-schooled student must submit a parent, legal guardian, or custodian’s written recommendation to meet the requirement of this paragraph.

Students may be considered for the dual enrollment program who have not completed the minimum of 14 core high school units if they have a minimum ACT composite score of 30 or the equivalent SAT score and have the required

grade point average and recommendations prescribed above. Grades and college credits earned by students admitted to the dual enrollment program will be provided on an MVSU College Transcript only after the students have graduated from high school and have submitted their final official high school transcript to the University. Dual credit will be released to high schools by a request made to the Registrar's Office by the student and/or a parent/guardian.

Admission of Junior/Community College and Transfer Students

Transfer students who have completed an applicable associate degree, a higher-level degree or its equivalent, are exempt from freshman admission requirements. All other transfer students are subject to the freshman admission policy. Applicants must list all colleges attended on the application for admission. Failure to provide information about prior college attendance is grounds for disciplinary action, including immediate dismissal from the University.

Transfer Requirements

Transfer students must either have an associate degree intended for transfer from a regionally accredited institution or have completed the 30 semester hours of designated college coursework outlined below with at least a 2.0-grade point average for admission to the university:

- 6 semester hours of English composition
- 3 semester hours of college algebra or higher mathematics
- 6 semester hours of science (must be laboratory-based)
- 9 semester hours of humanities and fine arts
- 6 semester hours of social or behavioral sciences

Transfer Credits

Transfer students must have a minimum cumulative grade point average of 2.0 from the last university attended. To meet graduation requirements, a transfer student must have an overall "C" (2.00) average and only grades of "C" or above will be accepted for transfer credit. No course above a sophomore-level will be considered transferable from a junior college. Transfer hours passed will be accepted if the transferring institution is accredited by its state and regional accrediting agencies. The University will provide each approved transfer applicant with an evaluation of previously earned credits. Credits will not be evaluated unless they are presented on official transcripts from the transferring institution where these credits were earned. Official records of all previous college work should be submitted to the Office of Admissions and Recruitment at least one month before registration to determine whether the courses meet the University's requirements. The head of the major department submits the previously earned credits that will apply to the degree program to the Office of Academic Affairs for review and approval.

A junior or community college graduate who transfers to Mississippi Valley State University should be able to meet the additional requirements to graduate from Mississippi Valley State University in two academic years. The last half of the total hours applied toward graduation must be earned at a senior college. Credits from foreign (international) institutions will be reviewed for acceptance. The student is responsible for having all such transcripts translated into English and evaluated by an International Student Evaluation Service before submitting them to the University's Office of Admissions and Recruitment.

To receive a baccalaureate degree from Mississippi Valley State University, a student must complete a minimum of 25% of the total credit hours required of the degree program at MVSU.

Transfer students intending to work toward a degree at Mississippi Valley State University should carefully analyze all departmental information listed in this catalog as well as the General University Requirements for Graduation.

Transient Student Admission

Transient students are students who take classes at Mississippi Valley State University while enrolled at another institution and are not admitted as transfer students. Along with the application for admission, students must provide the Office of Admissions with a "Letter of Good Standing" from their current college or university. Students from other colleges or universities are responsible for determining if these institutions will accept credits earned at Mississippi Valley State University.

Admission of Student-Athletes

A student-athlete must meet the admission requirements of the National Collegiate Athletic Association (NCAA) and those of the Southwestern Athletic Conference (SWAC).

Test Scores

Test scores for admission requirements are subject to change without prior notice, as mandated by the Board of Trustees of State Institutions of Higher Learning. Official ACT or SAT scores for all applicants completing high school within the past five years must be mailed to the Office of Admissions and Recruitment directly from the ACT or SAT office. The address and telephone number for ACT and SAT are:

American College Testing Program
Box 268
Iowa City, Iowa 52240
310-356-3711

Immunization Requirements

All students (including transfers) entering Mississippi Valley State University for the first time and enrolling for academic credit must document proof of immunization for measles and rubella. Proof of immunization may be documented in the following Manner:

- Obtaining a Certificate of Compliance with Immunization (Form No. 121-C) from your local Mississippi State Board of Health Office. Two doses of the measles vaccine are required. International students must have a chest x-ray to screen for tuberculosis, and an interferon-gamma release assay (IGRA) performed in the United States prior to the start of classes.
- Documentation should indicate the month and year of first immunization which was received after the first birthday.
- Documentation of positive measles and rubella serology with the date of test and results; and physician documented history of having measles with the date of disease. History of rubella is not accepted.

Temporary exceptions for one semester are:

- Pregnant women
- Women suspecting pregnancy; and/or
- Women anticipating pregnancy within three months.

Permanent exceptions are:

- Medical disease which will cause a permanent contraindication to immunization; and
- Persons born prior to 1957.

Adult Learners (Over 21)

Students over the age of 21 may qualify for admission on the first-time entering freshman requirements or may be granted admission without meeting those requirements. Students who do not meet the first-time entering admission requirements may register for a maximum of 12 semester hours (as non-degree students) during a semester. Degree student status may be achieved by meeting regular admission standards or by completing a minimum of 12 semester hours with a "C" average.

General Educational Development (GED) *Certificate of High School Equivalency*

An applicant who has not completed the high school curriculum may be admitted if he/she has successfully completed the General Educational Development (GED) Test. Applicants who were scheduled to graduate from high school during or before the 1995 spring semester will be admitted to the University based on the admission standards that were in effect at that time. Applicants whose high school graduation date came after the 1995 spring semester will be admitted to the University based on the current admission standards. Applicants who are 21 years of age (adult learner) with a GED should refer to the "Adult Learner" section.

Credit for Military Service

A student with military service may submit the appropriate military documents and receive credit for military service schools and activities. Recommendations of the American Council on Education are used in determining credit.

Readmission to the University

Students who have previously attended the University and have a break in attendance of one or more terms must file an application for re-admission. Re-admission documents required include an official transcript from each institution attended since leaving MVSU, and if a degree has been received from another institution, an official transcript showing that degree. Students must meet the minimum admission standards of the University and be in good standing at all institutions attended since leaving MVSU in order to be eligible for re-admission. Questions concerning re-admission should be directed to the Office of Admissions and Recruitment.

Credit By Examination/College Level Examination Program (CLEP)

MVSU will allow students to earn up to 30 semester hours of credit by examination from the Advanced Placement Test or the College Level Examination Program (CLEP). Credit earned through the use of examinations will be treated as transfer credit and may not be used to satisfy the residence requirement. The CLEP is administered by the University Testing Office. Application forms and a listing of examinations that meet transfer requirements are available from the Testing Center.

Summer Session Admission

Students enrolled at another college or university may apply for summer session only admission. Such admission carries no commitment for permission to register for either term of the regular academic year. Students from other colleges or universities must be eligible to continue work at their respective institutions and are responsible for determining if these institutions will accept credits earned at Mississippi Valley State University.

Admission to Teacher Education

The Department of Education is responsible for all teacher education programs at Mississippi Valley State University. All students who expect to qualify to teach must be formally admitted to the Teacher Education Program. For specific information, see admission procedures in the Department of Education section of this catalog or contact the Department of Education at 662-254-3618.

Graduate Admission

See the Graduate Catalog.

Residential Status

Students must register under their correct residential status. Students who knowingly and willfully misrepresent their status will be subject to disciplinary action or dismissal from the University. The following definitions are used to determine the residential status for the purpose of enrolling at Mississippi Valley State University.

Residence of a Minor. The residence of a person less than 21 years of age is that of the father, the mother or general guardian duly appointed by a proper court in Mississippi. If a court has granted custody of the minor to one parent, the residence of the minor is that of the parent who has been granted custody by the court. If both parents are dead, the residence of the minor is that of the last surviving parent at the time of that parent's death, unless the minor lives with a general guardian duly appointed by a proper court of Mississippi, in which case his/her residence becomes that of the guardian. A minor student who, upon registration at Mississippi Valley State University, presents a transcript demonstrating graduation from a Mississippi secondary school and who has been at a secondary school in Mississippi for not less than the

final four years of secondary school attendance shall not be required to pay out-of-state tuition. This section shall not apply to the residence of a person as it relates to residency for voter registration or voting.

Residence of an Adult. The residence of an adult is that place where he/she is domiciled, that is, the place he actually physically resides with the intention of remaining there indefinitely or of returning there permanently after a temporary absence.

Removal of Parents from Mississippi. If the parents of a minor who is enrolled as a student in an institution of higher learning move their legal residence from the state of Mississippi, the minor is immediately classified as a nonresident student upon completion of the semester in which the move takes place.

Residence Required. No student may be admitted to any institution of higher learning as a resident of Mississippi unless his/her residence, as defined above, has been in Mississippi for a continuous period of at least 12 months immediately preceding his/her admission.

Residency Petition. Nonresidents may petition the Admissions Office for a change of residency classification. A person who enters the state of Mississippi from another state and enters a system institution is considered a nonresident. However, any person who has attained 21 years of age and has thereafter actually established residency and resided with the state of Mississippi for 12 consecutive months, after attaining 21 years of age upon sworn affidavit and other representation may petition the institution for a change in residency classification for the purposes of fees and tuition assessment. The institution may make reasonable inquiry into the validity of the petitioner's claim. Such petitions for change of residency must be made on or before the last day a student may register at the University without a penalty.

Residence Status of a Married Student. A married person may claim the residence status of his/ her spouse, or he/she may claim independent residence status under the same regulations set forth above as any other adult.

Children of Faculty or Staff. Children of members of the faculty or staff under the jurisdiction of the Board may be classified as residents for the purpose of attendance at the University.

Military Personnel Assigned on Active Duty in Mississippi. Members of the United States Armed Forces on extended active duty and stationed within the state of Mississippi may be classified as residents, without regard to the residence requirement of 12 months, for the purpose of attendance at the University. Resident status of such military personnel who are not legal residents of Mississippi (as defined in Section 37-103-13 of House Bill 40999, passed during the 1988 Session of the Mississippi Legislature) will terminate upon their reassignment for duty in the continental United States outside the state of Mississippi. Children of Military Personnel. Resident status of children of members of the armed forces on extended active duty will be that of the military parent for the purpose of attending the University during the time that their military parents are stationed within the state of Mississippi. It will continue through the time of that assignment within the state of Mississippi, with the exception of temporary training assignments en route from Mississippi. Resident status of minor children will terminate upon reassignment under Permanent Change of Station Orders of their military parent(s) for duty in the continental United States outside the state of Mississippi, excepting temporary training assignment in route from Mississippi.

Certification of Residence of Military Personnel. A military person on active duty stationed in Mississippi who wishes to avail her/himself or her/his dependents of the provisions of the sections title Military Personnel Assigned on Active Duty Stationed in Mississippi and Children of Military Personnel must submit a certificate from the military organization showing the name of the military member, the name of the dependent, if for a dependent, if applicable; the name of the organization of assignment and its address (may be in the letterhead); that the military member will be on active duty stationed in Mississippi on the date of registration at the University; that the military member is not on transfer or temporary orders; and the signature of the Commanding Officer, the Adjunct, or the Personnel Officer of unit assignment with signer's rank and title. A military certificate must be presented to the Registrar of the University each

semester at (or within 10 days prior to) registration for the provisions of the section Military Personnel Assigned on Active Duty Stationed in Mississippi, named above, to be effective.

Families of Students. The spouse and children of a nonresident who pay or receive a waiver of the nonresident fee may enroll in the University upon payment of the appropriate fees charged to a resident. Nonresident fees for spouses and children of part-time nonresidential students will be prorated.

International Students. All international students are classified as nonresidents except those who are lawfully admitted for permanent residence in the United States, and who reside in the state of Mississippi. An international student who petitions to be declared a resident of the state of Mississippi must prove that he/she has been accorded permanent residence by the United States Immigration and Naturalization Service. The international student petitioner must also prove his/her intent to remain in the state of Mississippi.

Veterans

Veterans who have had a minimum combination of six months basic training and military service in the regular Armed Services, or at least two semesters in an approved ROTC program at the college level, may receive a waiver for the basic physical education activity requirements. Upon receipt and approval of documentation, two semester hours of credit will be placed on the veteran's record with a grade of "P."

Services for Students with Disabilities

Services for students with disabilities are coordinated by the ADA (Americans with Disabilities) Act Office, MVSU 7232, 14000 Hwy. 82 W., Itta Bena, MS 38941-1400. Services are provided according to the nature and extent of a student's disability. Please contact MVSU ADA Office prior to enrollment at: (662) 254-3443 or TTY (662) 254-3154.

ACADEMIC REGULATIONS

Academic Advisement and Registration

All students at Mississippi Valley State University are encouraged to take full advantage of the flexibility of academic planning and to seek the advice of the faculty/advisors. A systematic academic advising process is essential to students' achievement of academic goals. Each student is provided with a faculty member as an academic advisor and/or academic counselor. Students who have not declared an academic major, or have completed fewer than 60 semester credit hours, must report to University College for advisement. Advisors/Counselors are expected and required to meet with advisees at least once each semester. To ensure that advisors are meeting with students and vice versa, advisors receive student pin numbers, which are required for registration. These pin numbers unlock the process that allows students to register for classes. The pin numbers, provided by student records, are disseminated to the departments in October (For Spring Registration) and March (For Fall Registration). See the academic calendar for specific registration and advisement dates.

During the academic advising session, Advisors provide students with Academic Advising Contracts, which are important to documenting the advising sessions and serve to hold both faculty and students accountable. Additionally, students' curriculum maps are updated by the advisors and signed by the student advisee.

Not all courses are offered every semester; some are only offered in the fall, the spring or in alternating semesters or alternating years. The University is not responsible for scheduling problems that result from the student's failure to take these intermittent courses when they are available, nor is the University responsible for those students who are off sequence due to failing courses.

Prior to pre-/early registration, the University publishes a "Schedule of Classes" online and provides assistance in the registration process. The schedule lists the selection of courses to be offered, including details about meeting times, location, days and credit hours. Students may register online or in person during each registration period. Students are advised to keep a record of all courses completed to avoid errors and duplications. Students who fail to register on the appointed dates will be charged a late registration fee.

Late Registration

Under extenuating circumstances, the University may permit late registration into classes. Therefore, the instructor has an affirmative obligation to assist students who enroll in class after the first day to ensure that they have the same opportunity to succeed in the course as students who enrolled earlier. This may include, but should not be limited to, allowing make-up or waiving assignments that have already come due. Nothing in this policy should be construed as requiring the instructor to reduce the requirements for course completion or lowering academic standards. Nor should late registration serve as grounds for requesting or assigning an incomplete grade.

Academic Fresh Start Policy

An undergraduate student who has been previously enrolled at Mississippi Valley State University and who has not been enrolled in any post-secondary education institutions since leaving MVSU for a minimum period of 18 months, may be eligible for enrollment under the Academic Fresh-Start Policy. The Academic Fresh-Start may be sought at the beginning of the student's first semester of readmission to the University. The policy will provide a student the opportunity to have his/her grade point average reflect academic success upon his/her re-enrollment at the university. In such cases, a student's academic record for the grade(s), (terms)/or semester(s) in which the academic fresh-start is granted will be excluded from the grade point average calculation. All credit hours and grades will remain on the academic transcript but will not be counted toward degree requirements. However, a notation of the academic fresh-start will appear on the student's academic transcript. An academic fresh-start may be granted only once to a student and is irreversible. A student must begin the academic fresh-start process by procuring a Request for Academic Fresh-Start Form from the Office of Student Records/Registrar. The Form must be returned to the Office of Student Records/Registrar with all signatures of approval. The student's catalog of record will be the one in effect at the time of entry under the Academic Fresh-Start policy or any subsequent catalog in effect during the period of attendance at MVSU. Courses that are repeated adversely affect the student's ability to meet the required

progression standards by increasing the total hours attempted. The academic fresh-start policy does not allow a student to regain financial aid eligibility.

Note: Under Veterans' Administration rules and regulations, students receiving VA educational benefits will not be eligible for Academic Fresh-Start.

Note: Any student granted an academic fresh-start is not eligible to receive Honor Awards.

Academic Probation/Suspension Policy

Mississippi Valley State University enforces standards of Satisfactory Academic Progress (SAP) as it relates to academic standards. Students who are not successfully completing courses are not considered to be making satisfactory academic progress and, therefore, are given a status of academic probation or suspension status. An undergraduate student is given academic probation or suspension based on the SAP policy as listed below.

Minimum Cumulative Grade Point Average

Credit Hours Attempted	Maintaining Progress	Academic Probation/Suspension
<i>Bachelor's Degree</i>		
0-29 Credit Hours	1.51 or greater	0.00-1.50
30-59 Credit Hours	1.75 or greater	0.00-1.74
60-89 Credit Hours	2.0 or greater	0.00-1.99
90+ Credit Hours	2.0 or greater	0.00-1.99
Teacher Certification	2.0 or greater	0.00-1.99

Satisfactory academic progress shall be monitored at the end of the fall and spring semesters. If the student is not meeting the SAP policy at the end of the fall semester or at the end of the first semester of enrollment, the student will be placed on academic probation at the end of that semester. The student will be placed on academic suspension at the end of the following semester if the student has not met satisfactory academic progress. A student who is placed on academic suspension will not be eligible to attend the following semester. A student who is suspended at the end of the fall semester may petition to be reinstated for the following spring semester by submitting to the Office of Academic Affairs an Academic Suspension Appeal Form for possible readmission on probation. The petition should include documentation of convincing evidence of reasonable expectancy of success if readmission is granted. The Academic Suspension Appeal Form should be postmarked at least seven days before the first day of registration. The request for appeal should be addressed/emailed to:

Office of Academic Affairs
Attention: Academic Appeals Committee
Mississippi Valley State University
MVSU 7268, 14000 Highway 82 West
Itta Bena, MS 38941-1400
Academic.affairs@mvsu.edu

A student who is academically suspended from the University at the end of the spring semester may earn re-admission on probation by attending the University summer session immediately following the dismissal and earning the minimum grade point average, based on his/her classification or earned credit hours. Satisfactory academic progress for students attending the summer session shall be monitored at the end of the summer session. At the end of the summer session, satisfactory academic progress must be earned in at least six semester credit hours of course work. Please review the Financial Aid Probation and Suspension Policy regarding Satisfactory Academic Progress.

Graduate Program Suspension Policy

See Graduate Catalog

Academic Year

The academic year is divided into two semesters with a minimum of 15 weeks each. In addition to the two semesters of the academic year, the University offers an eight-week summer session divided into two four-week mini-terms during the summer.

Advanced Placement

Mississippi Valley State University may grant college-level credit in selected disciplines to students who have earned a score of three (3) or higher on the Advanced Placement (AP) Examination. Advanced Placement scores are to be sent to the Office of Student Records after the date of initial enrollment. The AP examination must be administered by the College Entrance Examination Board. Further,

1. Grades of Satisfactory (S) appear on the transcript for courses in which AP credit is earned;
2. AP courses will not affect grade-point averages;
3. Applicability of credit to a specific degree is to be determined by the student's major department chair;
4. Students may earn a maximum of 12 semester credit hours through the College Board's AP Program;
5. Credit is to be awarded for scores of three (3) or higher; and
6. Six semester hours or two courses per discipline are the maximum allowed.

The disciplines in which College Level Credit may be granted: Art, Biology, Chemistry, Computer Science, English, French, Government, History, Mathematics, Music, Physics, and Spanish.

Credits Awarded

An Advanced Placement (AP) official score report must be sent to the college or university to evaluate, award appropriate college credit, and articulate the specific college course satisfied by the AP exam. Students will not receive any subject area credit with an examination score lower than 3.

**Mississippi public universities or community/junior colleges may provide up to 6 credit hours, per exam, depending on the subject and score obtained on AP exams for students scoring a 4 or 5. (Example: AP U.S. History score of 3= HIS 2213 credit and a score of 4 or 5 could equal both HIS 2213 and HIS 2223.)*

+Year-long AP course that covers two semesters of coursework. (Example: AP U.S. History contains content equivalent to HIS 2213 and HIS 2223.)

Category/AP Course Title	AP Credit Score	Corresponding Course for MS Community and Junior College	College Credit Hours
AP Capstone			
AP Research	3	No corresponding CJC course code; Corresponding course dependent upon college	3
AP Seminar	3	No corresponding CJC course code; Corresponding course dependent upon college	3

AP Examination	Score	Credit hours	Related Courses
Art	3 or 4	3	AR 101
Biological Science (no lab credit)	3 or 4	3	BI 111

Chemistry (no lab credit)	3 4 or 5	3 6	CH 111 CH 111 & 112
Computer Science Principles	3 4 or 4	3 6	CS 112 CS 112 & CS 203
Computer Science A	3 4 or 5	3 6	CS 203 CS 203 & CS 204

⁺ Departmental examination is required for acceptance.

Application for Degree

A student must complete an application for a degree by the deadline listed on the Academic Calendar. An application may be secured online at www.mvsu.edu/academics/registrar/forms, from the Office of Student Records/Registrar or from the student's respective academic department. The initial degree requirement evaluation is conducted by the student's academic advisor/department chair. Upon completion of the initial evaluation, prospective graduating seniors, who meet the requirements to be considered for the Spring or Fall Commencement, are required to complete the "Application to Graduate." The academic department will submit to the Office of Academic Affairs the student's "Application to Graduate" along with other supporting documents (e.g. Curriculum Outline). Upon approval by the Vice President for Academic Affairs, these documents will be submitted to the Office of Student Records/Registrar. Once the application is filed with the Office of Student Records/Registrar, a formal degree audit/evaluation will be prepared and a follow up will be sent to the student's academic department or advisor. Students are responsible for obtaining the status of their graduation completion or deficiencies from their respective academic departments. Should a student not complete the degree requirements by the Spring or Fall Commencement, another application must be filed and another degree audit will be performed. See the Academic Calendar for deadlines.

Change or Declaration of Major

To change or declare a major, the student should secure a Change of Major form from his/her departmental office, Office of Student Records/Registrar or the MVSU Web Module and subsequently submit the form, properly approved, to the Office of Student Records/Registrar.

Change of Class/Class Schedule

Students must follow the class schedule as outlined on their registration form on file in the Office of Student Records/Registrar or their online registration schedule. A grade is recorded for only those courses on the student's registration form. A student is permitted to change classes by dropping or adding courses during the period designated on the Academic Calendar. To initiate a change of class(es), the student secures the Class Schedule Adjustment form from his/her departmental office, Office of Student Records/Registrar or www.mvsu.edu/academics/registrar/forms and subsequently submit the properly approved drop/add form to the Office of Student Records/Registrar.

Class Attendance Policy

Regular and punctual attendance is required for all classes and activities earning credit. Students must comply with class attendance policies set by individual faculty members and complete all work required for each course. Faculty members are obligated to notify students in writing at the beginning of each semester of the policies and procedures on absences and make-up work. When students must be absent from class, they are required to make arrangements satisfactory to the instructor with regard to work missed.

When students know in advance that they will be absent from class, instructors should be notified and arrangements made to secure assignments. Students may obtain from the Vice President of Enrollment Management and Student Affairs an official excuse from class due to an emergency (illness, accident, jury duty, or death in the immediate family) or for attendance at officially authorized functions and authorized field trips sponsored by the University. Official absences presented to the instructor within seven days from the date of the absence entitles the student to make up any work missed according to the policies and procedures on absences and make-up work. Faculty members are required to submit absences and "never attended" reports at a designated time via the Banner System. Students who receive Financial Aid awards can only receive funds for "class attendance." The MVSU Attendance Policy for Financial Aid includes No Shows and Unofficial Course Withdrawals.

No Shows: Students who never attended the class will be administratively dropped from class which may affect the students' eligibility for financial aid. Faculty must submit an electronic report via the Banner System to the Office of Student Records immediately after the close of the last day to drop/add a course or at a designated time.

Unofficial Class Withdrawals: The student's financial aid is based upon class attendance throughout the semester. If a student officially withdraws from all courses, a refund calculation is performed using the actual date of withdrawal.

to determine the amount of funds earned by class attendance and the amount of unearned funds to be returned to the programs that provided the aid. For students who cease attending a class and earn a grade of “F” for the semester, the last date of attendance (LDA) will determine the time attended and the amounts of aid earned and unearned. For a student who attends the class for at least 60% of the semester, the full financial aid award is considered earned. For unofficial withdrawals, faculty members are requested to indicate the last date of attendance or participation in a class event or activity at the time they report the final grade of “F.” The accuracy of reporting can have an impact on the student’s account and on the University’s budget.

Class Auditing

Students are permitted to audit classes at Mississippi Valley State University provided that they have approval of the Department Chair of the major department. The approval of the audit must occur before the end of the registration period. A student is not permitted to change from audit to credit or from credit to audit after the official registration period ends. Students do not earn credit hours for audit classes, and they are excluded in the certification of total credit hours for scholarships, VA loans, insurance, etc. Students auditing a class are not required to take tests and/or examinations or to prepare other written assignments. Students choosing to audit courses must be admitted to the University, enroll in the courses using current registration procedures and pay the same tuition fee as regular students. The course will appear on the student’s transcript with the notation of “AU.” The deadline for withdrawing from an audit class is the same as the withdrawal for other classes.

Class Load

A normal class load is 12 to 19 credit hours per semester. A student must carry a minimum of 12 credits per semester to be considered a full-time student. It is recommended that students enroll in 15 credit hours each semester to be able to graduate in 4 years.

Students desiring to take more than the maximum 19 semester hours must complete the Course Overload Authorization form and obtain approval from designated academic officials. The regulations listed below will apply for schedule overload approval:

- Students must have earned a minimum cumulative grade point average (CGPA) of 3.00. No exceptions will be granted to graduating seniors.
- Students may take only one additional course during a semester.
- Independent study courses will be included in determining the maximum number of hours granted.
- Students must have completed a minimum of two (2) semesters at the University.
- First semester transfer students and first semester freshmen will not be permitted credit overloads.
- Students who receive permission for credit overload may not drop any courses.
- Students with “Incompletes” or other grade deficiencies will not be permitted credit overloads.
- Credit overload does not waive individual course prerequisites nor is it an approval for permission to enter a closed course.
- Students are responsible for any fees assessed for the course overload.

A student who is permitted to carry more than 19 semester hours is charged for each credit hour over 19. The maximum load for a summer session is six or seven semester hours.

Classification of Students

Students are classified according to the total number of semester hours earned.

Freshman 0 - 29 semester hrs

Sophomore 30 - 59 semester hrs

Junior 60 - 89 semester hrs

Senior 90 or more semester hrs

IF	AND IF	THEN
Undergraduate	enrolled in fewer than 6 semester hours	less than ½ -time student

Undergraduate	enrolled in 6, 7 or 8 semester hours	½-time student
Undergraduate	enrolled in 9, 10, or 11 semester hours	3/4-time student
Undergraduate	enrolled in 12 or more semester hours	full-time student
Graduate	enrolled in fewer than 5 semester hours	less than ½ time student
Graduate	enrolled in 6 semester hours	½ -time student
Graduate	enrolled in 7-8 semester hours	3/4-time student
Graduate	enrolled in 9 or more semester hours	full-time student

Community Service Requirements

Community service is a requirement for graduation. Students must satisfy a minimum of 15 hours per year, for a total of 60 hours required for graduation. All community service activities, whether completed during the regular school year, or during vacation periods, must have prior approval of the Community Service/Service-Learning director. Hours accumulated for community service should be submitted to the Community Service/Service-Learning Office. Appropriate forms will be made available to students for documentation of service.

Community Service Yearly Hour Requirements

Freshman Year	15 hours (7.5 hours per semester)
Sophomore Year	15 hours (7.5 hours per semester)
Junior Year	15 hours (7.5 hours per semester)
Senior Year	15 hours (7.5 hours per semester)
Total Hours	60 hours

Transfer students will be required to complete 40 community service hours as a graduation requirement.

Service-Learning Courses

Selected courses throughout the academic offering incorporate service into course curriculum. These courses will be designated on the class schedule by (SL). Service hours earned in these courses may count toward community service hour requirements.

Service Learning Courses

AC 403	Tax II (Spring Semester) (SL)

Course Numbering System

Courses numbered 001-099 include developmental and non-credit courses. Courses numbered 100-199 are freshman-level courses; 200-299 are sophomore level courses; 300-399 are junior-level courses; and, 400-499 are senior-level courses. Courses numbered 500 and above are graduate-level courses.

Degrees Granted

Mississippi Valley State University offers courses of study leading to the awarding of the Bachelor of Arts, Bachelor of Science, Bachelor of Music Education, Bachelor of Social Work, Master of Arts in Teaching, Master of Social Work, Master of Business Administration, Master of Arts and the Master of Science degrees.

Double Majors

Students who matriculate at Mississippi Valley State University may declare two majors. Both majors may be from the same department or different departments. The two majors will be listed on the student's official University transcript. The University also grants a dual degree to students who have met all the general core educational requirements and the specific requirements for the two major programs. Upon the completion of requirements for both degrees simultaneously, the student will be awarded a separate diploma for each degree earned.

Final Examinations

Final examinations are required in all courses, both graduate and undergraduate. Final examinations are not permitted outside of the scheduled examination period. Students may go to the MVSU Website to review Final Examination Schedules and courses offered by semester term.

General Core Curriculum (Effective Fall 2017)

	Semester Hours
English Composition (EN 101 and 102)	6
Humanities* History and English Literature English Options (EN 201, 202) History Options (HI 101, 102, 201, 202 or 215) Students must complete 9 hours of Humanities (3 hours of English Literature and 6 hours of History, or 6 hours of History and 3 hours of English Literature)	9
Fine Arts (AR 101 or MU 107 or TH 201)	3
Orientation (FY 101)	1

Social and Behavioral Sciences** Economics, Geography, Political Science, Psychology, Public Administration and Sociology	6
Speech Fundamentals of Public Speaking (SP 201)	3
Health and Physical Education or ROTC (HL 101 or PE 102 or MS 101 or MS 102)	2/3
Natural Sciences	6/8
College Algebra or Higher Level Mathematics	3
Total Hours	39/42

**Humanities: Upper level courses in English and History may be substituted for courses that are listed. Programs should, however, use the courses listed whenever possible.*

***Social and Behavioral Sciences: Upper level courses in the following disciplines may be used to satisfy the Social and Behavioral Sciences requirement: Psychology, Sociology, Political Science, Public Administration, and Economics. Programs should, however, use the courses listed whenever possible.*

Change of Grade

Grades cannot be changed without the consent, in writing, of the instructor who assigned the grade and then only under extreme conditions. Grades will not be changed later than one semester after the semester in which the grade was assigned. Grades are not subject to change by reason of a revision of judgment on the instructor's part. Only "incompletes" may be revised by the instructor on the basis of a new examination or additional work undertaken or completed after submission of the grade of "I". All grade changes must be approved by the Vice President for Academic Affairs.

Grades and Quality Points

Each instructor assigns grades to students based on standards established as appropriate for each class. Written papers, participation in class discussions, mid-term tests, final examinations, and class attendance may be used by an instructor to determine grades. It is the student's responsibility to comply with the criteria used in grading by instructors. Students should consult with instructors during office hours for assistance.

The class work of the student will be indicated according to the following pattern of values.

Grade	Value	Quality Points Per Credit Hour
A	Excellent	4
B	Good	3
C	Average	2
D	Poor	1
F	Failure	0
I	Incomplete	--
W	Withdrew from class	--
WP	Withdrew from school	--
P	Passing	--
IP	In progress	--
AU	Audit Class	--

S	S Satisfactory (Advanced Placement Course)	--
UF	Unofficial Withdrawal	0

A grade of “I” (Incomplete) may be submitted in lieu of a final grade when the student is absent from the final examination or has remaining course requirements due to illness, death in immediate family or similar circumstances beyond the student’s control. A grade of “I” must not be given to extend the semester so that a student may complete a required assignment(s).

An undergraduate student who receives a grade of “I” is responsible for arranging to complete all course requirements. If a grade of “I” is given, the course is not to be repeated to earn a permanent grade. The unfulfilled course requirement must be satisfied by the instructor of record to change the grade of “I” to a permanent grade within 12 months after the semester for which the grade was recorded. Each grade of “I” that has not been changed to a permanent grade by the end of the designated period as listed above will be converted to a grade of “F.” Once the grade of “I” has been converted to a grade of “F,” the grade cannot be changed. For courses such as senior project, thesis, and internship, the indicator of IP “In Progress” will appear on the student’s academic transcript until course work is completed and a final grade is submitted.

The permanent grade submitted to remove the grade of “I” must be verified by the instructor’s roll book. Change of grades must be approved by the department chair and the Vice President for Academic Affairs. The final grade of “UF” is assigned to a student who stopped attending the class and who did not officially withdraw from the class. Whenever permanent grades are submitted to replace the “I” grade or “IP” indicator, the grades will be reflected on the transcript in the semester in which the student originally enrolled in the class. If the degree requirements are completed at the time the “I” grade or “IP” indicator grades are recorded, the “Degree Date” will reflect the semester and year in which the permanent grade is recorded.

Repeated Course Policy

Students may enroll in repeated courses for credit at Mississippi Valley State University. Repeated courses enable the student to achieve a higher cumulative grade point average (GPA). Repeated courses, however, adversely affect the student’s ability to meet the required progression standards by increasing total hours attempted. (Refer to Financial Requirements). The highest grade will stand as the official grade, and only the highest grade earned will be calculated in the cumulative grade point average.

Graduate Record Examination

The Graduate Record Examination (GRE) is strongly recommended for the senior who plans to pursue graduate studies. The GRE is administered throughout the school year. Applications and information are available in the University Testing Office, located in the Lucile Petry-Leone Building, telephone number: 662-254-3334.

Graduation Requirements

Students must complete all degree requirements before they will be allowed to participate in graduation. The curricula (academic map) published in the announcements of the various departments outline the specific requirements for the degrees offered at the University. To complete degree requirements, an undergraduate student must:

- Complete the minimum semester credit hours based on the major program.
- Complete the curriculum requirements of the major field.
- Earn a cumulative grade point average of not less than 2.00.
- Earn a grade of “C” or better in each major course, if department does not allow D grades.
- Complete a minimum of 25% of the total credit hours requirement of the program at MVSU.
- Earn no more than 24 semester hours through correspondence.
- Earn a minimum grade of “C” in English Composition 101 and 102
- Satisfactorily complete the general core curriculum listed in this catalog.
- Complete the required community service hours.

Residency Requirements

In order to receive a baccalaureate degree from Mississippi Valley State University, a student must complete a minimum of 25% of the total credit hours required of the degree program at MVSU.

Honors

The President's List is composed of those students who, during a semester, complete a minimum of 12 credit hours with a grade point average of 4.00. Students will not be included who have a grade of "I".

The Distinguished Scholars List is composed of those students who, during a semester, complete a minimum of 12 credit hours with a minimum grade point average of 3.80- 3.99. Students will not be included who have a grade of "I".

The Honor Scholars List is composed of those students who, during a semester, complete a minimum of 12 credit hours with a grade point average of 3.50-3.79. Students will not be included who have a grade of "I".

The Scholars List is composed of those students who, during a semester, complete a minimum of 12 credit hours with a grade point average of 3.20-3.49. Students will not be included who, during that period, have made a grade lower than "C." Students will not be included with a grade of "I" or "F" or "W."

Graduation with Honors

To graduate with honors and to receive the honors recognitions, a student must complete a minimum of 60 credit hours in residence at the University and meet one of the following requirements:

Summa Cum Laude 3.80 or above
Magna Cum Laude 3.50 - 3.79
Cum Laude 3.20 - 3.49

Commencement

Commencement is held at the end of the spring and fall semesters when degrees are conferred upon and issued to those who have completed degree requirements by the end of those semesters. A student wishing to receive the degree "In Absentia" must apply to his/ her academic department chair at least 30 days prior to the scheduled Commencement. All students classified as seniors must undergo a transcript evaluation during the fall or spring semester. Those who complete the degree requirements by the end of the summer term, degrees are conferred at the end of the following fall semester

Major

A major consists of a planned sequence of courses totaling not fewer than 30 semester credit hours usually in one discipline which, when combined with general education and elective courses, leads to a bachelor degree. The credit hours required may vary in some degree programs because of national accreditations or professional certification requirements. Students should consult the appropriate academic department for information on each discipline's requirements for a major. Students should declare a major by the end of the sophomore year or sooner. To change a major, students must complete an official change of major form which may be obtained from the student's academic department or from the Office of Student Records/Registrar.

Areas of Concentration

A major program may require a core program of study within the discipline in addition to required courses in the major area of study. Students should consult with the appropriate department for information on areas of concentration.

Minor

A minor consists of a planned sequence of courses totaling not fewer than 18 semester credit hours as specified by each department. Some degree programs may require the student to complete a minor while other programs may not. Students should consult the appropriate academic department for specific requirements.

Mid-Term and Final Grade Reporting

At the end of the seventh week of the regular semester, or as designated on the University Academic Calendar, instructors will submit Mid-Term grades for undergraduate and graduate students. Mid-semester grades are not recorded on a student's permanent record. At the conclusion of a semester or summer session, final grades can be accessed via the Student Self-Service System at <https://sutton2.mvsu.edu> ~~University's Web site~~. Mid-semester grades are also displayed on the web site, <https://sutton2.mvsu.edu>

Mississippi Certificates

The issuance of certificates to teach in the public schools of Mississippi is an exclusive function of the State Department of Education, and the sole authority for exercising this function is vested in the State Superintendent of Education. Qualifications and requirements for teaching certification are compiled and published by the State Department of Education. Information concerning certification may be obtained from the College of Education located in the Olympia P. Lowe Education Complex: 662-254-3618 or 3619.

Name and Address Change

University with the appropriate documentation which substantiates the legal name change. This information must be submitted to the Office of Student Records prior to the student's next registration. Registration under a name different from that used in the student's last enrollment cannot be accomplished without appropriate documentation, which becomes a part of the student's permanent file. All grade reports and transcripts are issued under the student's legal name as recorded in the Office of Student Records/Registrar.

A student who has had a change of address after his/her last registration or during current enrollment must provide the University with the new address by completing the appropriate form. This "Change of Record" form may be secured online at www.mvsu.edu/academics/registrar/forms or from the Office of Student Records/Registrar located in the Sutton Administration Building. All grade reports and transcripts will be mailed to the location of the new address.

PRAXIS Series

All students in Teacher Certificate Programs are required to take the PRAXIS Series (Professional Assessments for Beginning Teachers) examinations. These examinations are important and are required in many states, including Mississippi, before employment in the public-school systems.

Registration

All students are expected to register and pay their fees before the day designated on the Academic Calendar for classes to begin. Sufficient time is allowed during registration for students to consult with their major advisor and complete all procedures necessary for enrollment to classes. Written directions for registration procedures and the necessary registration forms will be given to beginning freshmen and new students during the orientation period. Other students will receive written directions and registration forms in their major department or at the registration site(s). The student is officially registered only when all courses have been entered, all fees have been paid. Students who have not fully registered cannot and should not attend class.

Release of Student Information

The Buckley Amendment-The Family Educational and Privacy Act of 1974
Provisions for reviewing and correcting student information as required under the Family Educational Rights and Privacy Act of 1974 (The Buckley Amendment) have been available to Mississippi Valley State University students and parents for many years. Essentially, students have the opportunity to see official copies of their personal and academic information which are collected and distributed by the Office of Student Records during each semester of enrollment. Further, the student has the opportunity to correct personal and other data and submit such changes to the Office of Student Records/Registrar during the registration period.

Pursuant to requirements of the Family Educational Rights and Privacy Act (FERPA), the following types of information are hereby designated as “directory information” and may be released via official media of MVSU according to the University policy: the student’s name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, part-time or full-time enrollment status the most recent previous educational agency or institution attended by the student and other similar information. Students must inform the Office of Student Records/Registrar, in writing, if they refuse to permit the University to release “directory information” about them without specific prior consent. Notification to the University of refusal to permit the release of “directory information” will result in the University’s refusing to release any of this information to anyone except as provided by law. Such a decision may result in a student’s name not appearing in lists of honor students, candidates for graduation, athletic programs, news releases, and the like. Therefore, students are encouraged to give this matter careful consideration before making the decision. Once made, the decision will remain in effect until notification is received by the Office of Student Records/Registrar, in writing, to the contrary. If the student is a minor, the parents or legal guardians may exercise the same rights. If the student is 18 years of age or older, MVSU will not permit the parents or legal guardians to inspect the student’s record unless the student has stated, in writing, to the Director of Student Records/Registrar that the records may be released or opened for inspection. However, if the parents are supporting the student—that is, if the student is a dependent as defined by the Internal Revenue Code—then the University may choose to disclose the records to the parents. If parents insist on a review of the records and demonstrate that their student is dependent, the University will grant access to the records.

Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of federal law as they pertain to access and disclosure of student education records. The name and address of the office that administers this law:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-4605

Questions or concerns about the privacy of students’ education records or these procedures may be brought to the attention of the Director of Student Records/ Registrar, located in the Sutton Administration Building.

Semester Hour

A semester hour is the term used to describe the number of credits received by the student for successfully completing a specific course. A semester hour is one 50-minute period of lecture per week or a minimum of two 50-minute periods of laboratory or studio work per week for one 16-week period or its equivalent. The semester hour credit given a course is not necessarily equal to the actual number of clock hours spent in class. This applies particularly to courses in the sciences and fine arts where laboratory or studio sessions are scheduled in addition to regular class lectures.

Calculation of Credit Hours and Grade Point Average

Upon completion of the first undergraduate degree and the student’s re-enrollment in undergraduate courses, the credit hours and grade point average calculation will continue. In essence, any additional undergraduate credits will be calculated into the total undergraduate credits and the undergraduate grade point average. The calculation for credit hours and grade point average will start over to be separated at the graduate level only.

Student Responsibilities

Students are responsible for knowing academic regulations, policies, rules, and procedures as related to their particular academic degree programs. Each academic program has requirements that must be met before the degree is awarded. It is the responsibility of the student to complete all course work and other University requirements for the selected major and degree.

Student Rights and Freedoms

Mississippi Valley State University endorses academic freedom – freedom to teach, freedom to learn, freedom to think, freedom to speak, freedom to write, and freedom to publish. The institution also endorses citizenship freedoms including freedom of peaceful assembly, freedom of the press, and freedom to petition for redress of grievances. The University seeks constructive changes and will work with the faculty and the Student Government Association to make necessary revisions in the programs and procedures of the institution. The University respects the rights of students to criticize, dissent, and protest. However, Mississippi Valley State University will not tolerate the use of either physical force or physical obstruction which infringes upon the freedom of others. This institution maintains that the rights and freedoms of students do not include the right to hamper and restrain the movement of others; to interfere with school operations including the conduct of classes and the performance of activities outside of school buildings; to disrupt school operations and office work; to obstruct movement into or through school buildings; to seize and occupy school buildings; and to injure persons or to damage or to destroy property.

Transcript Request Procedure

To request a transcript of the academic record at MVSU, students may order online, submit a Transcript Request form or a letter of request

Order Online

You may click here <http://www.parchment.com/u/registration/33328/account> to access the site to order your transcript online.

Transcript Request Form

- Go to www.mvsu.edu/academics/registrar/forms and click on [Transcript Request Form](#) to download this form. The form may also be obtained from the Office of Student Records.
- A separate request is required for each transcript sent to a different address. There is a \$10.00 fee for each transcript requested, payable via a cashier's check or money order made out to MVSU or by selected credit cards/debit cards. An additional fee of
- \$15.00 is required to fax an academic transcript.
- All transcript processing fees are subject to change. The student's signature is required for the transcript request to be processed.
- Each student is allowed one complimentary transcript. Upon graduation, the student is allowed a second complimentary transcript. Picture identification is required to pick up a transcript.

A written, signed authorization is required for a transcript to be requested or picked up by someone other than the person whose name is listed on the transcript.

Written Request/Letter

Letters requesting a transcript must be sent to the Office of Student Records and must include the following:

- The name and address for the transcript to be sent
- Your name when you attended MVSU
- Your date of birth
- Your student number or social security number
- Approximate dates of attendance and/or date degree was conferred
- Indicate if your transcript should be sent NOW or after the grades for current semester are posted or after graduation and degree is posted
- If paid by credit card via telephone, list the receipt number.
- The student's signature is required for the request to be processed.
- A picture identification is required to pick up a transcript.
- A written, signed authorization is required for a transcript to be requested or picked up by someone other than the person whose name is listed on the transcript.

Note: There is a three to five day turn-around time for mailed in requests. There is a 24-hour turnaround time for walk-in requests.

Send letter and fess to: Office of Student Records
Mississippi Valley State University MVSU 7264
14000 HWY 82 West
Itta Bena, MS 38941-1400
Fax: 662.254.3325

Official and Unofficial Withdrawals from The University

Official University Withdrawals

A student's official withdrawal date is the date the student begins the University's withdrawal process. A student may also give an oral or written notification to the University that he or she has ceased to attend the University and does not plan to resume academic attendance or will cease to attend the University. In such cases, the initial notification date will be used as the official withdrawal date. An oral notification must be confirmed in writing no later than seven days following the oral notification. If a student begins the University's withdrawal process and provides official notification orally or in writing of his or her intent to withdraw, the earlier of the two dates is the official withdrawal date and the date must be used for purposes of fee payments and refund calculation. Sometimes students cease their enrollment without notifying the University. This is considered an unofficial withdrawal.

Unofficial University Withdrawals

A student may not begin the University withdrawal process or may not notify the University of his or her intent to withdraw due to illness, accident, or other circumstances beyond the student's control. However, the official withdrawal date is the date that the University declares from its consideration of the circumstance. Also, a student who does not notify the University either orally or in writing of his or her intent to cease academic attendance, the last date of class attendance will be considered the student's withdrawal date. Each withdrawal that is received in the Office of Student Records/Registrar prior to the first day of class will be processed as a dropped registration. If a student does not provide official notification of his or her intent to withdraw (dropout), the withdrawal date is the midpoint of the payment period or period of enrollment.

A student who withdraws from the University must secure a Withdrawal Form from the Office of Student Records/Registrar, obtain necessary signatures of clearance, and file the form in the Office of Student Records/Registrar. A student who withdraws from the University after the last day to withdraw from courses will receive a grade of WP.

Academic Grievance

A student's grades should represent the instructor's good faith judgment of the student's performance in the course based on the informed use of appropriate measurement and evaluation instruments. If a student disagrees with a grade he/she received, the following procedure should be followed until the problem is resolved. These steps must be followed in order and appropriate documentation of each step (including notation of the date, time, location, length, content, and final outcome of the discussion) must be provided in order to proceed to the next step.

1. The student should discuss the disputed grade with the instructor of the course no later than the end of the third full week of classes of the semester following the receipt of the final course grade. This discussion should normally take place during the instructor's posted office hours.
2. If the dispute is not resolved in step one, the student should request a meeting with the Chairperson of the department offering the course to discuss the issue. This meeting may or may not include the instructor.
3. If the dispute is not resolved in step two, the student should then submit to both the instructor and the Chairperson of the department an Academic Grievance Appeal Form. The instructor will review the appeal and submit a response to the Chairperson of the department after completing the appropriate section of the form. The chair will review both parties' submissions and share a possible resolution to both parties.
4. If the shared resolution is not satisfactory to the student, then the Academic Grievance is submitted to Academic Affairs for a resolution. The Academic Grievance will then be reviewed by the Vice President of Academic Affairs and a decision rendered. The decision of the Vice President for Academic Affairs is final, and no further appeal is possible.

Grievances shall not encompass the quality of instruction, the difficulty of testing, the rigor of grading, or the appropriateness of the course requirements. The judgment of what standards are appropriate resides with the instructor, unless there is compelling evidence that those standards are arbitrary or capricious.

POLICIES AND PROCEDURES ON CHEATING AND PLAGIARISM

Philosophy

Honesty and integrity are essential values of Mississippi Valley State University's mission to pursue truth and knowledge. All persons—administrators, faculty, staff, and students—share the responsibility for achieving high standards of excellence. Academic dishonesty of any kind negates this mission and is antithetical to the development of morally and ethically-sound human beings. Therefore, Mississippi Valley State University will not tolerate cheating or plagiarism in any form. Cheating and plagiarism compromise the process of fair and equitable evaluation of students' academic performance and erode the quality and value of degrees conferred by the University. Students who engage in such activities deny themselves the opportunity to benefit from accurate assessment and feedback and prevent full academic and personal development.

Responsibility

Although the faculty is responsible for establishing the standards for moral and academic excellence in teaching and learning, these standards can be reached only with the cooperation and support of students. Each student is expected, therefore, to accept responsibility for maintaining honesty and integrity in all endeavors inside and outside the classroom, studio, or laboratory. Members of the faculty encourage ethical behaviors by establishing an atmosphere of respect in the classroom; stating clearly on the syllabus his/her standards and expectations for academic performance; structuring learning situations that encourage honesty and deter cheating and plagiarism; and for presenting and enforcing the University's policy on academic dishonesty.

Definitions

Cheating is the actual or attempted practice of fraudulent or deceptive acts for the purpose of improving one's grade or obtaining course credit. Such behavior also includes assisting another student in such practice. Although cheating is often associated with examinations, it is the intent of this definition that the term "cheating" not be limited to examination situations only, but also that it includes any and all actions by a student that are intended to gain an unearned academic advantage by fraudulent or deceptive means (examples below).

Examples of Cheating

The following examples of cheating are intended to be representative, but are not all inclusive:

- Looking at another student's test during an exam.
- Copying from another student.
- Stealing or arranging for the theft of an exam.
- Knowingly reviewing an unauthorized copy of an exam.
- Using lecture notes or textbooks during an exam when prohibited.
- Possessing crib notes during an exam.
- Having someone else take an exam for you.
- Feigning illness or telling falsehoods to avoid taking an exam at the scheduled time.
- Claiming falsely that you took an exam at the scheduled time.
- Storing, receiving, and/or accessing course subject matter in a calculator, pager, cellular telephone, computer, or other electronic device that can be used during an exam period without instructor authorization.
- Utilizing a calculator or other learning aid not expressly allowed by the instructor.
- Obtaining assistance in answering questions on a take-home exam, when such action is prohibited.
- Attempting to bias an instructor's grading after an exam.
- Using bribery or threats to obtain an undeserved grade.
- Changing an answer on a graded test and claiming the student's response to the question was incorrectly marked wrong.
- Copying the work of other students in whole or in part and submitting it as your own.

- Submitting a report purchased from a commercial service or downloaded from the Internet.
- Hiring a ghost writer to compose a paper.
- Claiming an assigned share or team report, toward which insufficient or no contribution was made.
- Lying about the reason for not submitting work on time.
- Stealing another's work and submitting it as one's own.
- Submitting the same paper to two or more different instructors for credit in their courses without their prior permission.
- Inventing, falsifying, or altering data for a research laboratory experiment.
- Depending on others to complete assignments or homework when instructors have required independent work.
- Sabotaging someone else's work.
- Destroying or altering library material to prevent others from using the material.
- Helping others to accomplish any of the above.
- Other similar activities.

Plagiarism is a specific type of cheating which consists of the misuse of the published and/or unpublished works of others by misrepresenting the intellectual property of others as one's own ideas or works (examples below).

Examples of Plagiarism

The following examples of plagiarism are intended to be representative, but not all inclusive:

- Failing to give credit via footnotes or in-text citations for ideas and concepts, data and information, statements and phrases, and/or interpretations and conclusions derived by another, including AI.
- Failing to use quotation marks when quoting directly from another, whether it is a paragraph, a sentence, or any part thereof.
- Minimally paraphrasing the expressions or thoughts of others without appropriate quotation marks or attributions.
- Assembling parts from various works and submitting the synthesis or single paper as your own creation.
- Including references in the bibliography that were not used.
- Falsely citing bibliographic references.
- Other similar activities.

Academic Scholarships

All institutional scholarships (academic, athletic, fine arts, band) use the Pell Grant as the floor upon which the scholarship is built. This means that any Pell Grant that the student is eligible for is applied toward the student's direct costs first. Any remaining costs will then be covered by the scholarship.

Presidential Academic Scholarship

Requirements: Incoming Freshmen, Cumulative high school GPA 3.0 or above; ACT score of 24 or above or the SAT equivalent. The scholarship covers tuition, room, board, fees and a book allowance of \$500. (Room and Board charges will only be awarded if student resides on-campus) Renewable with a cumulative 3.25 GPA and 30 earned credits each year (fall and spring semesters only). Scholarship is renewable for 3 years.

Deadline: February 1

Vice President's Scholarship

Requirements: Incoming Freshmen, Cumulative high school GPA of 3.0, ACT score of 22-23 or SAT equivalent. The scholarship covers Full tuition and fees plus a book allowance of up to \$300 annually. Renewable with a cumulative 3.0 GPA and 30 earned credits each year (fall and spring semesters only). Scholarship is renewable for 3 years.

Deadline: February 1

University Scholarship

Requirements: Incoming Freshmen, Cumulative high school GPA of 3.0, ACT score of 20-21 or SAT equivalent. The scholarship covers 1/2 tuition and fees plus a book allowance of up to \$200 annually. Renewable with a cumulative 3.0 GPA and 30 earned credits each year (fall and spring semesters only). Scholarship is renewable for 3 year.
Deadline: February 1

Valedictorian/Salutatorian Academic Scholarship-Green and White

Requirements: Incoming Freshmen who have attained the honor of being the Valedictorian or Salutatorian of their graduating class. The scholarship covers Full tuition and fees and a \$200 book allowance. Renewable with a cumulative 3.0 GPA and 30 earned credits each year (fall and spring semesters only). Scholarship is renewable for 3 years. The recipient of this scholarship must be a first-time freshman.
Deadline: June 15th.

Transfer Scholarship-Valley

Requirements: Transfer Students, completed 30 semester hours of core hours of designated college coursework, or received an AA degree from a regionally accredited community or junior college, with an overall cumulative GPA of 3.25 or higher. Scholarship covers tuition and \$300 book allowance; 15 semester hours required each semester, 3.0 GPA required to renew. Renewal term will be determined by student's classification once transferable credit hours are evaluated.

Music Scholarships

Music scholarships are awarded to high school graduates who show special talent in instrumental, vocal, and keyboard areas; and who desire to major in music or music education at Mississippi Valley State University. Partial scholarships are also available for students who participate in the band, choir, and orchestra. Applicants for these scholarships must be recommended by the high school principal or a member of the school faculty and must be auditioned by a representative of the University from the Fine Arts Department.

Athletic Scholarships

Mississippi Valley State University is a member of the National Collegiate Athletic Association (NCAA) Division I FCS (Football Championship Subdivision) and Southwestern Athletic Conference (SWAC). As such, student athletes must have their initial-eligibility status determined by the NCAA Eligibility Center. Athletic scholarships may be granted to first-time freshmen as well as two/four-year college transfers who meet the NCAA requirements for initial and transfer eligibility certification. In addition, they must also meet the admission requirements as determined by MVSU to be granted an athletic scholarship. All athletic scholarships are recommended by the Head Coach. Perspective student athletes (PSAS) must register with NCAA Eligibility Center by paying the fee, submitting ACT/SAT test scores, final high school transcript and amateurism certification.

Scholarships are available in fifteen (15) sports which include: basketball [men (M) and women (W)]; tennis (M and W); Softball (W); six sports in cross country/indoor track/outdoor track (3-M and 3-W); volleyball (W); baseball (M); football (M); and soccer (W). Athletic scholarship awards are dependent upon availability of funds and subject to prorating. Athletic scholarship awards are awarded on a yearly basis dependent upon maintaining progress towards degree requirements, being a member of the sports team, and availability of funds. All awards are subject to prorating. For further information pertaining to athletic scholarships, contact the MVSU Office of Compliance at 662.254.3552.

Mississippi Valley State University offers other scholarships not awarded through the Financial Aid Office to deserving MVSU students.

The Mississippi Valley State University Foundation (General) Scholarship

The Mississippi Valley State University Foundation awards a number of annual scholarships to deserving students through a discretionary fund. The number and amount of these scholarships are determined by a majority vote of Mississippi Valley State University Foundation Board members. For further information contact the Office of University Relations at 662.254.3572.

Refunds

Students on Federal Financial Aid who withdraw from the University during the refund period must return a portion of any refund to the financial aid programs from which aid was disbursed. The method of returning funds to financial aid programs shall be calculated using the current federal aid refund policy in conjunction with the University Refund Policy.

Eligibility

Students who are eligible for the federal and state programs listed above must meet the following criteria:

- Be a U.S. citizen or eligible non-citizen.
- Be registered with Selective Service, if required to do so.
- Have financial needs as determined by an approved needs-analysis.
- Be enrolled half-time.
- Make satisfactory academic progress as defined by MVSU toward a degree or certificate.
- Not be in default on any loan or not owe a refund on any grant made under Title IV of the Higher Education Act of 1965, as amended by any institution.

FINANCIAL AID

The Office of Financial Aid at Mississippi Valley State University coordinates all financial aid assistance offered to students. The purpose of financial aid is to assist students who seek to obtain a baccalaureate or a master's degree. Financial Aid is the economic assistance available to help students meet their educational expenses while attending Mississippi Valley State University. Financial assistance may be a combination of or in the form of Federal Grants, Federal Work Study, Federal Direct Loans and Scholarships. Students seeking federal financial aid are required to complete the Free Application for Federal Financial Aid (FAFSA) each year at www.StudentAid.gov or they may call 1-800-4-FED-AID (1-800-433-3243). All aid is contingent upon the student meeting all eligibility and admission requirements to Mississippi Valley State University. An award is made once the Financial Aid Office receives a valid Student Aid Report (SAR). The priority deadline for consideration of all programs is February 1st of each year.

Mississippi Valley State University does not require students to complete a university financial aid application to receive assistance except if a student plans on attending Summer School.

Federal Student Aid Programs

Federal Pell Grant

The PELL Grant is a major source of financial aid usually awarded only to undergraduate students who have not earned a bachelor's or a professional degree that meet the Student Aid Index (Formerly known as Expected Family Contribution) requirements.

Second Chance Pell Grant Program

Beginning with the 2022-2023 award year Mississippi Valley State University will be able to provide second chance pell grant funds to eligible incarcerated students. These incarcerated students will need to complete the Free Application for Federal Student Aid (FAFSA) to determine eligibility in receiving the second chance pell grant.

Federal Supplemental Educational Opportunity Grant (FSEOG)

The FSEOG is a grant for undergraduates with exceptional financial need. FSEOG is directly administered by the financial aid office and awarding amounts is determined by the availability of funds.

Federal Work-Study (FWS) and College Work Aid (CWA)

Federal Work-Study and College Work Aid provides part-time jobs for undergraduate and graduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the student's course of study. Students are allowed to earn federal minimum wage and work up to 20 hours per week. College Work Aid is awarded to undergraduate and graduate students that are not eligible to receive federal work study. Awarding of CWA is based on the availability of funds.

William D. Ford Federal Direct Loan Program (Direct Loan)

The William D. Ford Federal Direct Loan Program is the largest federal student loan program. The U.S. Department of Education is the lender. There are four types of Direct Loans available to students to help pay education expenses. To receive either type of loan listed below, you must be enrolled at least half-time in a degree-seeking program of study. Students must complete and submit the Free Application for Federal Student Aid (FAFSA) each year to receive any federal student loan. There are limits on the amount in subsidized and unsubsidized loans that a student may be eligible to receive each academic year (annual loan limits) and the total amounts that you may borrow for undergraduate and graduate study (aggregate loan limits).

Direct Subsidized Loans are loans made only to eligible undergraduate students who demonstrate financial need to help cover the costs of higher education. The amount that students are eligible to borrow is determined by MVSU and the amount may not exceed your financial need or the cost of attendance.

Direct Unsubsidized Loans are loans made to eligible undergraduate students to help cover the costs of higher education; there is no requirement to demonstrate financial need. The amount that students are eligible to borrow is determined by MVSU based on the cost of attendance minus other financial aid you receive.

There are limits on the amount in subsidized and unsubsidized loans that a student can receive. These limits vary depending on:

- what year you are in school and
- whether you are a dependent or independent student.

First time borrowers/students at Mississippi Valley must complete [Entrance Loan Counseling](#) and Master Promissory Note (MPN) on <http://www.studentaid.gov/mpn> before any loan funds are disbursed. A Master Promissory Note (MPN) must be completed on StudentAid.gov for MVSU to certify an accepted loan award.

CLASSIFICATION	DEPENDENT STUDENTS	INDEPENDENT STUDENTS
FRESHMAN	Subsidized – \$3,500 Unsubsidized - \$2,000	Subsidized – \$3,500 Unsubsidized - \$6,000
SOPHOMORE	Subsidized – \$4,500 Unsubsidized - \$2,000	Subsidized – \$4,500 Unsubsidized - \$6,000
JUNIOR/SENIOR	Subsidized – \$5,500 Unsubsidized - \$2,000	Subsidized – \$5,500 Unsubsidized - \$7,000
GRADUATE	Not Applicable	Unsubsidized - \$20,500

Additional information regarding the subsidized and unsubsidized loans is:

- The U.S. Department of Education pays the interest on the subsidized loan while you are enrolled in school at least half-time;
- Repayment begins six months after the student graduates, leaves school, or drops below half-time enrollment (referred to as 'Grace Period');
- Interest does not accrue on Direct Subsidized Loans while the loan is in deferment. All other federal student loans that are deferred will continue to accrue interest. Any unpaid interest that accrued during the deferment period may be added to the principal balance (capitalized) of the loan(s). Deferment is a

postponement of loan payments that is allowed under certain conditions and during which interest does not accrue.

Depending on financial need, a student may receive both subsidized and unsubsidized loans for the same enrollment period, but the total amount of these loans may not exceed the annual loan limit.

Direct Parent PLUS Loan are federal loans that parents of dependent undergraduate students can use to help students cover the costs of higher education.

- The student must meet the general eligibility requirements for federal student aid.
- The U.S. Department of Education is the lender.
- The maximum loan amount is the cost of attendance minus any other financial aid received.
- A credit check and PLUS MPN Application is required. This is done on StudentAid.gov.

If a Parent PLUS Loan is not approved, the dependent student is eligible to receive additional federal unsubsidized funds.

Students that are Mississippi residents are eligible to receive some form of State Aid that is administered by the Mississippi Office of Student Financial Aid at <http://www.msfinancialaid.org/> to assist with education expenses.

Mississippi Tuition Assistance Grant (MTAG)

The Mississippi Resident Tuition Assistance Grant (MTAG) offers financial aid assistance to Mississippi residents attending state approved public and nonprofit two-year and four-year eligible colleges and universities. The primary objective of the MTAG is to provide educational opportunities for students who wish to pursue post-secondary education in the state.

Application Deadline: September 15th

Award Amount and Length of Eligibility: MTAG awards may be up to \$500 per academic year for freshmen and sophomores and \$1000 per academic year for juniors and seniors. A recipient may receive this grant up to 8 semesters or degree completion whichever comes first.

Mississippi Eminent Scholars Grant (MESG)

The Mississippi Eminent Scholars Grant (MESG) offers financial aid assistance to Mississippi residents attending state approved public and nonprofit two-year and four year eligible colleges and universities. The primary objective of the MESG is to provide educational opportunities for students who wish to pursue post-secondary education in the state.

Application Deadline: September 15th

Award Amount and Length of Eligibility: MESG awards may be up to \$2,500.00 per academic year, but may not exceed tuition and required fees. A recipient may receive this grant up to 8 semesters or degree completion whichever first.

Higher Education Legislative Plan for Needy Students (HELP)

The Higher Education Legislative Plan for Needy Students (HELP) offers financial assistance to qualified Mississippi students whose financial need, as demonstrated by federal student aid eligibility, will not be met with gift aid from other sources.

Application Deadline: March 31

Award Amount and Length of Eligibility: Tuition and required fees. A recipient may receive this grant up to 8 semesters or bachelor's degree completion, whichever comes first.

You may contact the Mississippi Office of Student Financial Aid at 1.800.327.2980 (toll-free in Mississippi) or at 601.432.6997 or online at www.mississippi.edu/financialaid for additional information or questions about other types of aid offered by the State of Mississippi.

Scholarships

Mississippi Valley State University offers several Academic Scholarships to first-time, first-year students. They are: the Presidential Academic Scholarship, the Vice President's Scholarship, the University Scholarship, the Transfer Scholarship, and the Val/Sal Scholarship. The student must meet admission requirements to the university to be considered. See the requirements and additional information for Academic Scholarships in the admissions section of this catalog.

Departmental Scholarships

Students accepting scholarships from an academic department are required to meet the terms and conditions set by the academic department. Most scholarships require that students maintain a minimum grade point average to continue receiving the scholarship.

Service Scholarships (Athletic, Band, Choir, ROTC)

Students receiving scholarships from the University Athletic, Band, Choir, and ROTC Programs are required to meet the terms and conditions of the scholarship. Service scholarships require the Free Application for Federal Student Aid (FAFSA) to be filed and a valid Student Aid Report (SAR) received by the school in order for the scholarship to be valid (awarded). These scholarships also require scholarship recipients to meet financial aid satisfactory academic progress requirements.

Private Fund Scholarships

Students enrolled at MVSU can apply for several General Scholarships or Need Based Aid available from various sources donated to the university. Eligible applicants are incoming freshmen, transfer students and currently enrolled students at Mississippi Valley State University. University employees (full-time) are not eligible to apply. Students must complete an application yearly to be considered for any general scholarship or need based aid award.

Summer School

Summer School Students (both undergraduate and graduate) who are deficient in credit hours or grade point average may make up the deficiencies during the summer session. As of Summer semester 2021 MVSU has a summer semester based on "Parts of Terms." This parts of term set up is where MVSU has one summer semester with two four week mini session and one eight week session (For Emerging Scholar Program students) within it. The first mini session typically begins at the end of May and concludes typically at the end of June. The second mini session typically begins during the first week of July and typically ends early august. Students must be currently making satisfactory academic progress to be eligible to receive federal financial assistance. MVSU requires students to submit a Summer School Application for Financial Aid yearly to determine summer eligibility. Students must also register for all classes he/she intends to take for the summer semester prior to the end of mini session one. If a student fails to register for a course within mini session two prior to the end of mini session one the course taken will not count towards the student financial aid calculation. A student can take a total of 6 -8 credit hours within one session or over the course of two session in which a student may take up to 16 credits. The summer award is based upon the remaining/ unused funds available which primarily include student loans. Students may receive Federal Pell Grant and other federal grants based on MVSU utilizing "Year around Pell." This is provided that the student has not reached his/her maximum Lifetime Eligibility Used (LEU) of 600%. Students must be enrolled in at least 6 required credits to be eligible for financial aid. University scholarships are not available for summer awarding. A FAFSA application must be completed for the current year and upcoming new award year. Transient students are not eligible for summer aid at MVSU.

Standards of Satisfactory Academic Progress for Financial Aid

Mississippi Valley State University (MVSU), as required by federal regulations, has developed standards of Satisfactory Academic Progress (SAP) for Financial Aid as it relates to eligibility to receive federal student aid funds, including grants, loans, and work-study, state aid, and university scholarships. A student's progress is measured each academic year at the end of the Spring semester or after the completion of 2 full term semesters.

The University's SAP Policy is cumulative measuring a students' progress based on two standards: Qualitative Standard (GPA) and Quantitative Standard (PACE).

Qualitative Standard - Measures the students Grade Point Average (GPA).

Quantitative Standard (PACE) - Measures the maximum time frame student has complete a degree, the minimum percentage of courses attempted and passed (67%) towards completion of their degree program. Maximum Time Frame refers to the maximum length of time students are allowed their degree program. A student is allowed 150% of the published length of the degree program, including transfer hours to complete their degree program.

The following chart shows the number of credit hours and required GPA an undergraduate student would have to maintain to remain eligible for Title IV aid.

Credit Hours Attempted	Cumulative GPA Required
0-29 credit hours	1.51 or greater
30-59 credit hours	1.75 or greater
60-89 credit hours	2.00 or greater
90+ credit hours	2.00 or greater

Undergraduates are ineligible to receive Title IV funds once they have attempted 192* credit hours and must successfully appeal to receive financial aid to complete their program in excess of the 192* credit hours.

Note: A change of academic program (major), W, F, I, or UF does not discount the number of hours toward your degree completion rate.

** number of total hours may vary by program*

Course Incompletes, Withdrawals and Noncredit Remedial Courses

Grades of A, B, C, D, and P are considered acceptable grades for determining the successful completion of course work during an academic term. Grades of I, W, WP and UF are not considered passing, and will count toward the total hours attempted.

Students are required to complete coursework requirements in which a grade of 'I' is received within 12 months after the semester for which the grade was recorded. Each grade of "I" that has not been changed to a permanent grade by the end of the designated period as listed above will be converted to a grade of "F."

Withdrawals (officially or unofficially) do not constitute progress and may have an adverse effect on satisfactory academic progress. A student who withdraws from the university must be meeting satisfactory academic progress at the time that progress is reviewed for all students. A student not meeting progress will be placed on financial aid suspension and must successfully appeal before he or she is eligible to receive aid.

Monitoring and Notification of Financial Aid Probation and Suspension

Satisfactory Academic Progress for Financial Aid will be reviewed on all students annually at the conclusion of the spring semester or two full term semesters. Students will be notified of their Satisfactory Academic Progress "status" by email and listed on the student's BANNER Web Account. Students who fail to meet Satisfactory Academic Progress (SAP) will be placed on financial aid suspension and will be ineligible to receive financial aid assistance. Students placed on financial aid suspension may submit an appeal for reinstatement of aid due to Medical, Illness, death of immediate family member (spouse, sibling, parents or grandparents) and Other Unforeseen events. If a submitted appeal is successful, the student will be placed on financial aid probation for one semester. Review of the students' financial aid standing will continue until the student meets all SAP requirements.

Probation is the status assigned to a student for the semester/period of enrollment after a successful suspension appeal. The length of a probationary period is one semester in which the student will be eligible to receive federal aid. Suspension is the status a student is placed on if the student fails to meet both or one of the Satisfactory Academic Progress (SAP) standards for receiving aid.

Undergraduate students who are on financial aid probation must complete all course attempted with at minimum of C in each course at the end of the probation period/semester or the student will be placed on financial aid suspension

again. Submission of an appeal does not guarantee financial aid reinstatement. Along with an appeal, students are required to complete an Academic Plan. The purpose for submission of an academic plan is to assist with the academic success of the student and it allows the student an opportunity to stay on track towards degree completion.

The Academic Plan is a developed academic chart of required courses the student will need to take towards the student's degree requirements during the period of probation. This plan documents the courses that the student and the academic advisor have determined the student will enroll during the probation period to once again meet the university standards for satisfactory academic progress.

SAP Appeal Decision and Notification

Notification of the Committee's decision will be made via MVSU email address or via phone. The decision of the appeal committee is final. This is an abbreviated version of the Satisfactory Academic Progression Policy for Financial Aid. A complete version of the policy is provided to each financial aid recipient via the university web site www.mvsu.edu.

Official Withdrawal

Federal Student aid is awarded on the assumption that the student will attend school for the entire period for which the assistance is awarded. When a student decides to withdraw from the University prior to the end of an enrollment period (semester), the student must obtain from the Office of Student Records/Registrar the Withdrawal of University Enrollment form. Upon completion of the form, the student must submit it back to the Office of Student Records/Registrar before the student can be considered to have officially withdrawn from the university. A withdrawal is not considered official until the above document is fully executed.

The effective date of withdrawal is the earliest date on the form with a signature or the date the form was received from the Office of Student Records/Registrar, if the withdrawal form is not returned or the withdrawal process is not rescinded by the student. Students receiving funds awarded by the Office of Student Financial Aid should be aware of the impact to their financial aid before withdrawing. Meeting with a Financial Aid Counselor is strongly recommended before withdrawing. When a student withdraws, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive.

If a recipient of Title IV funds withdraws from school after beginning attendance, the amount of Title IV funds earned by the student must be determined. The university is required to determine the amount of federal aid earned by the student as of the date the student ceased attendance based on the amount of time the student was in attendance. The percentage of Title IV aid earned is equal to the percentage of the payment period or period of enrollment completed. If the amount disbursed to the student is greater than the amount the student earned, unearned funds must be returned. The calculation of Title IV funds earned by the student has no relationship to the student's incurred institutional charges.

Unofficial Withdrawal

Students receiving federal financial aid who began attending classes during a semester and cease attending a class or never performed an academically-related activity prior to the end of the semester, and failed to complete the Withdrawal of University Enrollment Form are considered by the federal government to have Unofficially Withdrawn.

When a student who receives federal financial aid, officially or unofficially withdraws, after attending at least the first-class day, the University will return, and the student aid recipient will be required to repay, a prorated portion of funds received based upon a federally required calculation (see Return of Title IV Funds section).

Return of Title IV Funds Policy

The Office of Student Financial Aid is required by The Higher Education Amendments of 1998, that when a student receiving federal financial aid withdraws, officially or unofficially, drops out, or is suspended from the University during a semester or term, the amount of aid a student has earned for the enrollment period is based on the length of time the student remains enrolled for that period. Therefore, the percentage of the enrollment period completed is also the percentage of aid the student has earned.

This policy governs all federal grants and loan programs including Federal Pell Grants, Federal Supplemental Educational Opportunity Grant, Federal Direct Loans, and Federal PLUS Loans and excludes Federal Work Study. The amount of assistance earned is determined on a prorated basis. For example, if the student completed 30% of the payment period or period of enrollment, that student has earned 30% of the assistance. Once the student has completed more than 60% of the payment period or period of enrollment, the student is considered to have earned all the assistance that specific payment period or period of enrollment. This policy is subject to change to comply with applicable federal or state laws as regulations are changed and/or implemented.

Tuition and Fees 2024-2025

Mississippi Valley State University is supported chiefly by legislative appropriations. Increases in student fees are put into effect only when public support funds are inadequate, and no other recourse is available. Increases are made only for support of the institution or improvement of the activity program of the students; therefore, the University must reserve the right to increase or modify fees and expenses without prior notice, but with approval of the Board of Trustees of State Institutions of Higher Learning.

It is difficult to indicate the specific cost of attending the University because of the differences in personal spending habits. However, the information in this section will be helpful. The Office of Business and Finance is responsible for administering all business affairs of Mississippi Valley State University; supporting the educational activities; serving the students, faculty, staff and administration; and protecting all University assets. Inquiries should be directed to the Office of Business and Finance, MVSU 7265, 14000 Highway 82 West, Itta Bena, MS 38941-1400; 662-254-3302; Fax: 662-254-7575.

Cancellation Policy

Refund of tuition and required fees will be made after official withdrawal forms are filed on the following basis:

- | | | |
|----|---|--|
| A. | Period of Withdrawal (Fall/Spring) | Percentage of Refund of Tuition and Fees |
| | Prior to beginning of class | 100% less processing fee |
| | During the first 2 class days of semester | 95% less processing fee |
| | During the 3-5 class days of semester | 75% less processing fee |
| | During the 6-8 class days of semester | 50% less processing fee |
| | During the 9-10 class days of semester | 25% less processing fee |
| | After the 10th class day of semester | No refund |
- B. Refund of Room and Board fees will be based on the date the student leaves the dormitory and files Dormitory Release Form with the Dormitory Director. No Refund of Room and Board will be given after the 10th class day of the Fall and Spring Semesters. After the 5th class day of Summer Session, no refund of Room and Board will be given. Refunds will not be made for temporary absence from the dormitory.
- C. With the exception of deposits, no refund of special fees will be made.
- D. Active duty withdrawals will be processed according to IHL Board policy.

NOTE: Students who pre-register and do not return for classes should complete official withdrawal forms. The withdrawal forms must be processed by the Office of Student Records to become official.

Payments

All student charges for tuition, room, board and other fees must be paid in full at registration. The following sources will be accepted as payment:

- A. Financial Aid (loans, grants, scholarship, etc.)
- B. Cash
- C. Debit/Credit Cards (Visa, MasterCard, American Express, and Discovery)
- D. Money Orders, Certified and Personal Check (Made payable to Mississippi Valley State University)
- E. PayMyTuition (International Payments Only)
- F. Nelnet Enterprise Portal (Online Payments)

****DO NOT SEND CASH IN THE MAIL****

Other

Bookstore

Books and supplies are purchased from the Bookstore and the costs are not part of the fees stated in this announcement. Estimate \$1,200.00 per semester (\$700.00 per summer session) for books and supplies.

Mass Transit Service

Daily transportation is available to commuting students from several communities. For more information, contact Mississippi Valley State University Transit System, telephone number 254-3348.

College Work Study

College Work Study awards will not be considered as payment on a student's account until earned and a Work-Study check has been issued to the student.

Federal Loans

Federal Loans are first applied to the student's account-balance due and the excess above the amount owed will be refunded to the student.

All requests for refunds will be granted according to the refund schedule.

Student Identification Cards

An MVSU Student I.D. Card, validated for the current registration period, must be presented each time a student requires service from any University office. First-time student I.D. cards are issued at no charge.

Deferment Policy and Payment Plan

University Deferment Policy

A deferment fee of \$50.00 will be charged to any student who, at the time of registration, does not pay his/her account in full. (This includes current charges and past due amounts.) Award letters will be accepted as payment. Deferments will be granted within the guidelines listed below. Deferment fees must be paid at registration. No exceptions.

Deferred Payment Plan

1. All students are expected to pay the full amount of tuition and fees for the term at the time of registration.
2. Resident and non-resident students with zero (0) balance at time of registration and no evidence of financial aid may choose to pay under the Deferred Payment Plan.
3. Under the Deferred Payment Plan, students must pay one-half (1/2) of the total amount due at registration. The remainder must be paid in two (2) equal installments. For Fall and Spring semesters, one-half of the remaining balance must be paid within 45 days of registration and the remainder within 90 days of registration.
4. The Deferred Payment Plan is not available during summer sessions.
5. For every transaction under this plan, the deferment of \$50 will be assessed.
6. Failure to pay according to the plan will result in cancellation of registration.

STUDENT AFFAIRS

The Office of Student Affairs is a major unit of the Division of Enrollment Management and Student Affairs. The Office of Student Affairs provides many services to ensure the best possible student experience that student life can offer. Many of these services in Student Affairs and this section of the handbook will acquaint you with the entire Division of Enrollment Management and Student Affairs. The mission of the Office of Student Affairs is to enhance student learning through student support and services, and by fostering student leadership and development. Student Affairs is committed to a student-centered, student leadership, and student service approach to student learning.

The Office of Student Affairs is comprised of a team of professionals who perform a wide variety of services dedicated to the mission of the University, and it consists of the following offices and departments: Vice President for Enrollment Management and Student Affairs, Assistant Vice President for Student Affairs, Assistant Vice President for Enrollment Management, University College, Director of Residential Life, Campus Violence Prevention and Intervention, Career Services, Intramural and Recreational Sports, Health Services, Student Leadership & Engagement, Student Conduct, Community Service and Service Learning, University Police, Veteran Student Services, Financial Literacy and University Bands. The main office for Student Affairs is located in the H.G. Carpenter Building, and the office staff can be contacted at 662-254-3636.

Career Services Center

The Career Services Center (CSC) has a number of programs and services designed to connect students with the people resources, and organizations to assist in the acquisition of a full-time job internship, or a post-baccalaureate degree. We offer a variety of career development assistance that includes career assessments, choosing a major, resume and cover letter writing, graduate school advising, employment referrals, professional etiquette and mock interviews. The CSC also coordinates an on-campus recruiting program that includes employer information sessions, student union information booths, classroom presentations, and on-campus interviews. We host annual recruitment fairs, including Graduate and Professional Schools Day (GAPS), Fall and Spring Career Fairs and Teacher Recruitment Day. Students are also provided opportunities to meet with career professionals during the Black Executive Exchange Program (BEEP) and

the Youth Motivation Task Force (YMTF) networking conferences. We invite you to take advantage of the services and opportunities available through our office, which is located in the H.G. Carpenter Building and at 662-254-3440.

Student Health Center

General Medical Services

As the administration of the University is committed to taking every reasonable precaution to provide a safe and healthy environment on campus, the Student Health Center provides general health care for the MVSU student body. All students (especially those with known illnesses) are encouraged to complete a Medical History Form for filing at the Student Health Center. Any illness or injury that occurs in the residence halls should be immediately reported to the Residence Hall Director or other Residential Life personnel on duty. The Residence Hall Director should then report the injury or illness to the healthcare providers of the Student Health Center. After 5:00pm, the Residence Hall Director should contact Med Stat EMS (#911) if an emergency exists, and MVSU Police should also be notified at 662-254-3478. For non-emergency injuries or illnesses, the Residence Hall Director should encourage the student to go to the Student Health Center or to the Greenwood Leflore Hospital Emergency Room for further evaluation and treatment.

The Student Health Center is staffed with a full time registered practical nursing staff, a full-time nurse practitioner, and a receptionist who holds regular weekly clinic hours in the Health Center. Operation hours are Monday through Thursdays from 8:00am to 5:00pm; Fridays from 8:00am to noon. The Student Health Center is closed on weekends and holidays. The Health Center is located in the Student Health Center Building, and the staff can be contacted at 662-644-4865. Emergencies can be reported to MVSU Police Department at (662)254-3478.

The University does not provide or arrange transportation for non-emergency needs such as off-campus doctor appointments, health department visits, non-emergency visits to the emergency room, therapy sessions, dentist visits, medical clinic visits or other medical specialists. As well, the University is not responsible for medical bills incurred from students who require external medical service from medical providers and agencies, and it does not provide insurance coverage for the general student body. However, when student athletes are injured in a sports practice or game event, insurance coverage is provided for the sports related injury. This does not include pre-existing illnesses and medical conditions, only sports related injuries and conditions.

Counseling and Mental Health Services

The Division of Student Affairs and the Health Center provide Mental Health and Wellness services, and those are provided by Licensed Clinical Social Worker(s). In cases where psychiatric care is indicated, these professionals are able to make the appropriate referrals. Mental Health and Wellness services are designed to assist students in identifying and addressing social, emotional, and academic issues so that they can achieve success during their matriculation at MVSU. Services may include individual and group counseling, crisis intervention, coaching on stress reduction and management, and healthy lifestyles. The goal is to alleviate distress and promote healthy lifestyles for all MVSU students. Mental Health and Wellness services are located in the Student Affairs Suite of the H.G. Carpenter Building and the Student Health Center Building, and the staff can be contacted at 662- 392-8337 or 662-644-4865.

Student Conduct

The Office of Student Conduct works with the University community to educate students about their rights and responsibilities as stated in the Mississippi Valley State University Student Handbook and the Student Code of Conduct. Our mission is to support the University's educational mission and goals by promoting a just, safe, orderly, and positive University climate through behavioral standards, disciplinary processes, training, and intervention efforts.

The Student Conduct office is committed to providing a fair and educational process that fosters the highest standards of behavior while promoting a safe environment that respects the rights of all students. Our disciplinary

process allows individuals the opportunity to learn from their mistakes, while at the same time protecting the rights of all members of the University community.

The goals of Student Conduct are as follows:

- To facilitate a process that promotes student development by challenging and supporting students owning individual responsibility;
- To use educational strategies and disciplinary counseling as a catalyst for self- understanding and personal growth;
- To enforce a system characterized by accountability, compassion, and increased civility; and
- To improve the effectiveness of the Student Life Judicial Process.

The Office of Student Conduct can be reached at 662-254-3527.

Intramural-Recreational Sports

Intramural & Recreational Sports provides campus-wide, year-round programs and services to meet the needs of students interested in physical recreation. Athletic competition fosters personal development, enhances academic productivity, and enriches the quality of life for students by providing excellent recreational programs, fitness services, and facilities to a diverse campus community. Sports and recreational activities are an important aspect of campus life at the University and enhance students' interpersonal and social skills through cooperative and competitive play. Intramural leagues, tournaments, and competitions may include the following activities: flag football, basketball, volleyball, swimming, badminton, softball, tennis, billiards, track and field, chess, pickleball, weightlifting, Esports and horseshoes. Through the Intramural & Recreational Sports program students are provided with opportunities to practice leadership and management skills. Therefore, all students are urged to take maximum advantage of the opportunities that are available at the University. The Intramural-Recreational Sports office is located in the Student Union. Staff may be reached at 662-254-3526.

Residential Life

The Office of Residential Life is responsible for providing on-campus students with a safe and clean-living environment conducive to learning outside of the classroom. As members of a residential community, students are expected to respect the rights of others within the community. Residents are free to make decisions and impact their residential environment through involvement in educational, social and recreational programming efforts.

Students who wish to apply for student housing must be first admitted to Mississippi Valley State University and complete a Housing Application/Contract. The Residential Life Application/Contract must be accompanied by a non-refundable application fee of seventy-five (\$75.00) (for first time and transfer students only) before a student is assigned a room. All students are required to be registered full-time (12 hours for undergraduates and 6 hours for graduates).

The Office of Residential Life strives to provide an atmosphere where students may learn and effectively pursue their academic and personal goals. Therefore, single-sex residence halls for men and women are equipped with computer labs, study rooms, internet service and basic cable in each room. Each air-conditioned room is furnished with a twin bed, dresser, study desk, and chair. All residence hall lobbies include big screen cable televisions and comfortable seating for social and educational needs.

All residence halls are managed by a Residence Hall Director, with the staff support of Residence Hall Monitors, and Resident Advisors. The following halls are available for residence on campus:

Female Residence Halls
New Women Hall
Edna Horton Hall
Valley Annex

Male Residence Halls
McTeer Hall College Hall I
Stewart Hall
John A. James Hall
Valley Annex
Magnolia Hall

The Office of Residential Life is located in Clara T. Reed Hall and can be reached at 662-254- 3590.

Office of Student Leadership and Engagement

Student Leadership and Engagement (SLE) is located in the Jacob Aron Student Center on the west side of the campus, and it is the hub of informal student activity. The Student Union houses the Post Office, University Bookstore, conference/seminar rooms, Chick-fil-A, The Print Shop, Office of Student Leadership and Engagement, game room, meeting rooms, beauty and barber shops.

SLE Registered Student Organizations (RSOs)

The SLE office has oversight of student organizations which are a valuable asset to the MVSU campus. Students are encouraged to become active in at least one organization, and there are over 50 active RSOs. The Office of SLE maintains the current constitution, as well as a roster of all active members. Each semester, a current publication of all RSOs is disseminated throughout the campus. A variety of student organizations exist on the MVSU campus. They include special interest groups, departmental, academic, professional associations, social and service sororities and fraternities, residence hall councils, honor societies, sports and booster clubs, and entertainment and communication groups. Other activity groups, which are open to all eligible students for membership include the Student Government Association, Inc., University Band, Choir and University Ambassadors.

Categories of SLE RSOs

The Office of SLE maintains current information on each RSO, such as purpose, officers, advisor(s), and an active membership roster. A list of all current RSOs is updated and published each semester for the following:

- Governing Organizations (i.e., Student Government Association, Pan-Hellenic Council)
- Special Interest Organizations
- Departmental/Academic/Professional Organizations
- Social Fraternities/Social Sororities
- Residence Hall Councils
- Honor Societies Sports/Booster Clubs
- Entertainment/Communication Organizations

Requirements for Officers of SLE RSOs

The minimum University requirements for officers (elected, selected, or appointed) of student organizations are:

Continued enrollment in at least 12 hours of course work at the University.

Must maintain a cumulative grade point average (GPA) of (2.50) based on a 4.00 scale. When, and if, any officer in an RSO changes for whatever reason, it is the responsibility of the Primary Advisor to update the registration form in the Office of SLE.

No action of disciplinary probation or suspension during the previous and current academic year.

Additional Requirements for SLE RSO Members and/or Officers

Student organizations may have additional requirements for officers, i.e., Mr. and Miss MVSU and Student Government Association officers (see SGA Constitution), and the MVSU Pan Hellenic Council. They may also set additional requirements, as they deem necessary, after consultation with the Director of Student Leadership and Engagement.

SLE Student Union Board (SUB)

The SUB assists the Office of SLE in developing and implementing social, cultural, entertainment, recreational and educational campus activities. SLE staff members may be reached at 662-254- 3526.

University Police

MVSU takes honor and pride in protecting all faculty, staff, students, and visitors while on campus. Some core functions of the Department are responding to criminal incidents; checking on the well-being of students, faculty,

and staff; responding to disturbances; providing escorts; taking reports of lost and stolen property; responding to lockouts; investigating suspicious activity; responding to alarms; and investigating trespassers or unwanted guests. In addition to these activities, officers present safety and security information to students, provide emergency training, conduct fire drill evaluations and initiate informal contact with students, faculty, and staff while patrolling on foot, bicycles, and motorcycles, and while eating in the cafeteria. University Police officers are approachable and committed to keeping the MVSU community safe and secure.

Permanent identification (I.D.) cards are issued at the University Police Department to students matriculating at the University and to faculty and staff. This card is the student's official University identification and must be always in his/her possession. The I.D. card is validated each semester. It is the property of the University and must be surrendered upon request. It becomes void upon withdrawal and must be returned to the Office of Student Records/Registrar Located in the Sutton Administration Building. Loss of an I.D. card should be reported promptly to the University Police and the Office of Fiscal Affairs, so that a new card may be prepared. A fee of \$20.00 is charged for the replacement of an I.D. card. If you need to contact the Office of University Police, please call 662-254-3138.

Community Service Learning

The University's motto is "Live for Service." It clearly defines the role that the Department of Community Service-Learning plays in developing collaborative partnerships with various constituents and agencies to provide opportunities for our students to develop an understanding and awareness of the importance of community and civic engagement, along with responsible citizenry.

Community Service Learning's MISSION is intended to support the development of Mississippi Valley State University's service-learning programs and community service requirements that benefit both the community served and the students who serve. We take our mission seriously and work to ensure that our students have excellent opportunities to pursue learning that reveals the truth, promotes compassionate service, and enhances their desire to participate in the creation of a more just and humane world. For more information about how you can gain community service- learning experience, call 662-254-3832.

University Bands

The Mississippi Valley State University Band Program develops outstanding musicians through the medium of quality music designed for marching, concert, and small ensembles. Specifically, the Mean Green Marching Machine, Pep Band, and Symphonic Bands report into the Division of Student Affairs. These programs aid in the social growth of its members, promoting good character and citizenship, and providing opportunities for community outreach and growth in leadership. The directors and staff foster excellence in academic and musical achievement and prepare students to function successfully in a highly global, technical, and musical twenty-first century society.

Since its founding, the Department of University Bands has held an important place in the life of MVSU, and throughout the state of Mississippi. It has furnished music for athletic events, pep rallies, special university functions, and has presented concerts of a cultural, educational, and entertainment value to students, faculty, and the local community. For more information, contact the band staff at 662-254-3490.

Campus Violence Prevention and Intervention

The Campus Violence Prevention & Intervention Program was created with federal funding provided by the Office on Violence Against Women Campus Program. The goal of this program is to prevent the occurrence of sexual assault, domestic and dating violence and stalking on the campus of MVSU and its surrounding community. The Campus Violence Prevention & Intervention Program takes a coordinated community approach that enhances the safety of all survivors and provides victims services and support.

Services provided in the Office of Campus Violence Prevention & Intervention Program include:

- Referrals to campus and community resources to assist victims of power-based relationship violence, sexual assault, and stalking

- Training for faculty, staff, law enforcement/campus safety officers, and students in the Leflore County community, in the area of domestic and dating violence, sexual assault and stalking.
- Targeted prevention training to campus organizations including clubs, fraternities and sororities, and athletics.
- Bystander intervention training to the campus community.

To learn more about the Campus Violence Prevention and Intervention Office, please contact 662- 254-3921.

Office of Financial Literacy

The Office of Financial Literacy was created to assist students in making educated financial decisions during and after college. The goal of the Office of Financial Literacy is to provide students with relevant information that will develop and increase their financial literacy. The staff will provide information, tools, and resources to assist in students in their financial decision making. The staff is available to address several areas to assist students in understanding how to manage their finances by providing one-on-one personal finance counseling and group sessions with students.

The office assists students with the following:

- Completing FAFSA Application(s)
- Developing Individualized Action Plan(s)
- Completing the FAFSA Verification Process
- Financial Aid Appeal(s)
- Addressing Student Account Matters
- Scholarship Discovery

To learn more about the Office of Financial Literacy or for assistance, please contact 662-254- 3830.

Office of Veteran Student Services

The Office of Veteran Student Services is committed to providing services and programs in support of the academic and personal achievement of our active duty, reserve, and veteran students. The Office of Veteran Student Services plays an active role in campus outreach and recruitment of student veterans. We assist veteran students enrolled at Mississippi Valley State University with admissions, registration, financial aid, academic advising, counseling, veteran specific matters, and providing information pertaining to different resources. To learn more about the Office of Veteran Student Services or for assistance, please contact 662-254-3831.

SUPPORT UNITS

Intercollegiate Athletics

The area of athletics fully embraces the University's mission and enacts policies, procedures, and initiatives with both the letter and spirit of that purpose. The administration and staff of athletics espouse a student-centered philosophy which ranks academic achievement as the number one priority for its athletes. Toward this end, the Department of Athletics is committed to providing a comprehensive intercollegiate athletics program for men and women that promotes the academic, physical, social, psychological, and total development of the student-athlete. The Athletics Program is committed to working collaboratively with other components, contributing graduates who are capable of making the transition from university life to the workplace and into today's multi-cultural society. Furthermore, the Athletics Department is committed to providing public service activities to the community and research opportunities for its coaching staff. Embodied within this mission statement is the concept of an effective athletics program that values the success of the department's student-athletes in competition, academic and personal development, and maintenance of full compliance with the rules of the University, the National Collegiate Athletic Association (NCAA) and the Southwestern Athletic Conference (SWAC). The University participates in eight sports for women, including basketball, cross country, indoor track and field, outdoor track and field, softball, soccer, tennis and volleyball, as well as seven sports for men, including baseball, basketball, cross country, football, indoor track and field, outdoor track and field, and tennis.

Registration of Automobiles on Campus

All motor vehicles operated on campus by students, faculty and staff members must be registered with the University Police. There is a registration fee for each vehicle, which should be paid at the Cashier's Window in the Sutton Administration Building. All vehicles operated on University property must display a valid parking permit 24 hours a day 365 days a year. Automobiles or motor vehicles must be parked on the campus only in those areas designated as parking areas, in such manner, at such places, and for such time as may be indicated on appropriate signs or markers. Drivers not conforming to regulations are subject to receiving citations, boots or having their vehicle towed at their expense.

Parking permits are not transferable and must be removed from the vehicle immediately upon change of ownership or if the person severs connection with the University. If necessary, the University may restrict parking in certain areas.

The term "visitor" is interpreted to mean an individual with no official connections with Mississippi Valley State University as a student, faculty, staff member or employee of private contractors assigned to Mississippi Valley State University.

Visitors' parking is set aside for special interest areas of the University. Visitors should obtain a visitor parking permit from the University Police Department or the Guardhouse Booth on Valley of Scholars Boulevard. Visitors are required to show a valid Driver's License to obtain a visitor's permit.

If a vehicle becomes temporarily disabled and cannot be parked in the assigned area, it must be reported to the University Police Department.

University College

Mission

University College, a learning resource entity, is devoted to meeting the diverse needs of all students by providing academic and social pathways to cultivate student success.

Vision

Our vision is to inspire students to become critical, independent thinkers that will contribute to a global society through good will and innovation.

- Core Values
- Student-Centered
- Universal Collaborations
- Cognitive Reframing Thinkers
- Catalysts for Change
- Effective, Efficient and Engaging
- Sustainable
- Service Oriented

In support of Mississippi Valley State University's mission to promote academic excellence and student learning, University College facilitates first-year students' acclimation and smooth transition to the university. The initiatives led by University College foster engagement and help students develop academic and life skills essential for success as college students and global citizens. While first year students are the primary focus of University College, many programs and services are made available to all students who seek academic support during their journey at Mississippi Valley State University. University College also designs programs and services that ultimately impact retention, increase student engagement, and promote students' academic, social, and personal development. The following departments, programs and activities are under the auspices of University College:

Academic Advising

Under the direction and guidance of University College, the mission of the Academic Advising is to assist each student in developing and implementing an academic plan designed to meet his/her educational, career and life ambitions. To achieve this mission, the Academic Advising area has established the following goals and objectives: 1) teach students about degree requirements, university policies, procedures, academic support resources, and educational opportunities relevant to their success; 2) provide academic support and

guidance to students in the decision making process related to their choice of majors and academic program; 3) promote students' self-responsibility in defining and achieving their educational goals; fosters meaningful adviser-advisee relationships that focus on the unique growth and development of each student; 4) assist students in the selection of appropriate courses, other educational/experiential opportunities, and co-curricular program; and 5) provide students with referrals to appropriate academic resources and student support services.

All incoming first-year students between 0-29 earned credit hours and sophomores (students with 30 – 59 credit hours) who have and haven't declared a major are advised by the professional advising staff in University College until their transition to their major department once they have earned 60 credit hours. Upperclassmen with 60 or more credits are advised by a faculty advisor in the department of their major. Students are assigned to their personal Academic Advisor according to their intended major and academic classification. Through individual appointments, drop-in advising, and advising workshops, our professional advisors assist students to make informed decisions about their course selections and assists students in their personal development and developing meaningful educational plans that are compatible with their life goals. For additional information contact University College at 662-254-8376.

Academic Success and Retention

The mission of the Academic Success and Retention Department is to strengthen retention by supporting the academic pursuits and life-long learning of undergraduate students as they persist to graduation and beyond. The Academic Success and Student Development facilitates student learning and degree completion by providing a comprehensive array of programs, resources, and services that advance academic goal setting, skill development, effective decision making, and personal transition to and within the university setting. Programs administered by the Academic Success and Retention Department include:

Summer Developmental Program (SDP)

Emerging Scholars Program Mississippi Valley State University provides an opportunity for residents and non-residents of Mississippi who do not meet the regular admission criteria to attend MVSU's Summer Developmental Program. The ESP is an intensive 9-week summer program that concentrates on high-school subject areas that are essential to their success in first year college courses. Courses consist of English, mathematics, reading and an academic support laboratory. The format of the program includes classroom instruction, seminars, computer-assisted tutorials, and social/life skills development. Classes are held Monday-Friday accompanied by special activities and events on weekends. Students who successfully complete the program will be eligible to enroll in the fall term at any Institution of Higher Learning (IHL) in the state of Mississippi. For more information contact University College at 662-254-3446.

Early Monitoring Alert Program (EMAP)

The philosophy of the Early Monitoring Alert Program is to provide academic enrichment and support to students who are in jeopardy of academic failure and/or academic suspension due to their cumulative grade point average and/or completion rate. While there are numerous factors that contribute to a student's performance academically, such as family issues, school climate, medical issues, financial concerns, or difficulty balancing social and academic responsibilities, EMAP has been designed to promote academic success by assisting students with learning the necessary knowledge, skills, and strategies that will enable them to have a successful college experience and to persist through graduation. Components of the EMAP program include the GradesFirst web-based monitoring system which provides monitoring and tracking of class attendance and course performance. Students are committed to dedicated study time, peer tutoring, peer mentoring, and attendance at academic achievement workshops. For more information, please contact University College at 662-254-3448.

ADA/Services for Students with Disabilities (SSD)

University College enforces Section 504 of the Rehabilitation Act of 1973 and the Title II of the Americans with Disabilities Act of 1990 (ADA) which prohibits state and local governments from discrimination on the basis of a disability. The Services for Students with Disabilities (SSD) program is committed to providing an array of services to accommodate students who self-identify with our office as having a documented disability. Disabilities covered by the Acts include, but are not limited to, physical disabilities, chronic medical conditions, learning disabilities, blind and/or low vision, deaf or hard of hearing, and

psychological and/or psychiatric. The office is responsible for assessing and coordinating services including appropriate academic and housing accommodations. Services are delivered impartially and effectively to all students, and it is our goal to create an accessible environment in which all students with a documented disability can function independently and in a self-determined manner as they accomplish their educational and personal goals. SSD support services include confidential memo of accommodations, extended time to take tests and/or exams, exam proctoring or alternative testing arrangements, audio tape recording of lectures, assistive technology software, priority registration, reduced course loads, peer note takers, and assigned peer tutors. For more information, please contact University College at 662-254-3443.

First-Year Experience Program (FYE)

Mississippi Valley State University's First-Year Experience program is the cornerstone of the new student success and retention initiative. The program is dedicated to ensuring that all first-year students have a smooth and seamless integration into the academic and campus life of the University. The First-Year Experience Program provides innovative programs and opportunities specifically designed to assist first year students in making a successful transition to a community of higher learning and education. The FYE Program exposes new students to the educational opportunities at MVSU and aids in empowering students to define themselves through personal growth and development, social interaction, career exploration, academic success, community service, and leadership development. The Coordinator of this program advises the First-Year Class and their officers. For additional information contact University College at 662-254-3004.

Sophomore Year Experience Program (SYE)

The Sophomore Year Experience Program is a continuation of the development of the second-year student. It provides innovative programs and opportunities specifically designed to assist second year students or sophomores in making a successful transition from first year to second year. The SYE Program aids in empowering sophomore students to define themselves through personal growth and development, social interaction, career exploration, academic success, community service, and leadership development. The Coordinator of this program advises the Sophomore Class and their officers. For additional information contact University College at 662-254-3005.

Federal TRIO Programs

The Federal TRIO Programs (TRIO) are outreach and student services programs designed to identify and provide academic enrichment services for individuals from disadvantaged backgrounds. TRIO includes eight federal programs targeted to serve and assist low-income individuals, first-generation college students, and individuals with disabilities to progress through the academic pipeline from middle school to post-baccalaureate programs. MVSU currently supports the functioning of 2 TRIO Programs: Student Support Services and Upward Bound.

Student Support Services

The Student Support Services Program is designed to provide supportive services to eligible students (academic, career, and personal) which will enhance their skills and increase their retention and graduation rates. The program fosters an institutional climate supportive of the success of undergraduates who are first generation, low income, or who have a disability. Serving 200 MVSU students selected for the program, Student Support Services includes educational, social, and cultural activities in a motivational and highly supportive network. For additional information about Student Support Services, please contact 662-254-3473.

Upward Bound

Upward Bound is designed to improve the academic performance and increase the educational motivation levels of low-income high school students who have the potential to become the first in their families to attend a college or university. The program's goals include providing academic support that will help the participants successfully complete their secondary school programs and helping them to enroll in an institution of higher learning. Upward Bound services and activities serve as an educational foundation upon which students can grow academically, mentally, physically, socially, and emotionally in order for them to properly adjust to an educational program. Services are provided in the form of academic and

enrichment classes, counseling, cultural activities, seminars, and workshops. For additional information about Upward Bound I, please contact 662-254-3632; and for Upward II, please contact 662-254-8427.

Residential Life

The Office of Residential Life is responsible for providing on-campus students with a safe and clean-living environment conducive to learning outside of the classroom. As members of a residential community, students are expected to respect the rights of others within the community. Residents are free to make decisions and impact their residential environment through involvement in educational, social and recreational programming efforts.

Students who wish to apply for student housing must be first admitted to Mississippi Valley State University and complete a Housing Application/Contract. The Residential Life Application/Contract must be accompanied by a non-refundable application fee of seventy-five (\$75.00) (for first time and transfer students only) before a student is assigned a room. All students are required to be registered full-time (12 hours for undergraduates and 6 hours for graduates).

The Office of Residential Life strives to provide an atmosphere where students may learn and effectively pursue their academic and personal goals. Therefore, single-sex residence halls for men and women are equipped with computer labs, study rooms, internet service and basic cable in each room. Each air-conditioned room is furnished with a twin bed, dresser, study desk, and chair. All residence hall lobbies include big screen cable televisions and comfortable seating for social and educational needs.

All residence halls are managed by a Residence Hall Director, with the staff support of Residence Hall Monitors, and Resident Advisors. The following halls are available for residence on campus:

Female Residence Halls

New Women Hall
Edna Horton Hall
Valley Annex

Male Residence Halls

McTeer Hall College Hall I
Stewart Hall
John A. James Hall
Valley Annex
Magnolia Hall

The Office of Residential Life is located in Clara T. Reed Hall and can be reached at 662-254- 3590.

Other Support Units

Alumni Relations

The Office of Alumni Relations serves as the liaison between Mississippi Valley State University and its alumni. It seeks to: (1) ascertain and compile up-to-date information on all former students and graduates; (2) communicate with all alumni through e-newsletters, emails and text message; (3) organize alumni chapters wherever alumni members are located; (4) coordinate programs which will encourage alumni to support and promote the mission of the University; (5) promote the activities of the Mississippi Valley State University National Alumni Association, Incorporated; and (6) promote the welfare of the University and its alumni.

Bookstore

The Bookstore is located in the Jacob Aron Student Union and offers new and used textbooks, a selection of eBooks/access codes, and school supplies. Official MVSU apparel and gift items, and Greek paraphernalia are sold in the University Bookstore. Adjacent to the Bookstore is the Convenience Store that sells beverages, snacks, essential toiletries, personal care items and other miscellaneous product. In addition to cash and credit cards, Students may use their MVSU Student Identification Card when making purchases in the Bookstore and Convenience Store. against their student accounts.

Delta Sands Guest House

The Delta Sands Guest House offers 16 guest rooms, including an Alumni Suite and a Presidential Suite. Eight (8) rooms are furnished with one queen size bed, and eight (8) rooms are furnished with two (2) twin size beds and a 19" or 25" remote controlled color television, guest chairs, private bath, and vanity. The Guest House is located adjacent to the Jacob Aron Student Center.

The Guest House serves a select clientele. It rents rooms to parents of currently enrolled students, alumni, special guests of the University, and participants of University-based events at a rate of \$53.00 per night.

Food Service

The University's Food Service is provided through Thompson Hospitality, Inc. Food service is offered through the main dining hall, the H.M. Ivy Cafeteria, and a fast-food establishment in the Jacob Aron Student Center. Students may purchase a meal plan that consists of a full breakfast, lunch, and dinner served seven days a week. University guests may purchase meals on a cash basis.

Information Technology

The Information Technology Department provides, monitors, and maintains the campus data network and servers at the University. We also offer service to students, faculty and staff by focusing on the latest technological advancements to sustain the University's mission to provide support services. We strive to ensure availability and reliability to the entire campus network. New technical innovations are encouraged so that we, as a University, will continue to compete with other institutions of higher learning.

Intercollegiate Athletics

The area of athletics fully embraces the University's mission and enacts policies, procedures, and initiatives with both the letter and spirit of that purpose. The administration and staff of athletics espouse a student-centered philosophy which ranks academic achievement as the number one priority for its athletes. Toward this end, the Department of Athletics is committed to providing a comprehensive intercollegiate athletics program for men and women that promotes the academic, physical, social, psychological, and total development of the student-athlete. The Athletics Program is committed to working collaboratively with other components, contributing graduates who are capable of making the transition from university life to the workplace and into today's multi-cultural society. Furthermore, the Athletics Department is committed to providing public service activities to the community and research opportunities for its coaching staff. Embodied within this mission statement is the concept of an effective athletics program that values the success of the department's student-athletes in competition, academic and personal development, and maintenance of full compliance with the rules of the University, the National Collegiate Athletic Association (NCAA) and the Southwestern Athletic Conference (SWAC). The University participates in eight sports for women, including basketball, cross country, indoor track and field, outdoor track and field, softball, soccer,

tennis and volleyball, as well as seven sports for men, including baseball, basketball, cross country, football, indoor track and field, outdoor track and field, and tennis.

Laundry

The University Laundry and Dry Cleaners provides high quality laundry and dry cleaning services to students, employees, and the campus community. The Laundry is a modern, well-constructed facility, fully equipped to provide by efficient, high volume, low cost, quality laundry services. Students should consult with laundry staff regarding the number of items that can be cleaned and applicable fees that may apply.

James Herbert White Library

The James Herbert White Library, occupied in 1973, renovated in 2011, and named in honor of the University's first president, is the centerpiece of the University's intellectual life, connecting people and ideas. The library, a two-level facility that encompasses 58,162 square feet, a seating capacity of 350, two (2) group and six (6) individual study rooms, 34-seat computer commons and a 42-seat electronic classroom, a Learning Resources Center, a Music Listening Room, a Social Work Reading Room, the Annie M. Payton Archives, space for a coffee shop and wireless internet connectivity, is centrally located on the 450-acre campus. The James Herbert White Library as a central academic unit provides support to the University's mission through comprehensive, effective access to resources, technology, staff, and facilities to enhance and stimulate learning from a global perspective. The library, through its staff and in collaboration with the university community, meets the needs of its community of users and empowers its users to explore their research goals and flourish as lifelong learners. The mission of the James Herbert White Library is to enhance access, collect, organize, and maintain a scholarly print and non-print collection that supports the university's mission of research, teaching and learning, and service through the development of collections, access services and effective delivery of services.

The library is open 83.5 hours, seven days a week for in-house use. In addition, faculty and students have virtual access to the library's collections via the library's website at <https://www.mvsu.edu/library>. The collections include approximately 133,003 volumes, 53,358 electronic books, 32,275 full text electronic journals, 214 journal subscriptions, and 3,473 video/DVD titles. In addition to traditional resources, the library incorporates extensive technological advances and other learning resources which supplement traditional library access to electronic information with technology to expand remote access. Traditional library services include reference, circulation, and Internet and document delivery (Interlibrary Loan). However, with remote technology, faculty and students can access these traditional services remotely by logging on to <https://libanswers.mvsu.edu>, <https://libguides.mvsu.edu>, or text 862-621-2454 or email jhwhitelibrary@mvsu.edu to receive assistance from the library. Moreover, faculty, staff and students can request access to laptops and study rooms remotely at <https://mvsu.libwizard.com/f/studyroomform> and https://mvsu.libwizard.com/f/laptop_policy, respectively. The James Herbert White Library participates in several consortia agreements that help extend the total resources available to students and faculty. The most recent agreement with the Dancing Rabbit Library Consortia provides access to the collections of nine public libraries, two community college libraries and one other academic university library.

MVSU Mass Transit

The MVSU Mass Transit Program is a general public transportation program funded by the Public Transit Division of the Mississippi Department of Transportation. The primary goal of the program is to provide assistance in meeting the transportation needs of the general public, low- income, elderly and disabled residents in the project's nine county service area. The service area counties are Carroll, Grenada, Holmes, Humphreys, Leflore, Montgomery, Sunflower, Tallahatchie and Washington. The transportation services are provided through a combination of flexible, demand response and commuter routes. Monthly passbook purchases are available to the general public and semester passes are available to students of MVSU. Potential passengers needing information about fares or passes should contact the Mass Transit Office. MVSU Mass Transit is committed to ensuring that no person is excluded from participation in, or denied, the benefits of its transit services on the basis of race, color, or national origin, as protected by Title VI in Federal Transit Administration (FTA) Circular 4702.1.

Post Office

The Mississippi Valley State University Post Office, a substation of the United States Postal Service, is located in the Jacob Aron Center. The Post Office offers mailbox rental to students and other members of the University. In order for students to receive mail on the campus of Mississippi Valley State University, students must rent a mailbox.

Students must pay mailbox rental fee at the Cashier's Office located on the first floor of the Sutton Administration Building. Box rental fees and payment details can be found on the website here: <https://www.mvsu.edu/campus-facilities-services/main-campus/post-office>. Students must contact the Post Office to obtain rental information. Students who do not rent a campus mailbox will not be able to receive mail on the campus of Mississippi Valley State University. The Post Office provides all mail services which can be obtained at larger post offices. Basic services include: selling of stamps, stamped envelopes and postal money orders; sending and receiving of registered, certified, insured and express mail; and renting of postal boxes. Campus and interdepartmental mail may be routed through the campus Post Office without postage. The zip code for the University is 38941- 1400. Print Shop The Print Shop exclusively serves the University, its faculty, staff and students and surrounding communities. From projects that support the operation of the University to those that contribute to the scholarly activities of students and faculty, we are committed to promoting and enhancing the university with the highest-quality printed materials we can provide.

Print Shop

The Print Shop exclusively serves the University, its faculty, staff and students and surrounding communities. From projects that support the operation of the University to those that contribute to the scholarly activities of students and faculty, we are committed to promoting and enhancing the university with the highest-quality printed materials we can provide.

Radio Station

Mississippi Valley State University operates a non-commercial educational radio station and production training center, WVSD, on an assigned frequency of 91.7 FM. The station and center are designed to meet the educational, informational and cultural needs of Mississippi Valley State University and the surrounding community. Together, they provide practical experience for students majoring in Mass Communications and continuing education for established broadcast professionals.

Registration of Automobiles on Campus

All motor vehicles operated on campus by students, faculty and staff members must be registered with the University Police. There is a registration fee for each vehicle, which should be paid at the Cashier's Window in the Sutton Administration Building. All vehicles operated on University property must display a valid parking permit 24 hours a day 365 days a year. Automobiles or motor vehicles must be parked on the campus only in those areas designated as parking areas, in such manner, at such places, and for such time as may be indicated on appropriate signs or markers. Drivers not conforming to regulations are subject to receiving citations, boots or having their vehicle towed at their expense.

Parking permits are not transferable and must be removed from the vehicle immediately upon change of ownership or if the person severs connection with the University. If necessary, the University may restrict parking in certain areas.

The term "visitor" is interpreted to mean an individual with no official connections with Mississippi Valley State University as a student, faculty, staff member or employee of private contractors assigned to Mississippi Valley State University.

Visitors' parking is set aside for special interest areas of the University. Visitors should obtain a visitor parking permit from the University Police Department or the Guardhouse Booth on Valley of Scholars Boulevard. Visitors are required to show a valid Driver's License to obtain a visitor's permit.

If a vehicle becomes temporarily disabled and cannot be parked in the assigned area, it must be reported to the University Police Department.

University Testing Services

The University has established a testing program which administers standardized tests to all students on the different academic grade levels. The University Testing Services staff administers the following standardized tests: American College Test (ACT), Residual ACT, Scholastic Aptitude Test (SAT) and the General Educational Development (GED) test. The Graduate Records Examination and the Praxis are given administered only when the student makes such a request when registering for the exam.

The results of the ACT, SAT and GED are used for initial admission, as well as placement, counseling and the improvement of instruction. For more information, call the Office of University Testing at (662) 254-3334 or visit the Testing Office, which is located in the Lucile Petry Leone Building.

ACADEMIC AFFAIRS

The Office Academic Affairs is the academic unit of the University. At the cornerstone of this unit is a commitment to academic excellence and high-quality instruction in contextually salient disciplines. As a Carnegie Classified Master's University, the unit and its support areas provide comprehensive undergraduate and graduate programs in education, arts and sciences, and professional studies. The academic programs are delivered by a cadre of highly qualified faculty members who serve as experts of the curriculum and instruction of their disciplines. Academic support is also provided by dedicated support staff. The units reporting to Academic Affairs consist of the Offices of Institutional Research, International Programs, and Sponsored Programs, the Library and eleven academic departments. The Office of Academic Affairs is located on the fourth floor of the William A. Sutton Building in Office 435. Academic Affairs can be contacted via email at academicaffairs@mvsu.edu or by phone at 662.254.3800.

Department of Business Administration

Dr. Farhad Chowdhury, Chair

Departmental Overview

The goal of the Department of Business Administration is to provide a high-quality learning experience in business education. A major objective of the program is to provide students with logical reasoning, analytical and critical thinking skills, and technical skills, as well as the ethical values necessary for careers in business.

Degree Programs

The Department of Business Administration offers the Bachelor of Science Degree in Accounting and the Bachelor of Science Degree in Business Administration. The Bachelor of Science Degree in Business Administration has two areas of concentration -Business Administration and Organizational Management (OM). The Organizational Management concentration is part of an accelerated degree course of study and restricted to students who have a minimum of 45 undergraduate credit hours (which includes the State-mandated core requirements) and are at least 23 years of age.

Degree Requirements

Requirements for graduation must be met under a curriculum included in a catalog published within the past five years. All majors must complete at least 120 semester hours of course work. The specific requirements for each degree program are listed later in the section under Course Requirements for Business majors. All majors must complete all the requirements of the University as well as those of the degree area.

Accreditation

Mississippi Valley State University, through its Department of Business Administration, is internationally accredited by the Accreditation Council for Business Schools and Programs (ACBSP).

Requirements for a Minor in Accounting

A student who selects Accounting as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be selected from the courses listed below.

Financial Accounting	AC221	3 Semester Hours
Managerial Accounting	AC222	3 Semester Hours
And any of the following four courses:		
Intermediate Accounting I	AC301	3 Semester Hours
Intermediate Accounting II	AC302	3 Semester Hours
Governmental Accounting	AC325	3 Semester Hours
Accounting Systems	AC326	3 Semester Hours
Taxation	AC402	3 Semester Hours
Auditing Theory & Practice	AC405	3 Semester Hours
Cost Accounting	AC430	3 Semester Hours
Advanced Accounting	AC441	3 Semester Hours

Requirements for a Minor in Business Administration

A student who selects Business Administration as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours of coursework is listed below.

Financial Accounting	AC221	3 Semester Hours
Managerial Accounting	AC222	3 Semester Hours
Principles of Economics I	BA211	3 Semester Hours
Intermediate Accounting II	AC302	3 Semester Hours
Principles of Economics II	BA212	3 Semester Hours
Management	BA314	3 Semester Hours
Principles of Marketing	BA343	3 Semester Hours

Clubs and Organizations

The Department of Business Administration sponsors a chapter of the Accounting Society (Accounting majors only), the National Student Business League (open to all Business majors), and Students in Free Enterprise (open to all Business majors).

Honor Societies

Delta Mu Delta International Honor Society in Business recognizes the academic excellence of students enrolled at qualifying colleges and universities. The Delta Mu Delta (DMD) community fosters the well-being of its individual members and the business community through life-time membership. Mississippi Valley State University's chapter of Delta Mu Delta (Iota Kappa Chapter) began in April 2000 with the induction of 19 students and five faculty members. Undergraduate and graduate students are invited to join DMD based on the following eligibility guidelines:

- Be in good standing with the institution;
- Be in the top 20 percent of their class;
- Have completed at least half the coursework required for the degree;
- Have a minimum cumulative grade point average of 3.2; and
- Be of good character.

Department of Criminal Justice

Dr. Emmanuel Amadi, Chair

Departmental Overview

The Department of Criminal Justice is dedicated to academic excellence, and its major emphasis is on the educational preparation of undergraduate and graduate students for careers in the criminal justice field. The activities of the department focus on providing students with an understanding of a variety of criminal justice aspects including the administration of justice, corrections, criminological theory, law adjudication and law enforcement. Emphasis is placed on the development of communication and other professional skills as well as relevant technical knowledge that can help students pursue positions of responsibility and leadership within the criminal justice community.

Degree programs

The Department of Criminal Justice offers two degrees: Bachelor of Science in Criminal Justice and Master of Science in Criminal Justice. The criminal justice undergraduate program equips students with good writing, verbal, and technological skills, as well as in-depth knowledge of the criminal justice field required to succeed in criminal justice careers, or in professional schools/further graduate studies. Students have an opportunity for hands-on experience that is afforded by the department's internship program. Our interns and graduates find placements in local, state and federal criminal justice agencies and private security companies.

The Bachelor of Science Degree in Criminal Justice prepares undergraduate students for successful careers in the criminal justice field and related fields in the public and private sectors, including preparation for graduate studies. The curriculum covers all the components of the criminal justice system: Law Enforcement, including private and industrial security; courts; corrections, including community corrections; and the juvenile justice system. The wide curriculum coverage allows for enormous flexibility in the career choices open to our graduates, and, thus, has been a major strong point of this program. Additionally, the curriculum is also tailored to meet the needs of serving criminal justice officials interested in pursuing a criminal justice degree.

Degree Requirements

To receive a Bachelor of Science Degree in Criminal Justice, a student must fulfill the following requirements:

- Satisfy all requirements set by the University;
- Meet with assigned advisor regularly, including obtaining the advisor's signed approval of class schedules prior to or during each registration period;
- Complete all required courses for the degree in the proper sequence;
- Maintain a minimum cumulative GPA of 2.00 on a 4.00 scale;
- Earn a minimum of "C" in each transferred course from other accredited institutions;
- Complete 60 hours of community service; and
- Take a department-wide senior exit exam.

Requirement for a Minor in Criminal Justice

A student who selects Criminal Justice as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be select from the courses listed below.

Introduction to Criminal Justice	CJ 281	3 Semester Hours
Criminology	CJ 382	3 Semester Hours
Law Enforcement Systems and Practices	CJ 384	3 Semester Hours
Court Systems and Practices	CJ 385	3 Semester Hours
Correctional Systems and Practices	CJ 386	3 Semester Hours
Juvenile Justice Systems and Practices	CJ 387	3 Semester Hours

Clubs and Organizations

The Criminal Justice Honor Society (Alpha Pi Sigma) is a professionally oriented society for Criminal Justice honor students. It affords members the opportunity to network with scholars and practitioners on matters concerning the field of criminal justice. Members attend criminal justice professional and academic conferences and undertake various community service activities.

Department of Education

Dr. Theresa Dumas, Acting Chair

Departmental Overview

The core mission of the Education Department is to prepare competent pre-service and in-service teachers, and other personnel, for the school districts of the Mississippi Delta Region, the State of Mississippi, the nation, and beyond to assume the dynamic role of 21st Century educators. The Education Department is committed to providing staff development services, research, technical assistance, support, and in-service training for its constituent school districts, agencies, and other entities. Service courses are also offered which meet the University's core requirement addressing health and fitness.

The Education Department will graduate proactive educators who are capable of and committed to improving school-aged children's health and wellness in the Delta, Mississippi, the South, and the nation. Graduates will be competent instructors, committed ethical leaders, and reflective practitioners committed to lifelong professional development. They will be advocates to resolve, in a proactive, collaborative and responsible fashion, community, state, and national health issues.

Degree Programs

The Department of Education offers Bachelor of Science degrees in Early Childhood Education, Elementary Education (K-6), Health Physical Education and Recreation (Non-teaching) and Secondary Education. Areas of concentration for the Secondary Education degrees are Sciences Education (7-12), Physical Education (K-12), English Education (7-12), Mathematics Education (7-12), Music Education (K-12), Social Science Education (7-12), and Health, Physical Education and Recreation. The Early Childhood Education degree is not designed for school-based early childhood education and does not lead to licensure. Early Childhood Education majors are prepared to work in early childhood settings that do not require licensure from the Mississippi Department of Education.

Degree Requirements

To receive a Bachelor of Science Degree in Elementary Education or Secondary Education (any concentration area) of Health, Physical Education and Recreation, a student must fulfill the following requirements set forth by the University:

- Satisfy all requirements set by the University;
- Meet with assigned advisor regularly, including obtaining the advisor's signed approval of class schedules prior to or during each registration period;
- Complete all required courses for the degree in the proper sequence;
- Maintain a minimum cumulative GPA of 2.00 on a 4.00 scale;
- Satisfy the major specific requirements of the degree.

Additional Requirements for Elementary Education and Secondary Education Majors

Additionally, all student who wish to pursue an Elementary Education or Secondary Education (any concentration area) degree **MUST** be formally admitted to candidacy status by the Teacher Education Department Admissions Screening Committee. To gain admission, candidates must meet one of the following criteria:

- Complete 60 Credit Hours including MVSU's General Core Courses with an overall GPA of 3.00 or better.
- OR earn Praxis Core Test Passing Scores of
 - ETS Reading (Required Score 156) - Test 5713
 - Writing (Required Score 162) - Test 5723
 - Mathematics (Required Score 130) - Test 5733
 - Take all 3 Test on the Same Day Test 5752
- OR have an ACT Composite Score of 21 or higher (with a score of 18 or higher on all subtest).

Candidates must also submit to the Teacher Education Screening Committee a Portfolio that includes the following documents:

- Letters of Professional Recommendation

- Official Copies of Transcripts from All Institutions
- Personal Philosophy of Education Statement
- Official Copies of Praxis Core Scores
- ACT Exemption Option
- Official ACT Score Report
- Writing Sample

Teacher education candidates are required to complete Early Field Experiences and Directed Teaching (Student Teaching) in P-12 Partnering School Districts. The Office of Field Experiences and Clinical Practice is maintained by the Director. During Early Field Experiences, candidates are required to apply for Field Experience each semester when enrolled in methods courses, obtain a background check, purchase Liability Insurance before entering school districts, sign contracts each semester, submit all signed official documents to the office each semester, maintain observation and reflection logs of regular and special education classroom settings.

Candidates enrolled in methods courses will participate in micro-teaching simulations. Field Experience ends with Directed Teaching, ED 405: Directed Teaching for Elementary Education majors or ED 409: Directed Teaching for Secondary Education majors. Directed Teaching is also known as Student Teaching. The candidate is placed in a partnering P-12 school district from 12 to 14 weeks to experience, study, observe, and participate in an authentic educational learning experience. Both field experiences and Student Teaching are supervised jointly by teachers from partnering school districts and designated faculty from the Elementary or Secondary Education Programs.

Application for Admission to Teacher Education Screening for Admission Teacher Education is scheduled once per semester. Prospective candidates are interviewed by the Teacher Education Screening Committee.

Additional Licensure Endorsements

Add-On Licensure Endorsements are available to individuals who hold a valid Class A, 5-year Renewable License from the MVSU Education Department Approved Programs that are program completers.

Note: Supplemental endorsement areas may be obtained, based on the MS Department of Education (MDE) Guidelines and number of hours for Adding a Supplemental Endorsement.

Health, Physical Education and Recreation Degree Requirements

All Health, Physical Education and Recreation (non-teaching) majors must earn a minimum grade of “C” in all required courses within the Department. A “minimum grade of C” is required in English Courses, EN 101 and EN 102. No “D”s are allowed in HL, PE or RE courses.

Accreditation

The Education Department is nationally accredited by the Council for the Accreditation of Educator Preparation (CAEP). All licensure degree programs meet state and national standards for program approval established by the Mississippi Department of Education and the Institutions of Higher Learning.

Requirements for a Minor

Any student may elect to minor in Health, Physical Education and Recreation. A total of 18 semester hours is required beyond the general education in addition to the general requirements of PE 102 or HL 101. The following courses are required for a minor in Health, Physical Education and Recreation: PE 204 Foundations of HPER; PE 205 Motor Development and Learning; PE 303 Physiology of Exercise; and PE 406 Kinesiology. The remaining six hours may be selected with the advice of a Departmental advisor.

Clubs and Organizations

The Health, Physical Education and Recreation program sponsors the HPER Club for students’ professional associations and affiliations. Students are encouraged to become members of both the Mississippi and the American Alliance for Health, Physical Education, Recreation, and Dance.

Facilities and Resources

The Education Department main office is in the Olympia Lowe Education Complex with additional faculty offices and classrooms in the R.W. Harrison HPER Complex. The department's offices/spaces located in the O. P. Lowe Education Complex consists of eight classrooms, three computer laboratories, the Office of Field Experiences and Clinical Practice, Faculty Offices, Resource Center, Student Advisement Center. The R. W. Harrison Complex houses offices, a computer lab and additional classrooms. The instructional areas located in the R. W. Harrison Complex consists of six classrooms, a wellness room, a dance studio, and natatorium. The gymnasium located in this facility has a seating capacity of 2,200. The Charles Lackey Recreation Center is also used as an additional location for instructional purposes.

Teacher Education Resource Center

The Teacher Education Resource Center (ERC) is in the OP Lowe Education Complex. It provides provisions for specialized study of the public-school curriculum and for practical research of curriculum. The materials in the ERC include: (1) Comprehensive Reading and LA Curriculum materials and other curriculum materials available for enhancing learning and instruction in literacy suitable for use in P-12 settings.

Institute for Effective Teaching Practices

The Institute for Effective Teaching Practices (IETP) provides professional development to pre-service and in-service teachers. The overall goals of the IETP are to:

Provide enhanced services to PK-12 teachers and teacher preparation programs in Mississippi; Increase collaboration among faculty, students, and administration; and Promote resources (facilities, materials, and personnel)

Externally Funded Projects

Each year several externally funded projects are operated out of the Teacher Education Department. These projects provide opportunities for faculty, teacher candidates, and administrators to establish and sustain links with their P-12 constituencies in the MS Delta Region school districts.

Department of Engineering Technology

Dr. Antonio Brownlow, Chair

Departmental Overview

The Department of Engineering Technology is designed to prepare technical and/or technical management-oriented professionals for employment in the world of work. The curriculum prepares men and women for technical, managerial, sales, and production supervisory-type positions in the technological areas of business, government, and industry.

The Department's goals are:

1. To provide selected instructional programs for the preparation of people for careers in specialized fields in technology.
2. To contribute to the professional growth of individuals in their careers and the elevation of technical discipline through public service; and
3. To intensify and broaden the base of knowledge of student development through humanistic and intellectual components as well as socialization along with occupational preparation.

Degree Programs

The Department of Engineering Technology offers the baccalaureate degree program of study in Engineering Technology. Students majoring in Engineering Technology may select from the following areas of concentration:

- Computer Aided Drafting and Design (CADD)
- Architectural Construction Management (ARCM)
- Electronics Technology
- Technology Management

Each concentration has a required number of core courses that is unique to it. All majors must complete all the requirements of the University as well as those of the degree area.

Requirements for a Minor in Architecture Construction Management

A student who selects Architecture Construction Management as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be select from the courses listed below.

Introduction to Architecture	ET 201	3 Semester Hours
Construction Methods and Materials I	ET 222	3 Semester Hours
Construction Methods and Materials II	ET 223	3 Semester Hours
Site Planning and Surveying	ET 334	3 Semester Hours
Construction Estimating	ET 335	3 Semester Hours
Option A: Construction Project Management or	ET 446	3 Semester Hours
Option B: Industrial/Commercial Construction Methods	ET 447	3 Semester Hours

Requirements for a Minor in Computer Aided Drafting and Design (CADD)

A student who selects CADD as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be select from the courses listed below.

Introduction to CADD	ET 203	3 Semester Hours
Parametric Solid Modeling	ET 308	3 Semester Hours
CADD Structural Drafting	ET 401	3 Semester Hours
Civil/Hydrology Drafting	ET 401	3 Semester Hours
ET 335 Construction Estimating	ET 404	3 Semester Hours
Option A: Intro to Architectural Drafting and Architectural Drawing or	ET 201 and ET 202	3 Semester Hours

Option B: CADD Applications I and CADD Applications II	ET 306 and ET 307	3 Semester Hours
---	----------------------	------------------

Requirements for a Minor in Technology Management

A student who selects Technology Management as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be select from the courses listed below.

Technical Writing	ET 203	3 Semester Hours
Industrial Safety	ET 308	3 Semester Hours
Supervisory	ET 401	3 Semester Hours
Quality Control Management	ET 401	3 Semester Hours
Production Management	ET 404	3 Semester Hours
Option A: History of Technology or Option B: Industrial Psychology	ET 472 ET 482	3 Semester Hours 3 Semester Hours

Requirements for a Minor in Technology Management

A student who selects Technology Management as a minor must complete 18 semester hours of course work beyond the hours required for the primary degree. These additional 18 hours must be select from the courses listed below.

Basic Electronics and Lab	ET 141	3 Semester Hours
Semi-Conductor Devices and Lab	ET 142	3 Semester Hours
Electric Power and Energy Conservation and Lab	ET 341	3 Semester Hours
Digital Electronics and Lab	ET 242	3 Semester Hours
Option A: Fiber Optics and Lab or Option B: Microprocessors and Lab or Option C: Programmable Logic Controllers/Control Systems	ET 472 ET 482 ET 442	3 Semester Hours 3 Semester Hours 3 Semester Hours

Clubs and Organizations

The Department of Engineering Technology offers students the opportunity to join the Engineering Technology Club.

Department of English and Foreign Languages

Dr. John Zheng, Chair

Departmental Overview

As one team with one goal to win, the English and Foreign Languages faculty is an enthusiastic and dedicated group of people. They are always student-oriented and available for advice. Most of the full-time faculty are published writers of literary criticism, creative work, or monographs. The faculty Department provides multi-faceted courses due to its various concentrations (English, African American Studies and Creative Writing) and the general education courses offered by the department.

The English major programs teach the traditional canon of English and American literature and languages as a body of knowledge to be mastered, as a means of reinforcing literature's aesthetic and cultural values and as a means of refining thinking, writing, and researching skills. The department has expanded its offerings beyond the conservative, traditional spectrum to include multicultural literature. Language courses are also offered in the following areas:

- SA 101/102 Elementary Spanish
- AB 101/102 Elementary Arabic
- HD 101/102 Elementary Hindi
- RU 101/102 Elementary Russian
- JP 101/102 Elementary Japanese

English Program SLOs (Literature, Creative Writing and African American Studies)

Students will:

- perform the fundamentals of literary research by employing the appropriate tools available to students as seekers of textual knowledge to locate appropriate sources, evaluate resources, synthesize information from various sources, and integrate the information from sources into composition;
- be able to compose a coherent, well-written essay; and
- identify cultural values inherent in global literature and the deeper understanding of human nature and its attendant ethical perplexities that literary study invites.

Requirements for a Minor in Creative Writing

A student who chooses Writing as a minor must complete 18 semester hours of work beyond the required courses in composition and world literature. The 18 hours must include:

Writing on the Job English	EN 302	3 Semester Hours
Technical Writing English	EN 303	3 Semester Hours
Fiction Writing I or Poetry Writing I	EN 254 or EN 253	3 Semester Hours
Fiction Writing II or Poetry Writing II	EN 354 or EN 353	3 Semester Hours
Fiction Writing III or Poetry Writing III	EN 454 or EN 453	3 Semester Hours
Creative Nonfiction	EN455	3 Semester Hours

Requirements for a Minor in English

A student who chooses English as a minor must complete 18 semester hours of work beyond the required courses in composition and world literature. The 18 hours must include upper-level courses in American literature, British Literature, and Advanced Grammar as noted below:

American Literature (choose three)	EN 361, EN 362, EN 363, EN 364, EN 365, EN 369 or EN 370	3 Semester Hours
British Literature (choose two)	EN 310, EN 409, EN 411 or EN 412	3 Semester Hours
Advanced Grammar	EN 371	3 Semester Hours

Technology Requirement

The Department of English and Foreign Languages recognizes the need for every student to demonstrate computer literacy in order to both be successful college students and to be competitive in the current job market. All students enrolled in Department courses are expected to submit work that is word processed, to demonstrate the ability to use various computer programs, to demonstrate the ability to retrieve information through the Internet, and to understand how to evaluate information intelligently. In addition to the instruction received through English courses with respect to critical thinking and information retrieval, the Department also has as a course requirement CS 111: Introduction of Data Processing, or an equivalent course. Students must have successfully passed this class in order to be eligible to graduate.

Clubs and Organizations

Sigma Tau Delta is the honor society for the Department of English and Foreign Languages. The Department also sponsors the English Club and the Zelma T. Howard Lecture Series.

Department of Fine Arts

Dr. Lemondra Hamilton, Acting Chair

Departmental Overview

The Department of Fine Arts offers undergraduate degrees in Music and Visual Arts. Additionally, the Department offers all MVSU students the opportunity to participate in both academic and artistic experiences in the arts through electives and required appreciation courses in arts and music. Students may elect to minor in either of the degree tracks. Because the creative process involves dialogue between teacher and student, programs are structured to allow for individual attention. All programs provide a broad liberal education as well as specialized professional training from qualified faculty.

Art Program

The Department of Fine Arts offers the Bachelor of Arts degree in Art with an emphasis in Graphic Design or Multimedia and Digital Design. The primary mission of the program is to provide students with a comprehensive educational experience in aesthetics. The program strives to enrich the cultural life of the University and the surrounding communities. The art program's offerings are available to all segments of the population. The Johnston Gallery furthers the art program's aim of meeting the educational needs of the total University community by providing educational and culturally enriching art exhibitions that can be utilized as a teaching tool and a source of inspiration for practicing artists.

Art Degree Program

The Bachelor of Arts degree is an academic and performance-based undergraduate degree in the liberal arts that provides students with opportunities to gain a broad background in visual art. Art students enrolled in this program must complete the basic core curriculum for the University as well as the number of general elective courses. Students can choose to concentrate in either Graphic Design or Multimedia and Digital Design. The Graphic Design emphasis focuses on the use of computer programs to create designs for commercial applications. The emphasis in Multimedia and Digital Design allows students to explore a variety of concepts, processes, and media for the purpose of enhancing their ability to express themselves as visual artists in a variety of venues. Most of the coursework involves proficiency in the use of a variety of traditional art media for personal expression. Certain electives permit the student to explore computer technology as an art form.

During the last year of student, each student must develop and present a senior exhibition in the Johnston Gallery in the Walter Sillers Fine Arts Building. All majors must complete all the requirements of the University as well as those of the degree area for graduation. Students who desire to become teachers must complete certification requirements through the MVSU Department of Education. A minimum grade of "C" is required in all major courses.

Goals

The general objectives are to cultivate:

- The ability to think originally, inventively, and within the creative possibilities of the artist's media;
- An understanding of the theoretical functions and historical background of the visual arts;
- Excellence in the techniques and skills that are presented by artists;
- Sharpened visual awareness and sensitivity or observation;
- Comprehension of the society and culture that the artist inherits and the artist's responsibility;
- Discernment in the judgment of values, both in art and life in general; and
- Dedication to the mission of the artist.

Student Learning Outcomes

The following are the expected Student Learning Outcomes:

- Students will demonstrate digital and traditional artistic media proficiencies appropriate to the area of emphasis.
- Students will exhibit and apply an understanding of the phases and movements in Art History.

- Students will analyze and create artistic compositions using the elements of art and principles of design.
- Students will solve creative problems through iteration, ideation, and experimentation.
- Students will describe and critique visual art through written and verbal means.

Accreditation

The Art Department is accredited by the National Association of Schools of Art and Design (NASAD). The Bachelor of Arts degree meets the requirements in accordance with the published regulations of NASAD accreditation.

Requirements for a Minor in Art

Students must complete 18 hours of coursework in AR designated courses, not including Art Appreciation, to receive a minor. Students must receive at least a “C” for the course to be accepted. Below are the various areas in which to receive an art minor as well as the required courses for each art minor area.

Studio Art

- AR 102 Digital Two-Dimensional Design Studio or AR 103 Sketching and Digital Drawing Studio I 3 Semester Hours
- AR 106 Three-Dimensional Design 3 Semester Hours
- AR 310 History of Ancient & Greco-Roman Art or AR 311 History of Renaissance & Baroque Art or AR 312 History of 20th Century Art or AR 427 Afro-American Art History 3 Semester Hours
- AR 203 Painting I or AR 205 Sketching and Digital Figure Drawing Studio I or AR 227 Hand-building Ceramics or AR 308 or Creative Photography or AR 314 Watercolor or AR 316 Intaglio or AR 317 Relief Printmaking or AR 318 Silkscreen or AR 319 Lithography or AR 327 Wheel Throwing Ceramics 3 Semester Hours
- AR 304 Painting III or AR 308 Creative Photography or AR 314 Watercolor or AR 316 Intaglio or AR 317 Relief Printmaking or AR 318 Silkscreen or AR 319 Lithography or AR 327 Wheel or Throwing Ceramics 3 Semester Hours
- AR 403 Advanced Painting or AR 407 Large Format Photography 3 Semester Hours

Graphic Design

- AR 102 Digital Two-Dimensional Design Studio or AR 103 Sketching and Digital Drawing Studio I 3 Semester Hours
- AR 106 Three-Dimensional Design 3 Semester Hours
- AR 310 History of Ancient & Greco-Roman Art or AR 311 History of Renaissance & Baroque Art or AR 312 History of 20th Century Art or AR 427 Afro-American Art History 3 Semester Hours
- AR 201 Intro to Visual Communication I 3 Semester Hours
- AR 301 Intermediate Computing for Multimedia Design or AR 306 Interactive Media Design 3 Semester Hours
- AR 308 Creative Photography or AR 401 Advanced Problems in Visual Communications I or AR 405 Illustration 3 Semester Hours

Art History

- AR 102 Digital Two-Dimensional Design Studio 3 Semester Hours

- or AR 103 Sketching and Digital Drawing Studio I
- AR 310 History of Ancient & Greco-Roman Art 3 Semester Hours
- AR 311 History of Renaissance & Baroque Art 3 Semester Hours
- AR 312 History of 20th Century Art 3 Semester Hours
- AR 427 Afro-American Art History 3 Semester Hours
- AR 418 Independent Study 3 Semester Hours

Art Education

- AR 102 Digital Two-Dimensional Design Studio or AR 103 Sketching and Digital Drawing Studio I 3 Semester Hours
- AR 105 Fundamental Color Studies and Digital Application or AR 203 Painting I 3 Semester Hours
- AR 106 Three-Dimensional Design 3 Semester Hours
- AR 227 Hand-building Ceramics 3 Semester Hours
- AR 311 History of Renaissance & Baroque Art or AR 427 Afro-American Art History 3 Semester Hours
- AR 313 Public School Art or AR 376 Arts and Crafts 3 Semester Hours

Facilities

The Walter Sillers Fine Arts Building houses the Art Department. It contains spacious classroom studios designed for drawing, painting, photography, printmaking, ceramics, two-dimensional design, three-dimensional design, color fundamentals, and arts and crafts. In addition, there are lecture halls, a computer lab, and an art gallery. The Johnston Gallery exhibits the art works of students, faculty, and artists from various communities throughout the Delta, the state, the region, and the nation.

Music Program

The music program provides undergraduate programs in music and music education and offers cultural opportunities for the University and the community. The programs offerings are available to all segments of the population. The academic program in music provides opportunities for concentrated study in music leading to the Bachelor of Arts and the Bachelor of Music Education Degrees. Music majors may concentrate in instrumental, vocal, or keyboard music and music composition. Opportunities to pursue musical study are also available to non-music majors, precollege music students, and the general public.

The Bachelor of Arts in Music Education is a professional degree for students who wish to become certified as K-12 music educators. Students enrolled in this program must complete the basic core curriculum and courses in education and directed teaching. Students may choose instrumental, keyboard, or vocal music as their primary area of concentration.

The Bachelor of Arts in Music Performance is an academic and performance-based undergraduate degree in the liberal arts that combines musical history and theory with performance practice. Students enrolled in this program must complete the basic core curriculum for the University and elective courses. Within the area of concentration, students may choose to emphasize music performance or music composition.

Areas of Emphasis

- | | | |
|----------------|------------------|----------------|
| 1. Piano | 2. Voice | 3. Trumpet |
| 4. Trombone | 5. Baritone Horn | 6. French Horn |
| 7. Tuba | 8. Flute | 9. Oboe |
| 10. Clarinet | 11. Saxophone | 12. Bassoon |
| 13. Percussion | 14. Composition | |

Goals

The Department's goals in music are:

- To offer the curricula, instruction, and experiences that are necessary for the preparation of undergraduate music majors for employment in music and for graduate study;

- To advise each music major in selecting a course of study;
- To provide services to other areas;
- To give music majors opportunities to hear and perform music of diverse styles;
- To teach music majors to interpret scores; To provide educational opportunities in music for non-music majors through participation in courses in music appreciation, history, theory, applied music, and large and small ensembles;
- To assist incoming students in becoming fully prepared to function at the level normally expected of freshmen music majors; and
- To contribute to the community's cultural and educational offerings through concerts, recitals, and various presentations by the music faculty, students, and guest artists.

Student Learning Outcomes

The following are the expected Student Learning Outcomes:

- Performance Specific: Students will demonstrate elevated levels of music performance on their primary instrument.
- Students will categorize musical compositions in historical and stylistic perspectives through performance, listening, and discussion according to periods of music history.
- Students will analyze aural and written music and demonstrate compositional processes when writing music.
- Students will demonstrate functional performance abilities in keyboard (piano).
- Students will perceive, respond to, and value a broad range of musical literature, the principal eras, genres, and cultural sources.
- Education Specific: Students will articulate and apply methodologies, theories, materials, technologies, and curriculum in music education.

Degree Requirements

Every music major is required to perform an advisory audition and take placement examinations in music theory, piano, and an applied area prior to the first term of enrollment as a music major. The following requirements are expected: (1) solo (medium-difficult), (2) major and minor scales, (3) techniques as applied to the principal instrument, and (4) sight reading. Freshman students are expected to exhibit knowledge of musical terms, intervals, and key signatures. All prospective majors are expected to be proficient in one of the following areas: voice, keyboard, woodwind, brass, or percussion. Knowledge of the piano is recommended but is not required.

Majors are required to participate in a major ensemble (band or choir) during each semester of matriculation, exclusive of student teaching semester. The approval of the department head must be obtained for any exceptions to the major performing ensemble requirement. All music majors are required to pass the piano proficiency examination prior to directed teaching or graduation. A minimum grade of "C" is required in all major courses. Music majors are required to attend all recitals and concerts presented on campus. All music majors enrolled in applied music are required to perform in student recitals. A public senior recital is a prerequisite to field teaching experiences or graduation. All majors must complete the requirements of the University as well as those of the degree area.

Requirements for a Minor in Music

Students must complete 18 hours from the courses listed below to receive a minor. Students must receive at least a "C" for the course to be accepted.

MU 100	Introduction to Applied Music
MU 101- MU 402	Applied Music
MU 101- MU 402	Ensemble
MU 111- MU 412	Small Ensemble
MU 120	Basic Music Skills
MU 121	Theory I
MU 122	Theory II
MU 141-142	Piano Class
MU 223	Diction for Singers

MU 251 - 252
MU 331 - 332
MU 346

Fundamentals of MIDI and Software Synthesis I and II
Music History and Literature I and II
Voice Class

Facilities

The Walter Sillers Fine Arts Building houses both the music and art programs. The building houses piano practice rooms, instrumental practice rooms, offices/studio for music professors, MIDI classroom and lab, the Little Theatre for classes, choir and recitals, an electronic piano laboratory, a band office suite, band instrument and uniform storage rooms, and a band hall that seats 150 students. A dedicated music listening room is housed in the James H. White Library. The B.B. King Recording Studio is housed in the O. P. Lowe Education Building.

The Walter Sillers Fine Arts Building also houses the Art Department. It contains spacious classroom studios designed for drawing, painting, photography, printmaking, ceramics, two-dimensional design, three-dimensional design, color fundamentals, and arts and crafts. In addition, there are lecture halls, a computer lab, and an art gallery. The Johnston Gallery exhibits the art works of students, faculty, and artists from various communities throughout the Delta, the state, the region, and the nation.

Clubs and Organizations

Marching Band
Concert Band
Varsity Pep Band
Jazz Band
University Choir
Valley Singers
Tau Beta Sigma National Honorary
Band Sorority, Inc.

Brasswind Ensemble
Percussion Ensemble
Woodwind Ensemble
Concert Choir
American Choral Directors Association Collegiate Chapter
National Association for Music Educators Collegiate Chapter
Kappa Kappa Psi National Honorary Band Fraternity, Inc.

Scholarships

Auditions for scholarships occur on audition days held during the academic year. Scholarships are available to all students participating in the band and choir and are not exclusive to music majors. Scholarship awardees must adhere to the following guidelines.

- Maintain a 2.0 cumulative GPA
- Attend rehearsals
- Avoid disciplinary infractions
- Attend performances

The Henri E. Lowe Music Scholarship, named in honor of the retired director of the MVSU Concert Choir, is awarded to a member of the choir who has demonstrated talent, potential leadership abilities, and service to the concert choir and Mississippi Valley State University.

Department of Mass Communications

Dr. Carolyn Gordon, Acting Chair

Departmental Overview

Department of Mass Communication strives to prepare students for careers in the field of communication through its curricular offerings in the areas of broadcasting, journalism, public relations and speech communication. Upon graduation, students should be ready to assume effective roles in professional communication careers or proceed to graduate school for advanced degrees.

The overall goal of the communication programs is to:

- Provide students with practical skills necessary for employment in broadcasting, journalism, public relations or speech communication,
- Produce communication graduates who are well grounded in the liberal arts and sciences,
- Produce communication graduates with a solid background in the theoretical aspects of communication,
- Provide students with the ability to search for, assemble, organize and present information in a coherent and meaningful manner,
- Provide students with skills that will enable them to live and work effectively in the diverse environment of the global society, and
- Produce communication graduates who are well grounded in the discipline to enter professional and graduate schools.

Degree Programs

The Department of Mass Communication offers two Bachelor of Arts degrees: mass communication with a concentration in broadcasting, journalism or public relations; and speech communication. A degree in mass communication requires 120 hours and a degree in speech communication requires 120 hours, which consist of five course categories: general education core, departmental core, major and minor areas, and electives. A major in mass communication requires 33 hours of electives (non-mass communication courses). A major in speech communication requires 27 hours of electives. All Department of Mass Communication students must complete a senior project research paper, as well as take a departmental comprehensive exit examination.

Requirements for graduation must be met within a curriculum contained in the MVSU catalog published not more than five years prior to the semester of admission to the University. Students outside the department may elect one of the three emphases areas or speech communication as their minor. A minor in mass communication, speech communication or theater requires 18 hours of course work. All majors must complete all the requirements of the University as well as those of the degree area.

Suggested Electives for Mass Communication

The philosophy of the Department is that communicators should acquire a degree of intellectual versatility and fullness that enables them to work effectively in a multicultural, multidisciplinary and multiracial society, such as ours. In consonance with this philosophy, a communication degree must incorporate a broad-based education that is well grounded in the liberal arts and sciences. For other possible electives students should contact their advisers or the department chair.

Facilities

Among the department's facilities are a state-of-the-art computer lab for the use of students and for producing the campus newspaper, Delta Devils Gazette, and the yearbook, Delvian, a state-of-the-art radio station, WVSD, 91.7 FM, and a state-of-the-art television studio that broadcasts to campus and surrounding communities, WVSD-TV.

Clubs and Organizations

The Department of Mass Communication has several student organizations--the Mass Communication Club, MVSU Association of Black Journalists, the Press Club and a communication honor society, Lambda Pi Eta. The Valley Players, sponsored by the Mass Communication Department and directed by a department faculty includes students from the department, as well as students, staff, faculty, and community members from the area. Valley Players puts

on a production annually for the students, faculty, staff, and the community. Productions are also taken on the road to the high schools in the region.

Department of Mathematics, Computer and Information Sciences

Latony Garner-Jackson, Chair

Departmental Overview

The Department of Mathematics, Computer and Information Sciences values and promotes excellence in its central mission of teaching. Faculty and staff of the department support students in a nurturing atmosphere where major and service courses are designed to prepare mathematicians, computer scientists, and other students for entry into careers in business, industry, research, and education. The department is dedicated to assisting all students in achieving professional and occupational competencies and in developing the computational skills and levels of literacy necessary for earning a living or for success in graduate or professional schools. To ensure that students are academically successful, the faculty, staff and students of the department provide tutoring sessions where students are able to acquire any additional assistance that may be needed.

The overall goal of the Department of Mathematics, Computer and Information Sciences is to offer relevant curricula that will help prepare students to cope with and thrive in an ever-changing world. Specifically, the department strives to:

- Develop the mathematical and computer skills of students;
- Provide experiences through modeling, field experience and simulations;
- Develop cognitive skills through effective and holistic teaching; and
- Produce mathematicians, scholarly teachers, and computer scientists.

Degree Programs

The department offers a Bachelor of Science degree in Mathematics and a Bachelor of Science degree in Computer Science. In mathematics, the curriculum leads to a degree that qualifies the individual for research and employment in industry with related jobs. The computer science degree has three tracks that students can follow to receive the B.S. degree in Computer Science. The computer science track is designed for scientific and/or research activities, the information science track is designed to train persons for business applications, and the computer security track is designed to teach security principles and practical applications in computing.

Accreditation

B.S. degree program in Computer Science

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org>.

Requirements for a Minor in Mathematics or Computer Science

A minor in Mathematics may be obtained by completing the following courses: MA 299, MA 300, MA 317, MA 325, MA 401, and any other 3-hour Math course at the 300 or 400 levels or MA 251. A total of 18 hours is required for a minor in Mathematics.

A minor in Computer Science may be obtained by completing the following courses: CS 112, CS 203, CS 221 or 231, CS 371, MA 299 and one of the following three (3) hour courses: CS 321, CS 425 or CS 441. A total of 18 hours is required for a minor in Computer Science.

Clubs and Organizations

The following clubs and organizations are available in the Department:

- Mathematics, Computer and Information Sciences (MCIS) Club
- National Society of Black Engineers (NSBE)
- Women in Science and Technology (WIST)
- CyberSecurity Club

MCIS Scholarships

Students who pursue a major in the Department of Mathematics, Computer and Information Sciences are eligible to apply for the MCIS Alumni Book scholarship and other departmental scholarships administered within the department.

Department of Natural Sciences and Environmental Health

Matthewos Eshete, Acting Chair

Departmental Overview

The Department of Natural Sciences and Environmental Health (NSEH) is composed of Biology, Chemistry, Environmental Health, and Bioinformatics. The 13 faculty members are responsible for teaching science courses for the University and conducting research in their chosen fields of study. Departmental strengths include analytical chemistry, biological sciences, bioinformatics, and environmental studies.

Goals

The primary goals of the Department of Natural Sciences and Environmental Health are:

1. To develop students who are well prepared for their chosen careers in sciences and in the fulfillment of their personal lives in an ever-changing society;
2. Provide opportunities for all students of the University to become familiar with concepts and principles of Natural Sciences and Environmental Health;
3. Offer baccalaureate and master's degree curricula in Natural Sciences and Environmental Health; Prepare interested students for advanced study in biological, chemical and health sciences and Environmental Health;
4. Prepare those interested in admission to schools of medicine, dentistry, nursing, medical technology, physical therapy, and other allied health service professions;
5. Prepare and train students for employment in public health, occupational safety fields, and in environmental monitoring, regulation, or protection fields; and
6. Develop teaching skills in students interested in teaching biology in secondary schools.

Accreditation

The baccalaureate degree program in biology is designed in accordance with the guidelines of the American Society for Biochemistry and Molecular Biology (ASBMB). The ASBMB offers accreditation for programs in biochemistry and molecular biology, which often have significant overlap with general biology programs. The baccalaureate degree program in chemistry is prepared to meet the accreditation guidelines of the American Chemical Society. The master's degree program in Environmental Health is accredited by the National Environmental Health Science and Protection Accreditation Council. The master's program was accredited for six years in 2024 by NEHPAC.

Degree Programs

The Department of Natural Sciences and Environmental Health offers Bachelor of Science degrees in Biology, Chemistry, and Master of Science degrees in Environmental Health and Bioinformatics.

- Review academic progress and obtain advisor's approval of class schedule for subsequent semester/session prior to or during the registration period.
- Complete all courses required by the Academic Map in recommended sequence with a minimum overall grade point average of 2.00 and with no more than one "D" grade in any major course and a minimum of a "C" grade in English 101 and 102.
- Participate in all required non-credit student activities such as departmental clubs, field trips, and advisory conferences. Attend regular semester seminars when scheduled.
- Complete the senior project, or internship, and/ or student teaching as required. Complete a resume and other information sheets for the Career Counseling and Placement Office and provide a copy for the departmental files.
- Review academic progress with the assigned advisor and make application for graduation in compliance with the University calendar.
- Complete all other requirements set by the department or the University.
- Consult with academic advisor at least twice each semester prior to registration on course scheduling, internships, and career planning.
- Pay all departmental dues.

Curriculum for Biology Majors

This curriculum prepares students for: (1) laboratory or field work in biology; (2) entrance into graduate programs in life sciences; (3) admission to schools of medicine, dentistry, osteopathic medicine, podiatry; or (4) acceptance into allied health programs such as pharmacy, physical therapy, medical technology, cytotechnology, clinical laboratories sciences, health information management, emergency medical technology, occupational therapy, and nursing. The laboratory or field work employment may be secured in academic and research organizations in a variety of public and private settings.

Curriculum for Chemistry Majors

This curriculum prepares the students for employment in the chemical industry, and private or public research laboratories, or for graduate study in one of the many chemical specialties. The curriculum is designed to conform to the guidelines of the American Chemical Society.

Other Science Courses

Sciences courses, other than those for major in biology, chemistry, and environmental health, include survey of biological and physical sciences with laboratory courses. The survey of biological and physical science courses are offered to meet the general University core requirements for non-science majors. Service courses in chemistry and physics are also offered for departmental majors, as well as for non-departmental majors.

Requirements for Minor in Biology

Biology Minor: Biology 111-112 and three upper-level biology courses for a total of 20 semester hours. Credit for survey courses does not apply towards a minor or major. Chemistry Minor: CH 111-112 and three upper-level chemistry courses for a total of 20 semester hours. Credit for survey of physical sciences does not apply towards a minor or major.

Requirements for Minor in Chemistry

Students desiring a minor in chemistry must complete 20 semester hours of chemistry. The core courses for a minor in chemistry are: CH 111, CH112, CH 301, and 302. In addition, a student must choose one additional course from CH 311, CH 320, or CH 424 for a total minimum of 20 credit hours.

Facilities

The Department of Natural Sciences and Environmental Health is located in the two-story buildings, the Fielding\ L. Wright Building (FLW) and the Science and Technology Center. The FLW Building also houses Chemistry, Computer Science and Mathematics. State-of-the art Science and Technology building houses Biology, Bioinformatics and Environmental Health Programs. The Fielding L. Wright part of the complex was constructed in 1967, occupied in 1969, and renovated in 1995-96. The part of the complex devoted to science instruction and research is 47,506 square feet. A technology support and learning center for science and mathematics majors, faculty-staff lounge/conference room, and storage area are available to the science faculty, staff, and students. The Science and Technology Building is over 56,000 sq. ft. and consists of teaching labs, computer labs, graduate students lounges and ten research labs.

Each faculty member in the department has his/her own research laboratory. Research is conducted in faculty research laboratories and in the laboratory preparation-research room. Additional research facilities include the greenhouse and the animal holding facility, a photographic darkroom, a research pond, and an outdoor science laboratory. The chemistry program has four teaching laboratories for general chemistry, organic chemistry, analytical and physical chemistry, a chemical analysis lab and two research laboratories. The physics facility consists of two laboratories combined with the outdoor instrumentation for photovoltaics research. There are two laboratories for the Physical Sciences: Chemical Analysis Laboratory, and Environmental Analysis Laboratory and two Bioinformatics Laboratories.

Clubs and Organizations

Louis Stokes Mississippi Alliance for Minority Participation (LSMAMP) Program

The LSMAMP Program at Mississippi Valley State University is designed to provide both orientation and enrichment experiences in research and critical-thinking skills as well as to prepare students for completion of the terminal degrees in science, engineering, and mathematics. The two major components of the LSMAMP Program are the High School-to-College BRIDGE Program and the Increase Minority Admission to Graduate Education (IMAGE) Program. LSMAMP objectives includes: (1) efforts to significantly increase the number of minorities in

science, engineering, and mathematics who receive terminal degrees; (2) efforts to provide linkages between universities within the state; and (3) enhancement of student academic performance.

Natural Sciences and Environmental Health Club

The Natural Sciences and Environmental Health Club is an organization for promoting student involvement in departmental activities. Student activities include field trips, guest seminar speakers, and University and community project involving the sciences. The Pre-Med Club is for students who are interested in medical, dentistry and biological careers. Activities include visiting medical institutions, hospitals, and clinics. Students are encouraged to volunteer in medically oriented facilities.

MVSU Pre-Medical, Dental, and Allied Health (PMDA) Programs

The MVSU office of PMDA is located in the science block of the Fielding L. Wright building. The PMDA programs office coordinates the pre-Health Programs (HPs) and pre-Allied Health Program (AHPs). The pre-HPs coordinated typically included pre-medicine, pre-dental, and pre veterinary medicine. The pre-AHPs that the office of PMDA coordinates include, but are not limited to, clinical laboratory sciences, cytotechnology, dental hygiene, emergency medical certification, health information management, nursing, occupational therapy, pharmacy, physical therapy, and respiratory therapy, among others.

The objectives of the MVSU office of PMDA programs are to maximize our students' exposure to pre-HPs and pre-AHPs and consequently increase the number of students choosing to go into HPs and AHPs.

The PMDA program laboratory is equipped with computers and tutors. It is poised to assist students with test-taking training software that help prepare students for taking of national standardized tests, such as the Medical College Admission Test (MCAT), Dental Admission Test (DAT), and Pharmacy College Admission Test (PCAT).

Scholarships

Research Assistantship

The number and monetary amount of these awards vary according to the granting agency requirements. Generally, these are awarded to juniors, seniors or graduate students with a GPA of 3.75 or better with proven interest in conducting research with data analysis skills.

Department of Social Sciences

Richar Mushi, Chair

Departmental Overview

In 1951, the Department of Social Sciences began offering the Bachelor of Science Degree in Social Science Teacher Education. Just as students' needs and academic standards have changed over time, so too have the Department's degree offerings and curricula. The Department presently offers six bachelor's degrees and a Master of Arts degree in Rural Public Policy and Planning.

Goals

The Department of Social Sciences overall goal is to have a competent faculty who will offer a curriculum that will prepare students with the necessary skills to function effectively in government agencies, industry, research, and professional careers. Specific objectives pertaining to each degree program are stated under each degree program.

Accreditations

The Department of Social Sciences is part of the University-wide accreditation by the Southern Association of Colleges and Schools. The Master of Arts in Rural Public Policy and Planning has an additional accrediting body, the Network of Schools of Public Policy, Affairs, and Administration (NASPAA), from which the program will seek accreditation.

Degree Programs

The Department offers four degrees: Bachelor of Arts in General Studies, Bachelor of Arts in Integrated Social Sciences, Bachelor of Arts in Pre-Law/Legal Studies, Bachelor of Arts in University Studies, and the Master of Arts in Rural Public Policy and Planning. Bachelor of Arts in Integrated Social Sciences is interdisciplinary drawing courses from History, Government & Politics and Sociology disciplines. Students will choose one or more of these disciplines as their primary emphasis. This interdisciplinary approach is designed to prepare students for both graduate study and their future employment plans.

General Studies Degree Program

The objectives of the degree program are to allow students to finish their degrees in a timely manner, to allow for wide flexibility in designing an intellectually stimulating program of study, to tailor studies carefully to meet the work requirements and career goals of students and to maintain academic integrity by coordinating advisement with programs from which students will draw their concentrations.

Program Administration

Chairs/Advisors will be responsible for advising students and monitoring their progress in consultation with the departments and programs from which a student will select his or her concentrations. Graduation clearance can be completed either by the Coordinator of General Studies within the Social Sciences Department or by an advisor within another Department, but the degree will be awarded within the Department of Social Sciences.

Admissions Requirements

Students must have completed 90 hours of study before declaring a General Studies major. All persons declaring the major must be in good academic standing with the University. New Students, Re-admit Students, and Transfer Students declaring the General Studies degree will have met the same requirements as those for general admission to the University. No degree will be undertaken without consultation with and approval by departmental Chairs.

Program Requirements

At least 120 semester hours with passing grades, a minimum 2.00 cumulative overall grade point average, and a minimum 2.00 GPA within each concentration must be completed for the Bachelor of Arts in General Studies degree. Students may complete the General Studies Degree by exercising one of three options: In option one, students may graduate with no concentrations or with one concentration of 18 hours. In option two, the student must complete two concentrations of 18 hours each. In option three, the student must complete three concentrations of 18 hours each. In addition to the chosen option, each student must

complete 30 credit hours of the general core curriculum and electives to accumulate the 120 hours needed for graduation. All concentrations completed will be listed on the student's transcript and diploma. At least 30 of the semester hours applied to the degree program must be at the 300 or 400 level.

Student Learning Objectives

- Students will complete their degree in a timely manner
- Students will take classes that prepare them for their post-graduate goals.

Integrated Social Science Degree Program

The Integrated Social Sciences degree brings together the disciplines of Sociology, Government and Politics, and History in a multidisciplinary degree that is designed to prepare students for a future that increasingly blurs distinctions between disciplines while also seeking new connections among them. All students receive a solid grounding in all three disciplines while choosing one or more as their concentration. The program is designed to prepare students for graduate work in any of these disciplines, for professional school, or for a variety of careers. The program is designed to prepare students for their post-graduate careers, whether in graduate school, professional school, or in the workforce. Students will receive a thorough grounding in sociology, history, and government and politics with special emphasis put on critical thinking and effective communication, skills that will serve them well whatever their futures.

Student Learning Outcomes

- Students will demonstrate Critical Thinking skills
- Students will demonstrate writing competency
- Students will demonstrate the ability to present their knowledge orally
- Students will engage in effective research
- Students will be able to accurately and concisely summarize the argument of academic scholarship

Pre-Law/ Legal Studies Degree Program

The Pre-Law/ Legal Studies Program at Mississippi Valley State University offers a well-rounded program of study to majors seeking a broad understanding of the legal systems and preparation for careers in law and law-related fields. The program is dedicated to offering academic extracurricular activities that enhance the program's in-class experiences, especially through completion in nationally sanctioned mock trial competitions.

The Pre-Law/Legal Studies degree is a multi-disciplinary course of study examining the interpretation, politics, and administration of the law. It includes perspectives from business administration, criminal justice, history, political science, public administration, and mass communication. It focuses on developing skills in reading, writing, speaking, and critical thinking – skills that are foundational for law school.

The legal system affects nearly every aspect of society, from individuals buying their first home to businesses expanding in international markets. Legal studies, or pre-law, fosters a more complete understanding of basic legal concepts and prepares students whether they intend to attend law school or simply wish to pursue graduate studies or successful careers. To obtain a bachelor's degree, a student must complete a minimum of 121 credit hours.

Student Learning Outcomes

- Students in Pre-Law/Legal Studies will develop skills in critical thinking, reading, and writing.
- Students in Pre-Law/Legal Studies will acquire a basic understanding of the operations of legal systems in the United States and throughout the world.
- Students in the major will take four years of Legal Advocacy and Critical Reasoning and participate on the University Mock Trial Team.
- Students in the program will take an internship with local attorneys introducing them to the day-to-day operation of the legal field.
- Students in Pre-law/Legal Studies should either enter productive employment or proceed to graduate or professional schools.
- Students in Pre-law/Legal Studies should engage in significant academic extracurricular activities. These activities could include maintaining membership in The Pre-Law Club and attending and presenting at professional meetings.

University Studies Degree Program

The University Studies Degree encourages adults twenty-one and over who have completed some college, but earned no degree, to return to college and complete a bachelor's degree. The degree provides learners with a flexible path to a bachelor's degree. The University Studies Degree is intended to serve adult learners who have earned at least 90 credit hours but have not completed a baccalaureate degree and have not attended a postsecondary institution in the past twenty-four months based on last date of attendance. The curriculum may be individualized for each adult learner based on coursework completed and career goals.

Students must complete 120 hours of credit to graduate and maintain a 2.0 GPA overall. The MVSU Academic Fresh Start Policy may apply to these credits. Grades of D may be used in concentrations and MVSU may accept transfer D's only for this degree. At least 30 hours of the credit must be at the 300 or 400 level. Credits earned through prior learning assessment, competency-based education, or regionally accredited Career Technical programs (up to 30 hours) may be included as part of the 120 hours. Students in this degree are exempt from the community service requirement for the University.

Students may complete the University Studies Degree by exercising one of three options: In option one, students may graduate with no concentrations or with one concentration of 18 hours. In option two, the student must complete two concentrations of 18 hours each. In option three, the student must complete three concentrations of 18 hours each. In addition to the chosen option, each student must complete 30 credit hours of the general core curriculum and electives to accumulate the 120 hours needed for graduation. All concentrations completed will be listed on the student's transcript and diploma.

Student Learning Outcomes

- Students critically evaluate claims based on careful scrutiny of the underlying argument and evidence.
- Students express their knowledge through competent writing.
- Students integrate their degrees with their career ambitions.

Requirements for a Minor within the Department

The Government and Politics, History, and Sociology degree programs offer minors. In addition, the interdisciplinary Africana Studies minor is directed by the Coordinator of the History program. Students select courses, as offered, from the English, Fine Arts, and Social Sciences degree programs for these minors.

Facilities

The Department of Social Sciences is located in the W. A. Butts Social Sciences Building. There are classrooms for teaching, a seminar room, a computer center, faculty offices, and a faculty lounge. The building also houses two computer labs and a large auditorium that is used for various activities.

Clubs and Organizations

The Department of Social Sciences sponsors the following clubs and organizations: Model United Nations, Mock Trial, the Pre-law Club, and Sociology. Some academic programs are affiliated with national honor societies: Pi Alpha Alpha—Public Administration Honor Society, Pi Sigma Alpha—Political Science, Phi Alpha Theta—History, the American Society for Public Administration (ASPA), and the Conference of Minority Public Administrators (COMPA).

Department of Social Work

Diane Boston, Acting Chair

Departmental Overview

The Department of Social Work is designed to meet the needs of human service agencies in the Mississippi Delta and beyond. The program has been accredited by the Council on Social Work Education since 1978. The department is committed to the pursuit of excellence in the teaching and the promotion of accountable and ethical social work practices. The Department is dedicated to preparing students for entry-level social work positions with individuals, families, groups, organizations and communities; provide students with necessary knowledge and skills for working with diverse populations, including oppressed, minority, and rural in a variety of settings. The Department endeavors to prepare students for graduate education and provide technical support to social services agencies and continuing education for professional social workers in the community.

Degree Program

The Department of Social Work offers an undergraduate curriculum for students pursuing the baccalaureate of Social Work Degree (BSW). This degree is designed to prepare students for generalist social work practice. It prepares students with professional competencies to provide direct services in a variety of settings with individuals, families, groups, organizations, and communities.

The Department of Social Work is accredited at the baccalaureate level by the Council on Social Work Education, therefore students graduating from Mississippi Valley State University with a Bachelor of Social Work (BSW) degree are eligible for advanced standing admission into Master of Social Work (MSW) programs in many universities. Graduates are eligible to sit for the Social Work license examination at the baccalaureate level. The license makes them highly marketable in human service agencies.

Students interested in pursuing a BSW degree must qualify for regular admission to the University and for admission to the Department of Social Work. Admission to the Department of Social Work is completed during the student's sophomore year. Transferring students at the junior/senior level must complete this process within the first semester at Mississippi Valley State University. The process requires:

- Admission to Mississippi Valley State University;
- Declaration of Social Work as a major, and completion of a minimum of 30 credit hours in the general core curriculum;
- A minimum cumulative GPA of 2.00 on a 4.00 scale; Enrolled/Completion of SW 210 - Introduction to Social Work;
- Demonstration of an interest in, and an aptitude for, a career in social work; Submission of a Social Work admission application along with reference letters and a personal statement of goals and experience; and
- Completion of a successful admission interview if required with a Social Work faculty member.

Degree Program Requirements

To receive a Bachelor of Social Work Degree, a student must fulfill the following requirements:

- Declare Social Work as a major field of study; Gain admission to the Department of Social Work;
- Complete the General Core Curriculum Earning a Minimum Grade of "C" in English Composition: EN101 and 102;
- Pass required Social Work courses, earning a grade of "C" or better in each major course; and
- Earn a cumulative grade point average of not less than a 2.50.

Accreditation

The Department of Social Work is accredited by the Council on Social Work.

Clubs and Organizations

The Social Work Club

This is the organization of MVSU social work students. It promotes students' academic and professional development by fostering their positive experience. With strong support from the faculty, the club plans and implements all of its educational and community service activities. The Phi Alpha Honor Society: This is the

national social work honor society. Students achieving academic excellence are inducted into this society. It fosters high standards in professional education and provides an opportunity for high achieving MVSU social work students in establishing connections with students from other schools of social work. Students must have a 3.0 cumulative GPA and 3.25 Social Work GPA to qualify for the Phi Alpha Honor Society.

Distance Education and Online Learning

Serita Wheeler, Director

The Office of Distance and Online Education at Mississippi Valley State University provide credit and non-credit activities, on and off-campus for traditional and non-traditional (21 years old and older) students. Non-traditional students are individuals who enroll in higher education for the first time; or, are returning after a period of separation. Distance and Online Education activities allow participants to: (a) work toward an undergraduate or Master's Degree; (b) upgrade professional and paraprofessional skills; (c) document qualifications for licensure or certification; (d) give evidence of personal and vocational growth needed to change careers; (e) increase chances for employment; (f) advance in a present job; (g) learn a new skill to keep abreast of advancing knowledge and technology; or (h) improve the quality of personal life through intellectual stimulation and good health maintenance. Vocational and technical courses and workshops are offered for which Continuing Education Units (CEU's) may be awarded. A CEU represents ten contact hours of participation in an organized non-credit activity under responsible leadership, capable direction, and qualified instruction.

Distance Education at Mississippi Valley State University is the delivery of courses away from the main campus. The University operates three off-campus centers where classes are taught in a traditional teaching mode with an instructor being present in each class. The Greenville Higher Education Center (GHEC) is located 40 miles west of the main campus, the MVSU at Coahoma Community College site located 53 miles from the campus in Clarksdale and the MVSU at Holmes Community College site located approximately 66 miles south of the campus in Goodman, Mississippi. MVSU is committed to offering classes throughout the Delta area in a manner that meets the needs of its citizens. Courses at these sites are taught by MVSU faculty who meet the same standards and pre-requisites expected of campus-based faculty. Hence, these classes follow the same policies and procedures as all classes taught at the main campus.

The Office of Distance Education provides administrative coordination and oversees an Online Courses programs and Dual Enrollment.

Online Courses: These are Internet user-friendly courses that allow students to interact with instructor and course-mates. Online credit courses are equivalent to their on-campus counterparts and are approved by the appropriate MVSU academic departments.

AC (attending class) Policy for Online Classes: Before assigning an AC Indicator, the student must have completed an activity assigned by the faculty member. Examples would include, but not limited to:

- Submission of an academic assignment, or
- Submission of an exam, test or quiz, or
- Participation in an online discussion about an academic subject matter, or
- Communication with faculty via Canvas.

Please note: A student's log in to Canvas is not sufficient reason to assign an AC indicator.

Dual Enrollment

The Mississippi Valley State University Dual Enrollment program is a multifaceted educational outreach program. Our Dual Enrollment program is designed to provide rigorous academic instruction on local high school campuses, in an effort to make courses more accessible. All courses are taught by University faculty members. The cost of the program is covered by the local school district and student fees.

Weekend College at Mississippi Valley State University

Consistent with the University's mission of providing educational opportunities to the Mid-Delta Region, the University established the Weekend College Program to provide education opportunities to people whose responsibilities such as work, family or other life circumstances make full-time study difficult. This program is also for those people who wish to upgrade their job skills. The program is compact, intensive, and accelerated enable students to complete a degree under circumstances which might otherwise be impossible. The length of each session is five weeks, meeting Friday evenings and on Saturdays. Students receive up to nine credit hours taking only Friday and Saturday courses. Students wishing to take a full 12 hours of instruction are advised to register for 3 credit hours through Evening or Online Course.

Dual Admission

Dual Enrollment - Dual Credit

- Mississippi Valley State University allows high school juniors and seniors to enroll in our dual enrollment /dual credit program who meet the following criteria:
- Minimum overall GPA of 3.0 on a 4.0 scale on all high school courses,
- Successful completion of 14 core high school units and/or junior status and
- Written recommendation from school principal or guidance counselor
- Minimum overall GPA of 3.0 on a 4.0 scale on all high school courses,
- Minimum composite ACT score of 30 or the equivalent SAT score and
- Written recommendation from school principal or guidance counselor.

Credit for Military Service

Mississippi Valley State University, through the Office of Distance Education, offers college course credit for military experience and training provided by the armed forces and service schools. The administrative policies and procedures are structured in accordance with governing regulations of the Board of Trustees of State Institutions of Higher Learning and the University. The most current Guide to The Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education, is used to convert military training experiences into college course credit. The goal of this initiative is to assist active military personnel and veterans in their matriculation at Mississippi Valley State University. The objective is to evaluate the military training and experiences of these individuals and recommend their conversion to academic credit. Credit recommendation must be approved by the service member's department chair and dean of the college.

Off-Campus Center

GREENVILLE HIGHER EDUCATION CENTER (GHEC)

The Greenville Higher Education Center is a collaborative effort of three of Mississippi's state-supported higher education institutions: Delta State University, Mississippi Delta Community College, and Mississippi Valley State University. Through the Greenville Higher Education Center, Mississippi Valley State University provides convenient, accessible and flexible educational opportunities that Greenville, Washington County, and the Mississippi Delta need and want. An array of academic course offerings is offered at the GHEC.

The Greenville Higher Education Center consists of more than 88,000 square feet with three floors. It contains 17 regular sized classrooms, one library, two distance learning rooms, two media seminar rooms, one large multi-purpose room, a student lounge, five computer labs, two art classrooms, a nursing lab, an A & P lab, a chemistry lab, a physics lab, two biology labs, and several faculty and staff offices. The Mission of the Greenville Higher Education Center is to:

- Be a facilitator of an environment that is conducive to lifelong learning;
- Be a research and development, service and public relations arm of DSU, MDCC, and MVSU;
- Be a resource and assistance center for community and economic development; and
- Provide computer technological resources, satellite learning facilities, and an auditorium or community room for public use.

NEWSOME, MOSES, Professor of Social Work. B.A., Toledo University; MSW, University of Michigan; Ph.D., University of Wisconsin.

OSBORNE, JR., CASSIE, Professor of Political Science. B.S., Mississippi Valley State University; M.A., University of Toledo; Ph.D., Clark-Atlanta University.

OSBORNE, MAMIE, Assistant Professor of English. B.S., Mississippi Valley State University; M.A., University of Louisville; Ed.D., Jackson State University.

OYUGI, DANIEL A, Assistant Professor of Biology. B.S., Rust College; M.S., Jackson State University; Ph.D., Howard University.

PANDE, MANJU, Chair, Department of Natural Science & Environmental Health and Professor of Biology. B.S., M.S., Patna University; Ph.D., Ranchi University.

PURNELL, DEBORAH, Instructor of English and Foreign Language. B.S., Mississippi Valley State University; M.S., University of Mississippi; MFA, Full Sail University.

RASH, THERESA V., Assistant Professor of Sociology. B.A., M.S., M.Ed., Delta State University.

REDMOND, LEE, Assistant Professor of Mathematics. B.S., Mississippi Valley State University; M.S., Arkansas State University.

RUEBER, MICAH AARON, Associate Professor of History and Coordinator of General Studies. B.A, Carleton College; B.S., University of Oregon; M.A., Iowa State University; Ph.D., Mississippi State University.

ROSS, GLORIA J., Graduate Coordinator and Assistant Professor of Health, Physical Education and Recreation. B.S., M.S., and Ph.D., Jackson State University.

SCHREIBER, PAUL, Associate Professor of Music. B.M., Wayne State University; M.M., D.M.A., Michigan State University.

SHEPHARD, MARY, Assistant Professor of Business Administration. B.S., Alcorn State University, MBA, Delta State University, Ph.D., University of Phoenix.

SPENCER, HATTIE, Associate Professor of Environmental Health. B.S., M.S., Ph.D., Jackson State University.

STEVENS, CANDACE CARTER, Assistant Professor of Mathematics. B.S.E., M.S., Jackson State University., Ph.D. University of Southern Mississippi.

STROMILE GOLDEN, KATHIE, Provost/Executive Vice-President of Academic Affairs, Professor of Political Science. B.A and M.A, Southern University-Baton Rouge; PhD, University of Kentucky.

STRONG, LEMORRIS, Assistant Professor of Applied Technology and Technology Management. B.S., Mississippi Valley State University; M.S., Rochester Institute of Technology.

VIAKRA NELLORE, BHANU PRIVA, Assistant Professor of Chemistry. M.S., Osmania University, Hyderabad, India; Ph.D., Jackson State University.

WANG, YING, Associate Professor of Reading. B.A., Hebei University, P.R. of China; M.Ed., Oklahoma City University; Ph.D., University of Southern Mississippi.

WARDELL, HARVEY, Assistant Professor. Health, Physical Education and Recreation. B.S., Alcorn State University; M.S., Mississippi State University.

WARREN, JIMMIE, Assistant Professor of Business Administration. B.S. University of Arizona; MBA and DM, University of Phoenix.

WILLIAMS, RAYMOND, Professor of Mathematics. B.S., Mississippi Valley State University; M.A., DePauw University; Ph.D., University of Southern Mississippi.

WOODS, LORRAINE. Assistant Professor of Education, B.S., M.S., Ed.S. Ph.D., Jackson State University.

WU, XIAOQIN, Professor of Mathematics. B.S., Central China Normal University, P.R. China; M.S., Xiamen University; PR, China; M.S., Ph.D., Mississippi State University.

YE, JINGLONG, Associate Professor of Mathematics. B.S. and M.S., Xiamen University, P.R. China; PhD, Mississippi State University.

ZHENG, JOHN, Chair, Department of English and Foreign Languages and Professor of English. B.A., Central China Normal University; M.A., MLIS, Ph.D., University of Southern Mississippi.

COURSE DESCRIPTIONS

Course descriptions are listed alphabetically by subject prefix on the following pages.

Each course description begins with a two-letter subject prefix followed by a three-digit course number and course title.

AB	Arabic	MS	Military Science
AC	Accounting	MU	Music
AR	Arts	OA	Office Administration
BA	Business Administration	OM	Organizational Management
BI	Biology	PA	Public Administration
CH	Chemistry	PE	Physical Education
CJ	Criminal Justice	PH	Physics
CN	Chinese	PS	Political Science

FY	First Year	SO	Sociology
GO	Geography	SP	Speech
HI	History	SS	Social Science
HL	Health	SW	Social Work
MA	Mathematics	TH	Theater
MC	Mass Communication		

ARABIC-AB

AB 101. ELEMENTARY ARABIC. A beginning course that develops skills in listening, pronouncing, speaking, reading, and writing the Arabic Language. (3)

AB 102. ELEMENTARY ARABIC. A continuation of Arabic 101. Prerequisite: AB 101 with a grade of “C” or better. (3)

AB 201. INTERMEDIATE ARABIC. Increases skills developed in the preceding courses with emphasis on elementary composition and reading relevant to Arabic. Prerequisite: AB 101 and 102 with a grade of “C” or better. (3)

AB 202. INTERMEDIATE ARABIC. A continuation of Arabic 201. Prerequisite: AB 201 with a grade of “C” or better. (3)

ACCOUNTING-AC

AC 221. FINANCIAL ACCOUNTING. An introduction to generally accepted accounting principles and practices, with particular emphasis on the composition and meaning of financial statements. (3)

AC 222. MANAGERIAL ACCOUNTING. A study of basic managerial accounting concepts and practices with emphasis on the uses of accounting data in the decision-making process. Prerequisite: AC 221. (3)

AC 301. INTERMEDIATE ACCOUNTING I. Discussion of accounting environment, process, concepts and theory. General survey of financial statements. Specific topics covered in more detail include accounting changes, income tax allocation, cash, investments, receivables, inventories, present value concepts, and non-current assets. Prerequisite: AC 222. (3)

AC 302. INTERMEDIATE ACCOUNTING II. Specific topics include current and contingent liabilities, bonds, pensions, leases, earning per share, contributed capital, retained earnings, fund flow analysis, and price-level, and

current value accounting. Prerequisite: AC 301. (3)

AC 325. GOVERNMENTAL ACCOUNTING. A study of the concepts and procedures underlying fund accounting for governmental and other non-profit entities. Also, budgetary control and financial reporting requirements for such entities. Prerequisite: AC 222. (3)

AC 326. ACCOUNTING SYSTEMS. An exploration of the flow of accounting information and resources throughout the entity with respect to management decision-making and control. Hands-on experience with microcomputer accounting software is an integral part of the course. Prerequisites: AC 222 and OA 215. (3)

AC 402. TAX I. Introduction to federal taxation and the basic concepts and application(s) of federal personal tax laws. Prerequisite: AC 221. (3)

AC 403. TAX II. A study of federal taxation and the basic concepts and applications of federal corporate and partnership tax laws. Included is coverage of gift and estate planning. Prerequisite: AC 402. (3)

AC 405. AUDITING THEORY AND PRACTICE. Auditing theory, standards, and procedures associated with the public accounting profession. The topics covered include audit reports, professional ethics, legal responsibilities, audit programs, statistical sampling, design and review of the internal control system, and study of the research bulletins of the AICPA and pronouncements of the SEC and other regulatory agencies. Prerequisite: AC 302. (3)

AC 430. COST ACCOUNTING. The uses of accounting data for: (1) planning and controlling routine operations; (2) non-routine decisions, policy making and long-range planning; and (3) inventory valuation and income determination. Prerequisite: AC 222. (3)

AC 441. ADVANCED ACCOUNTING. Accounting theory related to business combinations, consolidated financial statements, foreign operations, partnerships, and non-business organizations. Prerequisite: AC 302. (3)

AC 451. CPA REVIEW. Topics covered on the CPA Examination. The focus is on the accounting theory, practice, auditing, taxation, and law. Prerequisite: Senior accounting major or consent. (3)

ART-AR

AR 101. ART APPRECIATION. A study of the visual arts through an examination of past and present art forms. Emphasis on the development and understanding of creativity and a personal awareness of aesthetic factors in art and life. Requirement for non-majors. (3)

AR 102. TWO-DIMENSIONAL DESIGN. A study of the fundamental elements of art in reference to their two-dimensional relationships. Emphasis on organization of elements, individual discovery through problem solving, and manipulation of tools and materials to enhance visual awareness. Six lab hours per week. (3)

AR 103. DRAWING I. An introduction to the techniques of drawing, utilizing, and observation of still life and landscape. Emphasis on line, free-hand, perspective and shading through use of graphite, charcoal, and ink. Six lab hours per week. (3)

AR 104. DRAWING II. A continuation of AR 103 (Drawing I) to guide students towards a fine quality in drawing. Emphasis on value, color dynamics, composition, and creative expression through the use of graphite, charcoal, ink, pastel, and mixed media. Six lab hours per week. Prerequisite: AR 103. (3)

AR 105. COLOR FUNDAMENTALS. An in-depth study of the theories and principles of mixing and coordinating colors. Six lab hours per week. (3)

AR 106. THREE-DIMENSIONAL DESIGN. Study of the fundamental elements of art in their three-dimensional relationships. Six lab hours per week. Prerequisite: AR 102. (3)

AR 191-AR 492. ART SEMINAR. Designed for the student to participate in critiques of his/her, and other

students', work and to engage in group discussions about art. Guest lectures and programs presented by the art faculty will also be included. Required each semester of matriculation. (1)

AR 201. INTRODUCTION TO VISUAL COMMUNICATION I. A study of visual perception as a source of graphic ideas. Emphasis on learning techniques of design, layout, and typography, with the use of computers and software programs to produce finished artwork. Six lab hours per week. (3)

AR 202. INTRODUCTION TO VISUAL COMMUNICATION II. A continuation of AR 201. (Visual Communication I). Emphasis on the use of color, line, and tone. Materials prepared for displays, presentations, and publications. Six lab hours per week. Prerequisite: AR 201. (3)

AR 203 PAINTING I. An introductory course in painting, utilizing color and pictorial composition. Emphasis on developing painting skills through observation of nature, learning of techniques, control of media, and perception of space, color, and form. Six lab hours per week. (3)

AR 204. PAINTING II. A continuation of AR 203 (Painting I) to guide students toward a finer quality in painting. Emphasis on a particular medium, good design, and composition. Six lab hours per week. Prerequisite: AR 203. (3)

AR 205. FIGURE DRAWING I. A study of the proportion of the human figure utilizing observation of the live model. Emphasis on contour, gesture, structure, and modeling through the use of graphite, charcoal, and ink. Six lab hours per week. Prerequisite: AR 104. (3)

AR 206. FIGURE DRAWING II. A continuation of AR 205 (Figure Drawing I) to guide students toward finer qualities in drawing of the human figure. Emphasis on composition, color, and stylistic development through the use of graphite, charcoal, ink, and mixed media. Six lab hours per week. Prerequisite: AR 205. (3)

AR 207. TYPOGRAPHY. A study of the formal aspects of letter forms and their use in the visual communication process. Emphasis on applied problems in image-type relationships. Six lab hours per week. (3)

AR 208. CREATIVE PHOTOGRAPHY. A study of the history, optics, physics, and chemistry of photography as a form of creative expression. Emphasis on applied problems dealing with the theory and practice of photographing, developing, copying, and enlarging through use of the camera and processing equipment. Six lab hours per week. (3)

AR 227. HAND-BUILDING CERAMICS. In this course, students will be introduced to basic hand- building techniques and concepts fundamental to sculpture and pottery making in addition to surface decoration and glazing techniques. Students will become familiar with basic ceramic terminology and will be introduced to historical and contemporary ceramics through slides, lectures, and video presentations. (3)

AR 301. VISUAL COMMUNICATION I. An advanced study of the design will be processing from concept to production of completed professional quality art. Emphasis on the use of computers and intermediate software to produce designs, illustrations and photographs for use in brochures, books, magazines and newspapers. Six lab hours per week. Prerequisite: AR 201 and AR 207. (3)

AR 302. VISUAL COMMUNICATION II. A continuation of AR 301 (Visual Communication I), as an advanced study of design, progressing from concept to production of completed professional quality art at an advanced level. Emphasis on the use of computers and advanced software to produce designs, illustrations and photographs for use in brochures, books, displays, magazines, newspapers, packaging, and presentations. Six lab hours per week. Prerequisite: AR 301. (3)

AR 303. VISUAL COMMUNICATION INTERNSHIP. A period of apprenticeship of observation confirmed by arrangement with a department within the University or a business specializing in advertising, graphics, or other related disciplines. (3)

AR 304. PAINTING III. An advanced study of painting. Emphasis on problem solving geared to individual needs and interests, identified by the instructor and the student. Six lab hours per week. Prerequisite: AR 204. (3)

AR 305. PAINTING IV. A continuation of AR 304 (Painting III). Six lab hours per week. Prerequisite: AR 304. (3)

AR 306. INTERACTIVE MULTIMEDIA DESIGN. A study of design and production of interactive multimedia. Emphasis on the use of computers and advanced software to produce designs, and illustrations for web based presentations. The course covers vocabulary terms and computer functions for the Mac. Through class exercises and homework assignments, students develop a working knowledge of one of the major programs of the World Wide Web. Six lab hours per week. Prerequisite AR:201.(3)

AR 307. LARGE FORMAT PHOTOGRAPHY. A study of the optics, physics, and functions of the 4x5 and other format view cameras. Emphasis on applied problems in architecture, landscape, and studio photography, utilizing the large-format cameras and photographic lighting techniques. Six lab hours per week. (3)

AR 310. HISTORY OF ANCIENT AND GRECO-ROMAN ART. A survey of art history including African, Greek and Roman cultures from prehistoric toward 1400 A.D. (3)

AR 311. HISTORY OF RENAISSANCE, BAROQUE, AND ROMANTIC ART. A survey of art history 1400 toward 1600. (3)

AR 312. HISTORY OF 20TH CENTURY ART. An in depth study of the history of art starting with the Realism period of the 1860's and continuing through the contemporary art of the late 20th century. (3)

AR 314. WATERCOLOR PAINTING. An advanced study of painting. Emphasis on exploring watercolor materials and techniques utilizing the opaque and transparent media. Six lab hours per week. Prerequisite: AR 305. (3)

AR 316. INTAGLIO PRINTING. A study of etching, metal engraving, and calligraphy. Emphasis is on edition printing. Six lab hours per week. (3)

AR 317. RELIEF PRINTING. A study of wood block and linoleum block printing. Emphasis on creating edition of prints from paper and fabric. Six lab hours per week. (3)

AR 318. SILKSCREEN. A study of silkscreen printing techniques, utilizing the hand cut, tush, and photographic methods. Emphasis is on creating editions of prints and fabrics. Six lab hours per week. (3)

AR 319. LITHOGRAPHY. A study of stone and metal plate lithography. Emphasis on edition printing. Six lab hours per week. (3)

AR 327. WHEEL THROWING CERAMICS. In this course, students will be introduced to basic wheel throwing techniques and concepts fundamental to pottery making and surface decoration. Students will become familiar with basic ceramic terminology and be introduced to historical and contemporary pottery through slides, lectures, and video presentation. (3)

AR 376. ARTS AND CRAFTS. An introduction to the history and appreciation of crafts. Emphasis on the various crafts, materials and techniques, including wood, textiles, printing, wall-hangings, and macrame. Six lab hours per week. (3)

AR 401. ADVANCED PROBLEMS IN VISUAL COMMUNICATION I. A study of the concepts of mass persuasion applied to the design of advertising campaigns, consumer/trade, and corporate identity. Emphasis is on the use of computers and advanced software to produce designs. Six lab hours per week. Prerequisite: AR 302. (3)

AR 402. ADVANCED PROBLEMS IN VISUAL COMMUNICATION II. A continuation of AR 401.

A study of the concepts of mass persuasion applied to the design of an entire campaign for a single advertising campaign, consumer/trade, and corporate identity, for a single product or a family of products. Emphasis is on the use of computers and advanced software to produce designs. Six lab hours per week. Prerequisite: AR 401. (3)

AR 403. ADVANCED PAINTING I. A study of painting through independent research. Emphasis is on developing alternate solutions for particular problems and evolving one's own work toward personal style. Six lab hours per week. Prerequisite: AR 314. (3)

AR 404. ADVANCED PAINTING II. A continuation of AR 403 (Advanced Painting I). Emphasis is on producing a consistent body of works. Six lab hours per week. Prerequisite: AR 403. (3)

AR 405. ILLUSTRATION. A study of the interpretive role of drawing and photography in reference to the visual communication process. Emphasis is on applied problems dealing with the techniques of translating scientific and technical data into visual forms. Six lab hours per week. (3)

AR 408. SENIOR EXHIBITION. A course for students who are completing all required courses and expect to graduate at the end of the academic year. The course culminates with a written thesis and an exhibition of art works solely from the student's major emphasis and from other art projects of interest. (3)

AR 418. INDEPENDENT STUDY. A course for the student of high competence or advanced standing who chooses to do advanced work in an area of special interest. (3)

AR 427. AFRO-AMERICAN ART. A survey of the visual arts produced in America by artists of African descent from the Colonial to the Contemporary period in art. Emphasis is on the perspectives of the world, major themes, and philosophical influences. Prerequisites: AR 312 or permission of the instructor. (3)

AR 452. METHODS. This course is based on philosophical and practical orientation. Emphasis is on the nature of evaluation, supervision of art in the public schools, and research of topics for discussion. Required for teacher certification. (3)

BUSINESS ADMINISTRATION-BA

BA 203. COMPUTER APPLICATIONS IN BUSINESS I. The course prepares students to work with Microsoft Office 2013 in a career setting or for personal use. Using software that incorporates an accelerated, step-by-step, project based approach, students develop an introductory level competency in Word, Excel, Access and PowerPoint. (3)

BA 204. COMPUTER APPLICATIONS IN BUSINESS II. This course is designed to provide hands-on instruction in computer applications. Respective software includes PowerPoint and database applications. Additionally, students are provided with foundational knowledge needed to excel in fields that involve the Internet and/or a network environment. Legal, ethical and social issues involving the use of the Internet is also included in the course content. (3)

BA 205. BUSINESS STATISTICS. The development of use of statistics in business situations. Measures of central tendency and dispersion, probability, correlation and regression, time series, and other statistical techniques needed to understand current and past behavior for future planning. Emphasis is on application.

BA 211. PRINCIPLES OF ECONOMICS I. The Keynesian approach serves as the basic framework. Alternative approaches such as the classical model are also introduced. Topics included are fiscal and monetary policy, theories of inflation, unemployment, and international economy. (3)

BA 212. PRINCIPLES OF ECONOMICS II. This course is designed to acquaint students with the modeling of economic behavior of individuals and firms. Topics include supply and demand analysis of costs, market structures (perfect and imperfect competition), and price determination. Prerequisite: BA 211 and OA 215. (3)

BA 306. QUANTITATIVE METHODS IN DECISION MAKING. Various quantitative models involving matrix algebra, calculus, and functions are studied. The use of linear programming in business decisions is emphasized. Prerequisites: MA 111 and BA 205. (3)

BA 314. MANAGEMENT. Primary emphasis is on the history of management thought and the functions of management, with particular emphasis on challenges and contemporary issues of management of the 21st century. Prerequisites: BA 211 and BA 212. (3)

BA 315. HUMAN RESOURCE MANAGEMENT. This course presents a systematic approach to the personnel problems of organizations. Current issues and problems are emphasized. The impact of internal and external environments is noted, and a systems orientation that recognizes the interrelationships of personnel function with all other areas of the organization are stressed. Prerequisite: BA 314 or consent of the instructor. (3)

BA 321. PERSONAL FINANCE. Principles and practices of personal finance. Topics include: budgeting, investment, insurance, real estate, taxes, retirement, and estate planning. Emphasis is upon development of comprehensive financial plans and computer simulations in solving personal financial problems. Prerequisite: Junior standing or consent of the instructor. (3)

BA 322. BUSINESS FINANCE. A study of the basic concepts of the financial management of a business. Topics include: ratio analysis, financial planning, time value of money, capital budgeting, cost of capital, sources of financing, working capital management, and international financial management. Prerequisites: AC 222 and BA 205. (3)

BA 331. MONEY & BANKING. This course is designed to study the functions on money, the history of money and banking, commercial and central banking systems, non-bank financial intermediaries, monetary policy and theory, and international monetary systems. Prerequisites: BA 211 and BA 212. (3) **BA 340. ORGANIZATIONAL BEHAVIOR.** Administrative, organizational, and behavioral theories and functions of management contributing to the effective and efficient accomplishment of organizational objectives. Prerequisite: Junior standing or consent of the instructor. (3)

BA 343. PRINCIPLES OF MARKETING. This course is organized around the theme of the marketing concept, which emphasizes that the basic function of marketing is to identify and satisfy consumer needs. It provides insight into a dynamic world involving product, distribution (place), promotion, and price decision for products and service involving profit and non-profit organizations. Prerequisite: Junior standing or consent of the instructor. (3)

BA 351. PRINCIPLES OF REAL ESTATE. Concentrates on developing the students skill and knowledge of the principles of land economics; the laws dealing with property rights, agency, contracts, and real property transfer; the Mississippi Licensing Law; ethical considerations; and basic real-estate mathematics. Prerequisite: Junior standing or consent of the instructor. (3)

BA 352. REAL ESTATE FINANCE. Concentrates on developing the students skill and knowledge in the principles and methods of financing real estate, the source of funds, types and contents of financing instruments, and the role of various institutions as originators, and the secondary mortgage market, both private and governmental. (3)

BA 353. REAL ESTATE VALUATION AND APPRAISAL. Concentrates on developing the students skill and knowledge in the principles and methods of appraising real estate, the theories of valuation, and solving specific appraisal problems. (3)

BA 371. BUSINESS LAW I. Fundamental principles of law most frequently involved in business transactions, including contracts, agency and employment, commercial paper, personal property and bailment, and sales of goods. Prerequisite: Junior standing. (3)

BA 372. BUSINESS LAW II. A continuation of BA 371 with emphasis on partnerships, corporations, real property and leases, insurance, security services, bankruptcy, trusts and estates, and government regulations. Prerequisite: BA 371 or consent of the instructor. (3)

BA 373. BUSINESS ETHICS. Consideration of what is right, proper, and just about the business activities and decisions that affect people. The course focuses on what business relationships are and ought to be with stakeholders. Prerequisite: Junior standing. (3)

BA 374. REAL ESTATE LAW. Concentrates on developing the students' skill and knowledge in the aspect of law and regulation at various levels of government applicable to real estate transactions, types of property interests, transfer instruments, mortgage instruments, recording process, priorities and the role of the real estate agent. (3)

BA 411. ADVANCED IT in BUSINESS. This course is a study of the use of advanced information technology applications, their integration and application to managerial decision making to increase business efficiency and productivity. (3)

BA 421. INTERNATIONAL BUSINESS. This course introduces students to the world of international business and management by studying cultural influences, government, and business structures in our global economy. Students also learn the three environments, namely: domestic, foreign, and international. Also covered are external and internal forces that will facilitate the growth and development of business firms. Prerequisites: BA 211 and BA 212. (3)

BA 423. INVESTMENTS. This course is a study of fundamental concepts and theories that form the basis of investment analysis and portfolio management. Topics include valuation of financial instruments, risk-return analysis, and optimal-portfolio selection in efficient financial markets. The course focuses on stocks and bonds with a shorter treatment of financial derivatives (options, futures, and swaps).

Prerequisites: BA 205 and BA 322. (3)

BA 424. ADVANCED FINANCIAL MANAGEMENT. This course provides a framework for the analysis of the investment and financing decisions of the firm and an understanding of how to apply finance theory to practical situations. Prerequisites: BA 205 and BA 322. (3)

BA 425. DERIVATIVES AND FINANCIAL RISK MANAGEMENT. The primary objective of this course is to provide students with a working knowledge of the markets for derivative instruments. The course will cover the following: the nature of financial derivatives, such as forwards, futures, options, swaps; how the values of these instruments are determined; the micro-structure of markets for these instruments; and, how derivatives are specifically used by business executives and investment professionals for risk management. Prerequisites: BA 205, BA 322, and BA 424. (3)

BA 426. CONTEMPORARY DEVELOPMENTS IN FINANCIAL MARKETS. This course is designed to help students understand how financial markets have been shaped and regulated vulnerable to destructive money seeking activities. Topics and materials covered in this course shed light on how improperly working financial market have the potential for triggering world-wide financial crisis. Lectures and discussions will reveal the kind of changes needed to continue to sweep through financial markets in the future. (3)

BA 434. ADVANCED INCOME APPRAISAL. Concentrates on developing the students skill and knowledge in the area of advanced income appraisal, the techniques of capitalization, and complex appraisal problems. Prerequisite: BA 353. (3)

BA 445. CONSUMER BEHAVIOR. An interdisciplinary approach to the analysis and interpretation of consumer habits, motives, and the resultant purchase of goods, services, and ideas. The purchaser's psychological, economical, and socio-cultural actions and reactions are stressed as they relate to improve understanding of consumption. Prerequisite: BA 343. (3)

BA 446. RETAIL MANAGEMENT. Survey of the nature, processes, practices, and results of trade at the retail level. Prerequisite: BA 343. (3)

BA 447. MARKETING RESEARCH. This course attempts to serve both the manager and researcher through its

basic organization around the stages of the research process. Parts of the course parallel these specific stages: formulate the problem, determine the research design, design the data collection method and forms, design the sample and collect the data, analyze and interpret the data, and prepare the research report. Prerequisites: BA 205, BA 343, and Junior standing. (3)

BA 448. MARKETING MANAGEMENT. Marketing from managerial viewpoints: critical analysis of functions of marketing opportunity assessment, marketing planning and programming, marketing leadership and organization, evaluating and adjusting marketing effort. Prerequisites: BA 314, BA 343, and Junior standing. (3)

BA 451. STRATEGIC MANAGEMENT. This course is the capstone course for all business majors. The course will integrate the many facets of the Business curriculum. The focus is on strategic management. Prerequisite: Senior standing. (3)

BA 460. INTERNET AND COMPUTING CORE CERTIFICATE. This course is designed for students who want to demonstrate critical computer and internet skills valued in today's academic and professional environments. Emphasis is placed on advanced skills needed to pass IC3 Core Certification (Computing Fundamentals, Key Applications and Living Online Exams). (3).

BA 470. ENTREPRENEURSHIP. Emphasis is placed on the necessary steps to start, acquire, or expand an existing business. Also, the principles and practices applicable to operations of small business are emphasized. Prerequisite: BA 314. (3)

BA 492. BUSINESS ADMINISTRATION SEMINAR. To acquaint seniors with graduation requirements, orientate to graduate school, and provide a focus on careers in business. (1)

BA 495. SPECIAL TOPICS IN BUSINESS. Business is a rapidly changing discipline. The focus of this course is coverage of various contemporary topics. Topics may vary across semesters but, students will gain exposure to prevailing contemporary issues and problems in the business administration field. The course also focuses on enhancing students' oral and written communication skills with emphasis on producing a quality resume or application for graduate work, interviewing skills, personal finance and career planning. (3)

BA 499 BUSINESS ADMINISTRATION INTERNSHIP. The purpose of this course is to provide a capstone experience designed to assist the students in making the transition from the classroom to a career under actual workplace conditions. An internship represents an opportunity for qualified students to enhance university training through exposure to practice situations and managerial decision. Students are placed in an actual job situation on or off campus. (3)

BIOLOGY-BI

BI 111. GENERAL BIOLOGY I (ZOOLOGY). The fundamentals of animal life, with an emphasis on anatomy, physiology, behavior, evolution and genetics with special reference to animal contributions to ecosystems and to humans. Live animals, handled in compliance with rules of the institutional Animal Care and Use Committee, are used in the classroom and laboratory for instruction and to demonstrate ethical and appropriate care of living animals used for instructional purposes. (4)

BI 112. GENERAL BIOLOGY II (BOTANY). An introduction to diversity of plants from the simplest to the most complex. Study of plant classification, life cycles, structure functions, non-vascular embryophytes, seedless vascular plants, and the spermatophytes. Salient features of each division with regard to cellular organization, anatomy, relations of structures to functions, development, genetics, and evolution and their role in ecosystems are also introduced. (4)

BI 191-92. SEMINAR. Discussion of relevant research, scientific papers, and current events in biology and related natural science disciplines. Interrelatedness of the disciplines of natural sciences is emphasized through joint meetings of Natural Sciences and Environmental Health at the same level (freshman biology-chemistry environmental health seminars, for example). Relevance and significance of the understanding of the natural principles in proper context and handling of personal and societal issues are a major focus of the discussions. Group

and individual academic advisement sessions are arranged at appropriate times. (1)

BI 291-92. SEMINAR. Discussion of relevant research, scientific papers, and current events in biology and related natural science disciplines. Interrelatedness of the disciplines of natural sciences is emphasized through joint meetings of Natural Sciences and Environmental Health at the same level (freshman biology-chemistry environmental health seminars, for example). Relevance and significance of the understanding of the natural principles in proper context and handling of personal and societal issues are a major focus of the discussions. Group and individual academic advisement sessions are arranged at appropriate times. (1)

BI 301 ANATOMY. A course in human anatomy including cell structure, organs, and organ systems and their relationship to the functions of the body. Prerequisites: BI 111. (4)

BI 302. PHYSIOLOGY. A course in human physiology including cell structure, body chemistry, organs, and organ systems and their relationship to the functions of the body. Prerequisites: BI 111. (4)

BI 311. GENETICS. An introduction to genetic principles in relation to the mechanisms of inheritance. Role of genetics in the development of biotechnology and human welfare is analyzed. Prerequisites: BI 111 and B 112. (4)

BI 312. MICROBIOLOGY. The study of the near omnipresence of generally unseen or unnoticed microbes, with the heaviest emphasis on bacteria with respect to their morphology, structure, nutrition, physiology, culture, and classification. The role of microorganisms in their native habitats, especially in the health and disease of humans, domestic animals, and crop plants is also studied. Prerequisites: BI 111- 112; CH 301-302. (4)

BI 323. EMBRYOLOGY. The study of the origin and development of multi cellular organisms across the evolutionary spectrum, but with special focus on vertebrates, and how the ontogenetic development sheds light on phylogenetic lineage. Prerequisites: BI 111-112. (4)

BI 331. COMPARATIVE ANATOMY. The morphology, anatomy, and classification of chordates with special emphasis on mammals. Prerequisites: BI 111; 301-302. (4)

BI 355. RESEARCH METHODOLOGY FOR SCIENTISTS. The study and practice of scientific writing on topics of biological interest. Exemplary abstracts, reports, articles, and reviews will be examined and used as guides for preparing manuscripts on assigned topics using productivity tools such as word-processing, spreadsheet, database management, data reduction, presentation, and analysis software. Prerequisites: BI 111-112, CH 111-112. Recommended. (3)

BI 370. EVOLUTION. The study of the development of the evolutionary theory from pre-Darwin to the present time and the current status of the theory of evolution. Origin of life and the causes of biological diversity, as well as the relationship of humans to other biota, will be discussed. Prerequisites: BI 111- 112. (3)

BI 391-92. SEMINAR. Discussion of relevant research, scientific papers, and current events in biology and related natural science disciplines. Interrelatedness of the disciplines of natural sciences is emphasized through joint meetings of Natural Sciences and Environmental Health at the same level (freshman biology-chemistry environmental health seminars, for example). Relevance and significance of the understanding of the natural principles in proper context and handling of personal and societal issues are a major focus of the discussions. Group and individual academic advisement sessions are arranged at appropriate times. (1)

BI 401 INVERTEBRATE ZOOLOGY. The study of animals without backbones, their evolution, structure, physiology and development, and their relationship to ecosystems and humans. Economic importance of invertebrate parasites and pests will be examined in depth. Prerequisite: BI 111. (4)

BI 402. PLANT ANATOMY. The study of plant cell structure & function, water relations, nutrition, metabolism, pigments and photosynthesis, plant hormones, and translocation transpiration, verbalization, and dormancy. Prerequisites: BI 111-112. (4)

BI 403. PLANT PHYSIOLOGY. A study of mineral nutrition, water relations, plant growth hormones, metabolism, and development of higher plants. Prerequisites: BI 111-112. (4)

BI 408. ENTOMOLOGY. The study of morphology, physiology, ecology, taxonomy of insects, including the health and economic impact and control of insects. Prerequisite: BI 111. (4)

BI 410. CELL BIOLOGY. Microscopic and ultramicroscopic details of cells of prokaryotic and eukaryotic organisms. The role of cells in the overall organization, metabolism, functions and genetics of living organisms in healthy and diseased states. Prerequisites: BI 111-112. (4)

BI 411. ECOLOGY. Study of the major biomes of the world with emphasis on the relationship between the living and non-living components of ecosystems. The significance of biodiversity in relation to fundamental ecological principles is critically examined. Prerequisites: BI 111-112. (4)

BI 421. VERTEBRATE HISTOLOGY. Study of the microscopic structure of tissues and organs of vertebrate animals. Prerequisites: BI 111, 301, and 302. (4)

BI 422. IMMUNOLOGY. The study of mammalian immunity of disease agents. The response of cells, tissues, and body of antigens is discussed. Prerequisites: BI 111-112. (4)

BI 430. AQUATIC ECOLOGY. Introduces students to the study of aquatic environments. The emphasis of this course is examination of the life forms and environmental variables that comprise aquatic ecosystems. Ecological concepts, water chemistry, water flow, and the variety of aquatic life will be studied. Prerequisites: BI 111-112. (4)

BI 431. AQUATIC BIOLOGY. Builds on the ecological concepts presented in Aquatic Ecology by focusing on how those parameters affect fish. The orientation of this course is towards fish biology, fish physiology, and interactions between fish and their environment. Prerequisites: BI 111-112. (4)

BI 455. SENIOR PROJECT. Written and oral report and defense of laboratory or field based investigation or of a literature review on a topic of biological interest, developed and prepared under the supervision of a faculty member as the mentor, and approved by two additional faculty readers.

Substantial progress on the selected topic is expected prior to permission to register for credit toward the project work. Students in the biology education program preparing to teach in secondary schools must choose a laboratory or field-based investigation as the senior project. Prerequisite: Junior standing. (3)

BI 470. PARASITOLOGY. The study of the parasites of human, domestic, and wild animals. The study focuses on micro-anatomy, reproduction, relations with the host organisms, role as vectors of disease causing microbes, life cycles, and control of representative parasites. Prerequisites: BI 111, BI 301 and BI 302. (4)

BI 495. INDEPENDENT STUDY. Independent study of a topic of student's interest in the biological sciences under the supervision of a faculty member. Topic and details of the progress expected are determined prior to registration. Prerequisite: Junior standing. (3)

CHEMISTRY-CH

CH 111. GENERAL CHEMISTRY 1. Introduction to the fundamental concepts and basic principles of chemistry. Atomic structure, chemical bonding, periodic table, stoichiometry, chemical formulas and equations, states of matter, nomenclature, valence, oxidation number, thermochemistry, solutions, reaction rates, chemical equilibrium, oxygen, hydrogen, halogens, and elements of group I and II are discussed in this introductory course. The role of chemistry in understanding other natural science disciplines and human societal issues is emphasized. Prerequisites: High school chemistry and algebra courses. (4)

CH 112. GENERAL CHEMISTRY. Oxidation-reduction, thermodynamics, electrochemistry, nitrogen and the atmosphere, elements of groups III, IV, and V-A, carbon and its oxides, silicon, colloids, alkali and alkali earth metals, transition elements, and introduction to organic chemistry and qualitative analysis. Prerequisite: CH 111. (4)

CH 191-491 & 192-492. SEMINAR. Discussion of contemporary developments in chemistry initiated by special panels, symposia, lectures, and reports. Interconnectedness of the disciplines is emphasized through joint meetings of related discipline seminars at the same level (ex.: freshman biology-chemistry and environmental health seminar). Relevance and significance of natural principles in understanding and handling of the personal and societal issues is a major focus of the discussions. Group and individual academic advisement sessions are arranged at appropriate times. (1) each semester.

CH 300. ENVIRONMENTAL CHEMISTRY. Chemical parameters of environmental pollution and the methods for remediation of chemical pollutants of air, water, and land. Hazardous waste disposal, consistent with safety and environmental protection, is emphasized. Prerequisites: CH 111-112. (4)

CH 301. ORGANIC CHEMISTRY I. Structure and bonding of carbon compounds, aliphatic hydrocarbons, alkyl halides, alcohols, ethers, aldehydes and ketones, carboxylic acids and their derivatives, aromatic hydrocarbons, and stereochemistry of carbon compounds are discussed. Prerequisites: CH 111-112. (4)

CH 302. ORGANIC CHEMISTRY II. Amines, phenols, heterocyclic compounds, amino acids and proteins, sugars and complex carbohydrates, lipids and fatty materials, nucleic acids, vitamins, cofactors, and hormones of living systems are introduced. Introduction to the principles and applications of ultraviolet, visible, and infra-red spectroscopy and application of other techniques such as nuclear

magnetic resonance and mass spectroscopy to organic chemistry are also covered. Prerequisite: CH 301. (4)

CH 311. ANALYTICAL CHEMISTRY. Principles and practices of modern qualitative and quantitative analyses using titrimetry, oxidation-reduction equilibria, and gravimetry are explored. Prerequisite: CH 112. (3)

CH 312. ADVANCED ANALYTICAL CHEMISTRY. Principles, methods, and applications of potentiometry, voltammetry, conductometry, gel electrophoresis, spectroscopic and chromatographic techniques are discussed. Prerequisite: CH 302, 311. (3)

CH 320. INTRODUCTORY BIOCHEMISTRY. The properties of amino acids, proteins, carbohydrates, lipids, and nucleic acids. The study of enzymes and major biochemical pathways is also conducted. Prerequisite: CH 302. (4)

CH 401. BIOCHEMISTRY. Structure of proteins and nucleic acids. Enzyme specificity and mechanism of enzyme action. Vitamins and other coenzymes and cofactors for different enzymes and reaction mechanisms of steps in the metabolic pathways. The biochemical basis of digestion, assimilation, nutrition, biosynthesis, secretion, and excretion processes in living systems. Prerequisite: CH 320. (4)

CH 411. PHYSICAL CHEMISTRY I. This course covers ideal and real gases, kinetic molecular theory of gases, solutions, thermo-chemistry, laws of thermodynamics, and phase equilibria; introduction to phase equilibria, symmetry; group theory; chemical kinetics and electrochemistry. Prerequisites: CH 302, 311; MA 300. (4)

CH 412. PHYSICAL CHEMISTRY II. An introduction to quantum mechanics, atomic and molecular structure, symmetry and group theory, x-ray crystallography, atomic and molecular spectroscopy, and photochemistry. Prerequisite: CH 411. (3)

CH 415. CHEMICAL INSTRUMENTATION. A study of the principles, operations, and applications of major instruments in modern chemistry. Methods of data output, data reduction, and data analysis, gas- and liquid-chromatography, electrophoresis, ultraviolet-visible and infra-red spectroscopy, mass spectrometry, and photochemistry. Prerequisite: CH 411. (3)

CH 421. INORGANIC CHEMISTRY. A study of the principles and theories of modern inorganic chemistry, atomic and molecular structure, chemical bonds, chemistry of elements and their compounds, symmetry and group theory, coordination chemistry, and organometallic chemistry. Prerequisites: CH 112 and 311. (4)

CH 424. RADIATION CHEMISTRY. This course explores the interaction of radiation with matter, dosimetry, radiation effects in gas, liquids, and solids, radioactive decays, photochemical reactions, and tracer techniques for elucidation of biochemical pathways. Prerequisites: PH 212 and CH 421. (3)

CH 430. ORGANIC REACTION MECHANISMS. Theoretical and mechanistic aspects of organic chemistry, concepts of acids and bases in organic chemistry, substitution, elimination, and addition reactions mechanisms of rearrangement reactions, name reactions in inorganic chemistry, orbital symmetry and pericyclic reactions. Prerequisites: CH 302, 412. (3)

CH 440 POLYMER CHEMISTRY. The study of organic and inorganic chemical reactions leading to high polymers. Physical properties and physical behaviors of polymers, copolymerization, cross-linking of polymers, polymer processing and uses are also studied. Prerequisite: CH 411.

CH 449. CHEMICAL BIBLIOGRAPHY. Instruction in the use of chemical abstracts, journals, reference books, and other sources of chemical literature for information retrieval on selected chemicals and chemical topics. Prerequisite: CH 112. (2)

CH 455. SENIOR PROJECT. A special laboratory investigation under the direction of chemistry instructor. The project requires a detailed literature review and a written research report. Prerequisites: Instructor's approval, CH 111, CH 112. (3)

CH 490. INDEPENDENT STUDY. Written and oral report of literature search and laboratory investigation of assigned research topic under the supervision of a chemistry faculty member. Prerequisites: Junior standing and instructor's permission. (3)

CRIMINAL JUSTICE-CJ

CJ 281. INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM. An introductory course designed to familiarize students with the workings of the various subsystems of the criminal justice system and how they interact: Law Enforcement, Courts, and Corrections. (3)

CJ 382. CRIMINOLOGY. An introductory course designed to introduce students to the etiology of crime and its context. An extensive review of past and present criminological theories, including a survey of crime prevention and control strategies are also undertaken. (3)

CJ 383. CRIMINAL LAW. An introductory course designed to familiarize students with substantive criminal law. The scope and sources of criminal law, essential elements of a crime, criminal liability, criminal responsibility and capacity to commit a crime, defenses, criminal punishment, and criminal jurisdiction are some to the topics covered in the course. (3)

CJ 384. LAW ENFORCEMENT SYSTEMS AND PRACTICES. This course is a comprehensive review of law enforcement systems and practices. An exploration of the history of law enforcement and the discussions of recruiting procedures, training, operational functions such as patrols, investigations, and strategies for controlling police corruption and brutality are undertaken. A review of law enforcement issues and practices are also carried out in the course. (3)

CJ 385. COURT SYSTEMS AND PRACTICES. This course is an extensive review of the federal and state court systems. A review of the history, evolution and staffing of the court system is undertaken. The procedures for the appointment of justices and judges, and the actual operations and practices of the courts will be extensively examined. Other relevant court issues, such as plea bargaining, sentence disparities, and the future of the courts, will also be examined. (3)

CJ 386. CORRECTIONAL SYSTEMS AND PRACTICES. This course is a comprehensive survey of the history and evolution of the correctional systems and practices such as security and control in prisons, treatment in prisons, classification systems, prison industries, prison congestion and remedies, the pros and cons of private prisons. An extensive examination of community based corrections, including probation and parole are also carried out. (3)

CJ 387. JUVENILE JUSTICE SYSTEMS AND PRACTICES. This course is a comprehensive survey of all facets of the juvenile justice systems, policies and practices. The history and the development of the juvenile justice system, policies and practices are also reviewed. The course examines theories of delinquency, and reviews juvenile courts, prosecutions, juvenile rights and corrections. (3)

CJ 388. PRIVATE AND INDUSTRIAL SECURITY SYSTEMS AND PRACTICES. This course extensively surveys the history of private and industrial security. The recruitment, training, operational and administrative practices are extensively reviewed, including the physical security systems. The future of private and industrial security is also covered in the course. (3)

CJ 389. CRIMINAL INVESTIGATIONS. An extensive examination of the investigation process to include: historical origins of criminal investigation, the investigative method, note taking and reporting, crime scene focus, interviewing, the sources of information, special investigation, investigation in court, and the future of criminal investigation. (3)

CJ 390. INTRODUCTION TO STATISTICS FOR CRIMINAL JUSTICE. A basic course in statistics designed to introduce students to statistical concepts as well as descriptive and inferential statistics.

CJ 391. INTRODUCTION TO CYBERCRIME. This course is a comprehensive examination of crimes committed with the use of computers and strategies for preventing, controlling, and investigating such crimes. (3)

CJ 392. INTRODUCTION TO FORENSIC SCIENCE. This course is a comprehensive introduction to Forensic Science practices as they apply to criminal investigations. Students are introduced to the application of scientific methods for the examination of physical evidence in the criminal justice system; including an overview of the forensic analysis of firearms, fingerprints, drugs, blood, hair, fibers, etc. (3)

CJ 393. CRIMINAL PROCEDURE. This course extensively reviews the American criminal procedure. An examination of the courts and the criminal justice system procedures are undertaken. The course also covers the exclusionary rule and probable cause; arrest, searches and seizures; identification and interrogation; constitutional rights and rules during trial; and legal liabilities of law enforcement offices. (3)

CJ 394. TERRORISM AND HOMELAND SECURITY. This course is a survey of the history of national and international terrorism, and homeland security. Motives of terrorists, operational strategies and control strategies are examined. (3)

CJ 395. AVIATION AND AIRPORT SECURITY. This course is an extensive examination of Aviation and Airport Security Systems and Practices, with special attention on how to prevent terrorist activities. (3)

CJ 480. ADMINISTRATION AND MANAGEMENT OF CRIMINAL JUSTICE ORGANIZATION. This course is designed to provide an overview of a broad set of concepts, research, and practices surrounding management and administration of criminal justice. This course also offers a system-wide perspective that considers how management issues run through the entire criminal justice system. (3)

CJ 481. COMPARATIVE CRIMINAL JUSTICE. This course covers some of the major international criminal justice systems. A review of the different types of government, and their criminal justice systems focusing on police, judiciary, law, corrections and juvenile justice are undertaken. (3)

CJ 482. POLICE ORGANIZATION AND MANAGEMENT. This course is a comprehensive survey of police organization and management skills. This course covers the development and management theories, organization and structure, behavior, motivation and job design, including leadership theory and practice of police organizations. The future of police organizations and management is also explored. (3)

CJ 483. ORGANIZED CRIME. This course is a comprehensive survey of the past and present theories of organized crime. Topics covered include: history of organized crime, the business of organized crime, organized crime in labor and drugs, law and law enforcement response to organized crime, organized crime committees, commissions, and polices. (3)

CJ486. CORRECTIONAL COUNSELING. This course introduces students to counseling within the correctional institution, with emphasis on how to counsel, treat and intervene with various offenders. The course covers offender assessment, classification, and appropriate intervention methods, and explores various treatment models including social learning, cognitive and family therapies in offender rehabilitation. (3)

CJ 487. VICTIMOLOGY. This course is a comprehensive study of the victims of crime, including their characteristics per crime and their relationship with the perpetrators. Compensation programs and victimization studies will be covered. Other victim related contemporary issues will also be examined. (3)

CJ 488. RESEARCH METHODS. This course is an introductory course on research methods in criminal justice. Experiments, surveys, field research, unobtrusive research evaluation, and analysis are examined. (3)

CJ 490. ETHICS AND CAREER. A detailed discussion of ethics and career in criminal justice, including strategies for job search. (3)

CJ 493. CRIMINAL JUSTICE INTERNSHIP. An internship course designed to familiarize students with the practical workings of a selected agency of the criminal justice system. The internship consists of a tour of duty in any criminal justice agency. Internship may be substituted with regular courses if a student, after genuine efforts, is unable to secure a placement, with the approval of the department chair. A total of 240 hours is required for the internship program. (6)

CJ 494. READING AND INDEPENDENT STUDIES IN CRIMINAL JUSTICE. This course is designed for students who are advanced in the criminal justice program. Students taking the course must be capable of conducting independent studies. Upon approval by the department chair, students may register for the course. (3)

CHINESE-CN

CN 101. ELEMENTARY CHINESE. A beginning course that develops skills in listening, pronouncing, speaking, reading, and writing the Chinese language. (3)

CN 102. ELEMENTARY CHINESE. A continuation of Chinese 101. Prerequisite: CN 101 with a grade of “C” or better. (3)

CN 201. INTERMEDIATE CHINESE. Increases skills developed in the preceding courses with emphasis on elementary composition and reading relevant to Chinese. Prerequisite: CN 101 and 102 with a grade of “C” or better. (3)

CN 202. INTERMEDIATE CHINESE. A continuation of Chinese 201. Prerequisite: CN 201 with a grade of “C” or better. (3)

COMPUTER SCIENCE-CS

CS 111. INTRODUCTION TO DATA PROCESSING. Introduction to computer hardware, software, the Internet and World Wide Web. Provides students with an in depth understanding of why computers are essential tools in information processing, education, research, business and society in general. Use of

the e-mail and World Wide Web as an integrated learning tool. Use of basic application software tools: word processing, spreadsheet and database. (3)

CS 112. SURVEY OF COMPUTER SCIENCE. Introduction to computer science as a discipline, including theory of computation, programming languages and their structure, computer architecture, operating systems and networks, and social, ethical, and professional issues; use of application software (word processing, spreadsheets, database, etc.) and Internet; introduction to programming in a modern object-oriented programming language. Prerequisite: Computer Science, Mathematics or Mathematics Education major or faculty approval. (3)

CS 191-CS 192. COMPUTER SEMINAR. Required for freshmen computer science majors-both seminars of the freshman year. Introduction to the field of Computer Science, methods of note taking, group advisement, problem sessions, and presentations made by faculty, guest speakers or students. Prerequisite: Freshman Computer Science major. (1)

CS 203. COMPUTER PROGRAMMING I. This course is an introduction to basic concepts of computer science, with emphasis on object-oriented programming. Fundamental techniques for software design and implementation will be covered and these concepts demonstrated in a programming languages such as C++. Additional topics include top-down modular design, developing general purpose software tools, procedural and data abstraction and algorithms. Prerequisite: CS 112. (3)

CS 204. COMPUTER PROGRAMMING II. This course will further develop and expands the topics introduced in CS 203. Advanced object-oriented programming techniques will be covered. This course will also introduce topics in pointers, arrays, file processing, sorting and search algorithms and string manipulation. All programs will be implemented on the UNIX operating system. Prerequisite: CS 203. (3)

CS 205. DATA STRUCTURES. Students program structures such as lists, trees, graphs, queues, stacks and sorting techniques in a UNIX operating system environment. Prerequisite: CS 204. (3)

CS 221. JAVA PROGRAMMING. An introduction to a second programming language for computer science majors. Students learn to read and write programs in modern object oriented programming language, and to design and implement event-driven, Graphical User Interface programs. The programming language that is popular and most widely used is chosen; current language is Java. Prerequisite: CS 203. (3)

CS 231. VISUAL BASIC PROGRAMMING. Introduction to computer programming and information processing principles using the Visual Basic language. Application development, user interface design, program development methodology, structured and objective oriented programming and Visual Basic software development system. Prerequisite: CS 203. (3)

CS 275. INTERNSHIP. Internships that provide students with real-life work-related experiences in the field of computer science and mathematics are a valuable part of an undergraduate education. Students choosing this option may choose to satisfy requirements for computer science credits by completing a research internship in a qualifying position. Prerequisite(s) Computer Science major. (3)

CS 304. RPG IV. RPG IV contains a variety of business and commercial applications and may be used in accounting or business administration functions. Students will understand the foundation of RPG IV, including its structure, specifications, and operation codes. Students will also program embedded and external sub procedures and other advanced techniques of the language. Prerequisite: CS 204. (3)

CS 309. COBOL PROGRAMMING. Study and use of the COBOL languages, typical uses in business and industry. Prerequisite: CS 203. (3)

CS 321. COMPUTER ARCHITECTURE. Introduction to the internal logical structure of computers and the techniques of machine level programming; architectures and functioning of micro/conventional computer systems. Prerequisite: CS 204. (3)

CS 323 INTRODUCTION TO ALGORITHMS. Study of the design and analysis of algorithms and data structures. The topics include analysis techniques, sorting, searching, advanced data structures, graphs, and string matching. Prerequisite: CS 205. (3)

CS 341. DISCRETE STRUCTURES. Elementary logic sets, relations, functions, ordering, equivalence relations, partitions, finite sets, module arithmetic; natural number, mathematical induction, arithmetic string, string programs, structured connectedness, traversals, and graph algorithms. Prerequisite: CS 204. (3)

CS 350. PRINCIPLES OF PROGRAMMING LANGUAGE. A survey of programming language concepts and design principles of programming paradigms (procedural, functional, and logic). Topics include a history of programming languages, data type supported, control structures, and run-time management dynamic structures. Prerequisite: CS 205. (3)

CS 351. DATABASE MANAGEMENT SYSTEM. This course examines the logical organization of databases; the hierarchical, network and primarily relational data models and their languages. Functional dependencies, normal forms, issues of database planning, design and implementation; examination of some commercially available database management systems. Prerequisite: CS 204. (3)

CS 361. INFORMATION SYSTEMS. This course examines the basics of information systems. These topics include information models and systems, data modeling, relational database, and data mining. Prerequisite: CS 204. (3)

CS 371. OPERATING SYSTEMS. The course is designed to convey a thorough understanding of the system software that manages all the resources of a computer system. Principles of memory, process, device, and file management will be covered. Also, several case studies of operating systems will be used with special emphasis on the UNIX operating system. Prerequisite: CS 205 and CS 321. (3)

CS 377. INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS. Introduces students to spatial analysis techniques and issues, provides hands-on training in the use of these tools, and enables them to solve a variety of spatial and temporal problems. Emphasis will be placed on the nature of spatial information, spatial data models and structured, data input, manipulation and storage, spatial analytic and modeling techniques, and error analysis. Prerequisite: Consent of instructor. (3)

CS 381. ARTIFICIAL INTELLIGENCE (AI). Introduce students to the history of Artificial Intelligence (AI). This course will teach some fundamental concepts and techniques in AI such as search algorithms including the use of heuristics, knowledge representation and reasoning, intelligent agents, machine learning, neural networks, and planning. Prerequisites: CS 341. (3)

CS 403. MICROCOMPUTER APPLICATIONS. Microcomputer applications for office administration, education, and business majors. Involves learning to use operating system, word processor, spread sheet, and database management software. Prerequisite: CS 111 or Departmental Approval. (3)

CS 422. INTRODUCTION TO NETWORKING. This course covers issues of computer communications and networks. This course is organized around the TCP/ IP reference model and Open Systems Interface model. The main topics include principles of data communications, local-area and wide-area networks, network design essentials, media, communication, protocols, architectures, and operation systems and Internet-based applications. Prerequisite: CS 371 and CS 321. (3)

CS 423. INTRODUCTION TO CYBER SECURITY. An introductory course on cyber security, which include topics, such as but not limited to: cyber threats, fundamentals of security design principles, information assurance fundamentals and introduction to cyber security. Prerequisites: CS 371. (3)

CS 425. SOFTWARE ENGINEERING. Introduction to software engineering with emphasis on practical techniques for object-oriented analysis and design. Classical and modern principles and practice of software engineering, including object-oriented approaches to architecture, design, life cycle, and project management; software metrics; change management; teams and teaming to tools; reusability, portability, and interoperability; requirement and specification. Course exposes students to the methods of developing large software systems in an industrial environment. Working in teams, students will design, implement, and test large objects. Prerequisite: CS 351. (3)

CS 431. NUMERICAL ANALYSIS I. Computational methods of finding numerical solutions to nonlinear equations, computations of interpolating polynomial numerical integration, and ordinary differential equations. Prerequisites: CS 205 and MA 331. (3)

CS 441. LANGUAGES AND COMPILERS. Generalized language features, Backus-Naur form, functional characteristics of various languages, and semantic requirements of problem-solving tasks. Prerequisite: CS 350. (3)

CS 451. INFORMATION STORAGE AND RETRIEVAL. This course focuses on the art and science of searching for information. The course examines systems for storage and retrieval of information in textual and other formats. The topics include query processing, matching and ranking algorithms, text analysis, user interfaces, and evaluation of retrieval effectiveness. Prerequisite: CS 351 (3)

CS 453. NETWORK DEFENSE. This course has a focus on network defense. The topics that will be covered in this course include Cyber Security, Information Technology system components, Systems administration and network defense. Prerequisites: CS 422 and CS 423. (3)

CS 455. SENIOR PROJECT IN COMPUTER SCIENCE I. A comprehensive computer project with considerable detail to be completed under the supervision of a faculty member. Topics to be decided in consultation with a faculty member. Prerequisite: CS 425. (3)

CS 491-CS 492. COMPUTER SEMINAR. Required for each senior computer science major each semester of the senior year. Presentation of topics in research, new developments, new systems, etc. Presentations may be made by faculty, guest speakers or students. Prerequisite: Senior in computer science. (1)

EARLY CHILDHOOD-EC

EC 106. DEVELOPMENTAL PERSPECTIVE OF FAMILY. The major focus of this course is to understand this unique world of the family as we examine a different set of concepts, such as generational alliances, differentiation of self, emotional triangles, developmental tasks analog messages, boundaries, emotional distance, family paradigms, and experiential aspects of mothering. (3)

EC 200. ORGANIZATION THEORY AND PRACTICES. Theory and practices related to organizational structures will be the focus of this course. (3)

EC 205. NUTRITION FOR THE YOUNG CHILD. Nutrition information related to both growth and development and also normal and abnormal conditions in infancy and childhood will be the focus of this course. Methods and criteria for recognizing nutrient needs of young children, food patterns, current issues related to the development of food patterns for young children and behavior modification will also be examined. (3)

EC 302. HUMAN GROWTH AND DEVELOPMENT. This course is designed to acquaint students in Early Childhood Education with the process and dynamics of human growth and development from birth through the life cycle in the context of family and culture. Emphasis will be on Growth and Development from birth through age 10 (middle childhood). (3)

EC305. ASSESSMENT, DATA ANALYSIS AND EVALUATION IN EARLY CHILDHOOD

EDUCATION. This course will provide candidates with the assessment tools necessary to enhance learning for diverse student populations. The course will address ways to assess higher order cognitive objectives and authentic tasks to improve instruction. Candidates will participate in activities that will enhance understanding of assessment task development, analysis, and interpretation of results. (3)

EC 308. LANGUAGE DEVELOPMENT IN EARLY CHILDHOOD. Provides foundations and strategies for facilitating language development in infants, toddlers, and young children. (3)

EC 309. CULTURAL DIVERSITY IN EARLY CHILDHOOD EDUCATION. Students consider the diverse cultural, developmental, and learning of young children as they investigate the philosophical and practical aspects of curriculum development, assessment, and social issues relating to young children, ages birth through eight. (3)

EC 310. PRINCIPLES OF EARLY CHILDHOOD EDUCATION. Presents an overview of fundamental education principles, teaching techniques, learning theory, and curricular designs unique to the young child. This course requires 20 clock hours of field experience. (3)

EC 311. DYNAMICS OF PLAY IN EARLY CHILDHOOD EDUCATION. Theoretical approaches to play, developmentally appropriate practices as related to play, and practical applications of play principles will be discussed in this course. (3)

EC 312. ADAPTING THE LEARNING ENVIRONMENT FOR CHILDREN WITH

DISABILITIES. The major focus of this course will incorporate an in-depth study of theories and practices in Early Childhood Education. Research does exist, which proves traditional and former beliefs of education, which have helped build competent and effective early childhood education programs. (3)

EC 313. CHILD CARE ADMINISTRATION. Policies and procedures for administering a child care program and other community agencies. (3)

EC 314. DAYCARE PROCEDURES. Course directs student in actual designing and implementing a daycare setting. Prerequisite: Admission to Teacher Education. (3)

EC 316. GUIDANCE AND MANAGEMENT OF THE LEARNING ENVIRONMENT. Principles of managing the learning environment, strategies for developing appropriate social skills, and procedures for developing appropriate behaviors will be included. (3)

EC 320. PRACTICUM EXPERIENCE I WITH FIELD EXPERIENCE. The purpose of the course is to develop [or extend] competence in teaching in the early care and early childhood program. Students will gain knowledge of major components in early childhood teaching and practice the skills for that teaching in an approved setting under quality supervision. (3)

EC 400. METHODS OF INSTRUCTION: PRESCHOOL EDUCATION. Study of appropriate methods for preschool programs. Design and application of creative experiences and activities for preschool children in early childhood settings are also studied. (3)

EC 401. EARLY INTERVENTION STRATEGIES. The focus of this course is to provide procedures and strategies for facilitating the successful inclusion of young children with disabilities in early childhood settings using developmentally appropriate practices. (3)

EC 402. SCIENCE AND NUMBERS. This course is designed to provide an understanding of children's development of math and science skills in Pre-K through third grade. It explores methods, trends, and materials for effective instruction in these areas, and emphasizes connections in learning processes, and utilizing an integrative approach to instruction. Milestones in the child's development of mathematical concepts are linked with those in the development of the science process skills. (3)

EC 404. CREATIVE ARTS FOR CHILDREN. Course designed to acquaint prospective teachers with various art media that can be used in pragmatic teaching situations. Demonstrates how to utilize resources in the areas of fine arts, dance, theater, music, and art for classroom use. Creative dramatics, role play, song and dance for children will be discussed as it relates to the overall development of the child. (3)

EC 463. PRACTICUM EXPERIENCE II. Students are engaged in supervised observation and participation in a child development center. Scheduled critiques and planned evaluations are done with students, supervisors, and teachers. Students must complete a minimum of 100 clock hours. (6)

ELEMENTARY-ED

* Restricted - requires admittance to Teacher Education.

ED 102. GENERAL PSYCHOLOGY. An introductory course which surveys the various areas of psychology and provides a basic foundation for other courses. (3)

ED 105. EDUCATION COMPUTING. This course is designed to prepare prospective teachers to use technology and to integrate technology into the curriculum. (3)

ED 280. INTRODUCTION TO TEACHING. An introduction to the field of education, teaching, and all the procedures and processes which impact the modern classroom. (Field Experience required). (3)

***ED 302. EDUCATIONAL PSYCHOLOGY.** This course focuses on the principles and theories of child development and learning. There is emphasis on the principles of theories related to the cognitive, social, emotional, and moral development of the child. A comparison of different learning theories and their relationship to each other is also addressed. Research on the practices associated with improving learning for ALL students and the accommodation for learning styles and learning differences is included. Candidates are also made aware of the importance of research and scientific inquiry to the practice of teaching and its impact on motivation, classroom management, and effective practice. (3)

***ED 305. TEST AND MEASUREMENT.** This course is designed to provide the candidate with the appropriate information and skills necessary for developing classroom assessments including formative

and summative assessments, observations, rubric development, and other means of assessing student work within the elementary/ secondary classroom. Attention is also given to understanding the basic concepts of measurement and the interpretation of Standard Scores as they relate to educational practices and decisions. Prerequisites: ED 102 and ED 280. (3)

***ED 311. METHODS AND MATERIALS FOR TEACHING MATH IN THE ELEMENTARY**

SCHOOL. This course is designed for teaching candidates the appropriate methods and materials for teaching Math in the Elementary School. Included will be development of lesson plans, teaching units as well as appropriate theory, research and best practices for teaching math. Field experiences are required. Prerequisites: ED 280: Introduction to Teaching, ED 380: Instructional Planning and Adapting Instruction, MA 111: College Algebra, MA 132: Math Concepts II, and MA 333: Math Concepts III. (3)

***ED 312. METHODS AND MATERIALS FOR TEACHING SCIENCE IN THE ELEMENTARY**

CLASSROOM. This course is designed for teaching candidates the appropriate methods and materials for teaching Science in the Elementary School. Included will be development of lesson plans, teaching units as well as appropriate theory, research and best practices for teaching science interactively in the elementary classroom. Field experiences that include micro-teaching units in the classroom are included. Prerequisites: ED 280: Introduction to Teaching, ED 380: Instructional Planning and Adapting Instruction, SC 151, and SC 261. (3)

***ED 380. INSTRUCTIONAL PLANNING AND ADAPTING INSTRUCTION.** This course is

designed to provide a foundation for planning and preparing instruction, integrating classroom management techniques, developing adaptive instructional and management strategies, and understanding how to adapt to classroom learning environments for diverse learners. The class will also include instruction and practice of professional behaviors and time management as well as planning effective and realistic goals, developing lesson plans based on the “whole” child, and developing realistic and measurable objectives. This class will be a pre-requisite for any professional class in the program.

Prerequisites: ED 280: Introduction to Teaching, successful completion of Praxis Core Exam, and admission to Teacher Education. (3)

ED 393. GLOBAL AND MULTI-CULTURAL EDUCATION. The courses is designed to provide a survey of global and multi-cultural issues and expose students to other cultures. (3)

***ED 404. METHODS AND MATERIALS FOR TEACHING SOCIAL SCIENCE IN THE**

ELEMENTARY SCHOOL. This course is designed to teach candidates the current and traditional methods of teaching social studies in the elementary school. Included will be the development of lesson plans, teaching units, development and use of instructional materials, as well as appropriate theory, research and best practices for teaching social studies. Field experience includes micro teaching in the P- 12 classroom is included. Prerequisites: ED 280: Introduction to Teaching, ED 380: Instructional Planning and Adapting Instruction, HI 105, HI 106, HI 201, and HI 202. (3)

****ED 405. DIRECTED TEACHING GRADES K-4; 4-8.** The teacher candidate is required to do 12 weeks of practicum under the supervision of a certified teacher in the student’s content area. Prospective teacher education graduates must participate in a pre-seminar, a mid-term, and a post-seminar before completing student teaching. Prerequisites: Completion of all course work, and PRAXIS I and II. (12)

****ED 409. DIRECTED TEACHING IN THE SECONDARY SCHOOLS.** The teacher-candidate is required to do 12 weeks of practicum under the supervision of a certified teacher in the student’s content area. Prospective teacher education graduates must participate in a pre-seminar, a mid-term, and a post seminar before completing student teaching. Prerequisites: Completion of all course work, PRAXIS I and II. (12)

***ED 420. CLASSROOM MANAGEMENT.** This course is designed to equip prospective teachers with the techniques and skills for dealing with classroom situations, discipline and problems, instructional planning adaptation of environments, and instructions. Prerequisites: ED 280, and admission to Teacher Education. (3)

ENVIRONMENTAL HEALTH- EH

EH 200. INTRODUCTION TO ENVIRONMENTAL HEALTH. A survey of the basic principles of sanitation with applications to food borne disease, water and wastewater treatment, solid waste management, and vector control. (3)

EH 300. ENVIRONMENTAL CHEMISTRY. The chemical parameters of pollution and the methods of analysis are studied. Tests used to examine the quality of drinking water and the effectiveness of wastewater treatment systems are performed. Prerequisites: EH200, CH 111, and CH 112. (4)

EH 301. ENVIRONMENTAL MICROBIOLOGY. A review of the role of microbiology in disease prevention and control. Laboratory exercises are conducted in the bacteriological analysis of food, milk, and water. Prerequisites: EH 200, BI 111, BI 112, CH 301, and CH 302. (4)

EH 305. PUBLIC HEALTH SANITATION. An introduction to the theory and practice of sanitary inspections. The role of effective communication and the legal implications of inspection are reviewed. Inspection sites of interest are food facilities, housing, mobile home parks, and day care centers. (3)

EH 315. EPIDEMIOLOGY. The collection, analysis, and presentation of health data are covered. These techniques are used in epidemiological applications designed to study the determinants and patterns of disease in the population. Prerequisite: EH 200 or permission of the instructor. (3)

EH 320. HEALTH EDUCATION METHODS. Educational materials, methods and techniques employed by the environmental health practitioner are discussed. Prerequisite: EH 200; permission of the instructor. (3)

EH 340. AIR POLLUTION. The characteristics, effects, and regulation of air contaminants, which exist in the ambient and indoor air environments, are reviewed. Prerequisites: EH 200, CH 111, and CH 112. (3)

EH 350. BIOSTATISTICS. The course explains tabular and graphical representation of statistical data, measures of central tendency and variation, probability, sampling, statistical inference, confidence intervals, linear regression, correlation and an introduction to nonparametric statistic methods. Prerequisite: MA 111. (3)

EH 370. INSECT AND VECTOR CONTROL. A look at current methods used to identify and control arthropod and rodent vectors of disease. Pesticide applications and biological control techniques are evaluated. (3)

EH 418. SOLID AND HAZARDOUS WASTE MANAGEMENT. A lecture course designed to familiarize the students with the storage, collection and disposal of solid waste; the environmental impact of the disposal method and hazards associated with waste. Prerequisite: EH 200. (3)

EH 420. OCCUPATIONAL SAFETY AND HEALTH. The skills necessary to recognize, evaluate and recommend controls for environmental hazards found in the work place are developed. Pneumoconioses,

dennatoses, ergonomics, ionizing and non-ionizing radiation are discussed. Prerequisites: Junior status or permission of the instructor. (4)

EH 451. ENVIRONMENTAL TOXICOLOGY. This course will review those substances considered to be poisonous that are present in the environment as well as their entry, action, and elimination from the body. Prerequisites: Junior status; CH 111, and CH 112. (3)

EH 465. PUBLIC HEALTH ADMINISTRATION. An introduction to the planning, organization and administration of environmental health programs. Topics include: the delivery of health care services, environmental impact statements, and public health law. Prerequisite: Senior status. (3)

EH 488. INTERNSHIP. All environmental health majors are required to complete an internship at an environmental or public health agency for a minimum period of eight weeks. The purpose of the internship is to give students the opportunity to enhance their academic instruction with practical experience in the field. Prerequisite: Senior status. (6)

EH 489. SPECIAL PROBLEMS. Projects of special interest in environmental or public health are undertaken. These may be individual works under the direction of a faculty member or involve one or more of the following: experimental work, wide reading, and development of special skills or techniques for scientific investigation. Prerequisite: Junior status. (3)

EH 191-192; 291-292; 491-492. SEMINAR. Selected literature on current specific research is critically examined. Individuals are encouraged to read professional journals. Seminar members report at stated intervals on assigned problems in environmental or public health. Majors are required to enroll in seminar each semester. (1)

ENGLISH-EN

EN 095. DEVELOPMENTAL ENGLISH. A 10-week summer course required for students admitted to MVSU with deficiencies. Course topics include grammar reviews, sentence construction, and essay writing. (3)

EN 100 B. INTERMEDIATE ENGLISH. Basic English is designed to provide supplemental academic assistance for students whose mastery of communicative skills is inadequate. The course emphasizes grammar usage and mechanics. (3)

EN 101. ENGLISH COMPOSITION. Introduction to the major forms of composition through reading, writing, and critically analyzing expository and argumentative forms of writing. (3)

EN 102. ENGLISH COMPOSITION. A continuation of English 101 in which students are introduced to the research paper and critical analysis. The honors section is for students recommended on the basis of achieving an "A" average. Students must have a composite score of 20 or above on the ACT to be recommended. Prerequisite: EN 101. (3)

EN 201. WORLD LITERATURE. A study of the world literary masterpieces. The honors section is for students recommended on the basis of achieving an "A" average in English composition. Prerequisites: EN 101 and EN 102. (3)

EN 202 WORLD LITERATURE. A continuation of EN 201. The honors section is for students recommended on the basis of achieving an "A" average or having shown potential for achieving an "A" average in EN 101, EN 102, and EN 201. (3)

EN 205. PHILOSOPHY AND LITERATURE. Study of philosophy and its relation to literature. (3)

EN 253. POETRY WRITING I. An elementary level course in fiction writing for majors with concentration in creative writing. Required course. Prerequisites: EN 101, EN 102 (3)

EN 254. FICTION WRITING I. An elementary level course in poetry writing for majors with concentration in creative writing. Required course. Prerequisites: EN 101, EN 102 (3)

EN 302. WRITING ON THE JOB. A course that stresses the communications needs for students of varied academic backgrounds and occupational interests whose jobs require writing skills. Prerequisite: EN 101, EN 102, and junior standing. (3)

EN 303. TECHNICAL WRITING. A course that stresses report writing in students major field. Required course. Prerequisites: EN 101, EN 102, and junior standing. (3)

EN 305. INTRODUCTION TO DRAMA. A survey of the dramatic genre with a focus on the development of comedy, tragedy, melodrama, and farce. (3)

EN 306. INTRODUCTION TO POETRY. A survey of the development of the poetic genre through a study of styles, themes, and forms. (3)

EN 307. INTRODUCTION TO FICTION. A survey of fiction to include both short stories and novels. (3)

EN 308. PRINCIPLES OF LITERARY CRITICISM. A study of the basic approaches for analyzing and interpreting various genres of literature. Required course. Prerequisites: EN 101 and EN 102. (3)

EN 310. EARLY ENGLISH LITERATURE. A survey of English Literature from the beginning through the Renaissance, exclusive of Shakespeare. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 314. THE NOVEL. Various approaches to the novel as a genre explored through representative works. Elective. Prerequisites EN 101, EN 102, EN 201, and EN 202. (3)

EN 316. MODERN LITERATURE. Concentrated reading in representative modern literature with an emphasis on defining the modern world and its values. Required course. (3)

EN 351. TECHNOLOGY IN THE ENGLISH CLASSROOM. Theory and practice in the preparation of instructional materials and the use of modern technology, including the computer, overhead projector, and audio/visual devices used in the teaching of English. (3)

EN 352. METHODS OF TEACHING ENGLISH. A methods course for junior high and high school English. Required Course. Prerequisite: Admission to the Teacher Education Program. (3)

EN 353. POETRY WRITING II. An intermediate level course in poetry writing for majors with concentration in creative writing. Required course. Prerequisite: EN 253. (3)

EN 354. FICTION WRITING II. An intermediate level course in fiction writing for majors with concentration in creative writing. Required course. Prerequisite: EN 254. (3)

EN 361. AMERICAN LITERATURE. Primary and secondary American literature from the Colonial period to about 1860. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 362. AMERICAN LITERATURE. American poetry and prose from about 1860 to the present. Required course. Prerequisites: EN 101, EN 102, EN 201, EN 202 and EN 361. (3)

EN 363. MAJOR BLACK WRITERS. Representative black writers in the major genres. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 364. SURVEY OF AFRICAN AMERICAN LITERATURE I. A survey of African American literature through the 19th century. Prerequisites: EN 101 and EN 102. (3)

EN 365. SURVEY OF AFRICAN AMERICAN LITERATURE II. A survey of African American literature of the 20th century. Prerequisites: EN 101 and EN 102. (3)

EN 367. SPECIAL TOPICS IN ENGLISH. Selected topics in writing or literature. The topics will vary from semester to semester, and they will generally deal with a particular theme. Prerequisites: EN 101 and EN 102. (3)

EN 368. SPECIAL TOPICS IN ENGLISH. Selected topics in writing or literature. The topics will vary from semester to semester, and they will generally deal with particular themes. Prerequisites: EN 101 and EN 102. (3)

EN 369. LITERATURE OF THE HARLEM RENAISSANCE. This course will examine the works of African-American writers of the Harlem Renaissance (1919-1929), a period in American literary history characterized by enormous creative activity. Prerequisites: EN 101 and EN 102. (3)

EN 370. CROSS-CULTURAL PERSPECTIVES OF BLACK WOMEN WRITERS. An in-depth study of selected Black women writers from various cultures. Prerequisites: EN 101 and EN 102. (3)

***EN 371. ADVANCED GRAMMAR AND EFFECTIVE WRITING.** A study of grammar and techniques of effective writing. Required course. Prerequisites: EN 101 and EN 102. (3)

EN 373. ADOLESCENT LITERATURE. A study of selected young adult novels with emphasis on evaluating and teaching the selected materials in junior high and senior high schools. Prerequisites: EN 101 and EN 102. (3)

EN 401. LANGUAGE AWARENESS. Introduction to issues relevant to the understanding of language that is used more responsibly and effectively. Prerequisites: EN 101 and EN 102. (3)

EN 405. MODERN DRAMA. Modern drama from around the world will be studied. The course includes a study of plays on film. Prerequisites: EN 101 and EN 102. (3)

EN 406. MODERN POETRY. The course focuses on trends in the Modern period from a global perspective. Prerequisites: EN 101 and EN 102. (3)

EN 408. THE ENGLISH NOVEL. The beginning and development of the English novel and representative selections are studied chronologically and critically. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 409. SHAKESPEARE. Principal plays are studied chronologically and critically. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 411. RESTORATION AND EIGHTEENTH CENTURY ENGLISH LITERATURE. A study of major writers and principal literary movements of the period. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 412. NINETEENTH CENTURY ENGLISH LITERATURE. Surveys the Romantic and Victorian Period. Required course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 413. AFRICAN LITERATURE. A study of African thought and world view in traditional and contemporary African literature in English and English translation. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 450. SENIOR RESEARCH PROJECT. Senior English majors study a theme, author, or genre selected by the course instructor and produce a researched thesis project. Required Course. Prerequisites: EN 101, EN 102, EN 201, and EN 202. (3)

EN 453. POETRY WRITING III. Workshop in developing techniques of poetry writing. Required course. Prerequisite: EN 353. (3)

EN 454. FICTION WRITING III. Workshop in developing techniques of poetry writing. Required course. Prerequisite: EN 354. (3)

EN 455. CREATIVE NONFICTION WRITING. An upper-level course required of majors concentrated on creative writing. Required course. Prerequisite: EN 353 and EN 354. (3)

EN 467. HIP-HOP & CREATIVE EXPRESSION. Focuses on lyrical expressions, language, and content of the Hip Hop music which continues to be an effective tool for advancing social movements in America. Required course. Prerequisites: EN 101 and EN 102. (3)

EN 468. INTERNSHIPS. This course offers English majors internships in the University Writing Center or in university publications. Required course. Prerequisite: Senior level. (1)

ENGINEERING TECHNOLOGY - ET

ET 101. PRINT READING. Teaches the application of basic principles, visualization, orthographic projection, assembly drawings, exploded views, and detail of drafting terminology. Considers dimensioning, changes and corrections, classes of fits, tolerances and allowances, sections and convention in print reading. Includes reading, understanding, and interpreting architectural drawings including floor plans, elevations, sections and construction details. Teaches welding nomenclature and symbols along with electrical and electronic symbols, wiring diagrams, hydraulic and pneumatic symbols, and schematic drawings and piping diagrams. Presents material for drafters, material estimators, construction workers, electricians, superintendents and supervisors. (3)

ET 102. TECHNICAL DRAWING Teaches basic technical drawing involving sketching, orthographic projection, arrangement of views and drafting techniques. (3)

ET 141. BASIC ELECTRONICS. Principles of Electricity and Magnetism. Fundamentals of Analog and Digital Electronics, components, and circuits. (3 hours lecture + 2 hours lab weekly). Prerequisites: MA 111 (College Algebra). (3)

ET 141L. BASIC ELECTRONICS LAB. This lab is designed to allow students to gain practical experiences that cover principles of Electricity and Magnetism. Fundamentals of Analog and Digital Electronics, components, and circuits. (1)

ET 142. SEMICONDUCTOR DEVICES. Characteristics and operation of semiconductor devices: diode, transistors, SCR, DIAC, TRIAC, IGBT, etc. Wave shaping circuits, power supplies and amplifiers. (3 hours lecture + 2 hours lab weekly). Prerequisite: ET 141 (Basic Electronics). (3)

ET 142L. SEMICONDUCTOR DEVICES LAB. This lab is designed to allow students to gain practical experience associated with the characteristics and operation of semiconductor devices: diodes, transistors, SCR, DIAC, TRIAC, IGBT, etc., wave-shaping circuits, power supplies, and amplifiers. Prerequisite: ET 141 and ET 141L.(1)

ET 191. SEMINAR. The freshman seminar is designed to orientate students to the department and course offerings. This seminar will aid in the opportunity for enhancement of student career goals, job values and job expectations, and to introduce students to professional organizations and contemporary industries as they stand today. (1)

ET 192. SEMINAR. Continuation of ET 191. (1)

ET 201. INTRODUCTION TO ARCHITECTURE Foundational course that presents basic architecture nomenclature, styles, concepts, and theory. Architectural drafting techniques, symbols, dimensioning, and methods of representation will be applied. Students will develop a complete set of working drawings for a one-story residential structure that will include plan views, foundation plans, floor plans, electrical layouts, mechanical layouts, elevations, door and window schedules and construction details. (3)

ET 202. ARCHITECTURAL DRAWING This course further develops drafting skills and the fundamental use of materials in construction, with emphasis on building codes. Presentational and working drawings for two-story and/or split level frame construction is developed with plans, elevations, sections, details, plots and contour maps. Prerequisite: ET 201. (3)

ET 203. INTRODUCTION TO CADD: Computer-Aided Drafting. Teaches computer aided drafting components, software, concepts and techniques. Students will develop and understanding of modern drafting practices and the operation of a typical CAD system. No prerequisites. (3)

ET 205. INTRODUCTION TO AUTOMATED IDENTIFICATION TECHNOLOGY. This course surveys the current technologies in automated identification. Topics to be discussed are: bar code technology, radio frequency identification, card technologies, and biometrics principles. Prerequisite: MA 112 minimum grade of C. (3)

ET 211. INTRODUCTION TO STATISTICS FOR AUTOMATED IDENTIFICATION TECHNOLOGY. This course provides students with a basic understanding and working knowledge of statistical methods used throughout the automated identification industry. Topics include statistical analyses, use of the mean and standard deviation as well as, sampling techniques and hypothesis testing. Numerical and graphical analysis will be done using MS Excel. Prerequisite: MA 112 minimum grade of C. (3)

ET 222. CONSTRUCTION METHODS AND MATERIALS I. This course deals with different construction methods and materials used in the construction industry. Specific attentions is given to the most up-to-date green and sustainable methods for residential and commercial building construction as

well as the latest materials, standards, and practices with construction material and methods.. Prerequisite: ET 201. (3)

ET 223. CONSTRUCTION METHODS AND MATERIALS II. This course is a continuation of Construction Methods and Materials I. The most up-to-date green and sustainable methods for residential and commercial building construction as well as the latest materials, standards, and practices with Construction Materials and Methods will continue to be the primary focus. Prerequisite: ET 222. (3)

ET 241. ELECTRIC POWER AND ENERGY CONVERSION. Electric power generation and conversion, rotating machines: generators and electric motors. Electromagnetic theory and electromagnetic waves propagation. (3 hours lecture + 2 hour lab weekly) Prerequisites: ET 142 (Semiconductor Devices) and PH 211 (General Physics). (3)

ET 241L. ELECTRIC POWER AND ENERGY CONVERSION LAB. This lab is designed to provide students with practical experience that cover electric power generation and conversion, rotating machines: generators and electric motors. Electromagnetic theory and electromagnetic waves propagation. Prerequisites: ET 142 and ET 142L. (1)

ET 242 DIGITAL ELECTRONICS Introduction into digital logic and digital systems, basic logic gates and applications. Operational amplifiers and applications (3 hours lecture + 2 hours lab weekly) Prerequisite: ET 142 Semiconductor Devices. (3)

ET 242L. DIGITAL ELECTRONICS LAB This lab is designed to allow students to gain practical experience associated with digital logic and digital systems, basic logic gates and applications. Operational Amplifiers and applications will be covered. Prerequisites: ET 142 and ET 142L. (1)

ET 250. INTERNSHIP. Practical experiences in industry, business, and /or government. (3)

ET 251. STEM INTERNSHIPS. Teaches the skills necessary for leading and mentoring a team through an authentic technical design/problem-solving experience, the FIRST Robotics Competition. The FIRST Robotics Competition challenges teams of high-school students and their mentors to solve a common set of technical problems through the design of a multi-function robot in a six-week time-frame using a standard "kit of parts" and a common set of rules. Teams build robots from the parts and enter them in a series of competitions. Teams are rewarded for excellence in design, demonstrated team spirit, gracious professionalism and maturity, and ability to overcome obstacles. Scoring the most points is a secondary goal. All participants are winners by learning about the practical applications of science, math, and engineering, and building partnerships that last. (3)

ET 301. DESCRIPTIVE GEOMETRY. Course includes representation of geometrical magnitudes; relation between points, lines and plane; intersection and development of surfaces; and architectural and engineering applications. Prerequisite: ET 102. (3)

ET 306. CAD APPLICATIONS. The course will provide complete instructions on mastering Computer Aided Drafting and Design (CAD) Systems. This course will focus upon the Application of CAD Systems to tasks consistent with accepted drafting and design standards. Prerequisite: ET 303. (3)

ET 307. CAD APPLICATION II. This course is a continuation of CAD Application I. The course will focus on the application of CAD in map drawing, architectural detailing, and mechanical drawing. Prerequisite: ET 306. (3)

ET 308. PARAMETRIC SOLID MODELING Teaches concepts and practices in parametric modeling used in the drafting industry. Topics include sketch profiles, geometric and dimensional constraints, 3-D features, model generation by extrusion, revolution and sweep, creation of 2-D drawing views that include sections, details, auxiliary views and bills of material. Focuses on teaching software applications for the design of parts and assemblies by utilizing advanced solid modeling techniques. (3)

ET 311. ADVANCED STATISTICS AND ANALYSIS TOOLS FOR AUTOMATED

IDENTIFICATION APPLICATIONS. This course expands beyond basic statistics to prepare students for analysis of data relating to automated identification technology and standards development. Topics to be discussed include multivariate and non-parametric statistics. Prerequisite: ET 211 minimum grade of C. (3)

ET 312. RADIO FREQUENCY IDENTIFICATION (RFID) This course covers the principles and applications of radio frequency identification (RFID). Emphasis is placed on RFID architecture, passive RFID, active RFID, tags protocols, EPCglobal Network, reader protocols, RFID middleware, and RFID information service. Prerequisite: ET 205 minimum grade of C. (3)

ET 313. INDUSTRIAL SUPPLY CHAIN MANAGEMENT. This course presents the introduction to industrial supply chain management focusing on the logistics, distribution and warehouse operations as well as the role of AIT in the supply chains. Prerequisites: ET 211 and 312 minimum grade of C. (3)

ET 314. INFORMATION TECHNOLOGY. This course provides the fundamentals of information technology including computer hardware/software, database design, and networking. Students will have an opportunity to create a database using one of the Database Management Systems. Prerequisites: ET 211 and ET 312 minimum grade of C. (3)

ET 334. SITE PLANNING & SURVEYING - Principles of construction site measurements and project layouts utilizing surveying instruments are explored in this course. It also introduces concepts of land use development with respect to the environmental impacts of project construction and post-construction performance. Also introduced are factors to consider when proposing human interventions in the ecology of the earth, including climatic parameters of sun, wind, water and biomass, as well as human parameters such as zoning, landscaping, use, and noise, and building with its auxiliary exigencies. Prerequisites: ET 222 and ET 223. (3)

ET 335. CONSTRUCTION ESTIMATING – Focuses on materials take-off and computing quantities from working drawings and specifications. Includes methods for computing quantities of concrete, steel, masonry, roofing, and excavation. Deals with pricing building components, materials and processes, as well as transportation and handling costs, mark-up discount procedures, equipment cost, and labor rates. Prerequisite: ET 201. (3)

ET 341. FIBER OPTICS This course prepares the students to become knowledgeable in fiber optics communications. The course includes a basic overview of light and optics, total internal reflection, basic waveguide propagation, single-mode and multimode fiber, fiber optics loss mechanisms, splicing and termination, digital/analog modulation, lasers and optical network design. (3 hours lecture + 1 hour lab). Prerequisite: ET 241. (3)

ET 341L. FIBER OPTICS LAB This lab provides students with practical knowledge that is essential to conducting fiber optics communications operations, this includes: light and optics, total internal reflection, basic waveguide propagation, single-mode and multimode fiber, fiber optics loss mechanisms, splicing and termination, digital/analog modulation, lasers and optical network design. Prerequisites: ET 241 and ET 241L. (1)

ET 343. MICROPROCESSORS. Microprocessors concepts and operation. Architecture and instruction sets programming. Input-Output peripherals. Motorola MC 68 HC 12 microprocessor applications. (3 hours lecture + 2 hours lab weekly) Prerequisite: ET 242. (3)

ET 343L. MICROPROCESSORS LAB. This lab provides students with practical knowledge that is essential to learning microprocessors concepts and operation, this includes: architecture and instruction sets programming. Input-Output peripherals. Motorola MC 68 HC 12 microprocessor applications. Prerequisites: ET 242 and ET 242L. (1)

ET 374. TECHNICAL WRITING. This is an introductory course that covers library research information gathering, audience analyses, the rise of the rhetorical modes, and achieving clear style. It also includes the methods, application, and management that prepare students for the corporate culture in which they will collaborate with associates to plan, budget, draft, and produce technically oriented publications. (3)

ET 393. BIOMETRICS AND APPLICATIONS This course provides the fundamentals and applications of biometrics. Topics include: fingerprint recognition, facial recognition, iris scanning and verification, esoteric biometrics, biometric testing and evaluation, biometric standards, biometrics in large-scale systems, information security and privacy, biometrics in government and law/private-sectors, and biometrics major applications. Prerequisite: ET 205 minimum grade of C (3).

ET 401. CAD STRUCTURAL DRAFTING. This course stresses further development of details, plan elevation, and section for heavy construction commercial building. It also makes information immediately available on standards and practices, materials and assemblies, and details and specifications. Prerequisite: ET 303. (3)

ET 404. CIVIL/ HYDROLOGY DRAFTING. Introduces computer aided drafting and design for civil/surveying applications. Applications include topographic mapping, site layout, highway design, hydrology tools and watershed analysis. Includes calculations and drafting of traverse adjustment, subdivisions, curbs and curves. Prerequisites: ET 303 and ET 306. (3)

ET 441. TELECOMMUNICATION This course provides the students with knowledge of transmitters, amplitude and frequency modulated, single side band transmitters, and various types of communication receivers, antennas amplifiers, mixers, microwave receivers, multiplexing, radar detection and navigation systems. (3 hours lecture + 2 hour lab weekly). Prerequisite: ET 341. (3)

ET 441L. TELECOMMUNICATIONS LAB This lab provides students with hands on experiences that allows them to gain knowledge of transmitters, amplitude and frequency modulated, single side band transmitters, and various types of communication receivers, antennas amplifiers, mixers, microwave receivers, multiplexing, radar detection and navigation systems. Prerequisites: ET 341 and ET 341L. (1)

ET 442. PROGRAMMABLE LOGIC CONTROLLER/CONTROL SYSTEMS. In this course, the student will learn the principles of Programmable Logic Controller (PLC) and control systems and their applications. The course includes ladder logic programming, timers, counters, mathematical function- block sequences, shift register, instructions, input/output (I/O), analog/digital modules, and master slave PLC interfacing. The students will become knowledgeable about the control systems it theory, applications, and the function of electrical and non-electrical control components. (3 hours lecture+ 2 hour lab weekly) Prerequisite: ET441 Telecommunication. (3)

ET 442L. PROGRAMMABLE LOGIC CONTROLLER/CONTROL SYSTEMS LAB. In

this lab, the student will gain practical knowledge and training related to Programmable Logic Controller (PLC) and control systems and their applications. Special attention will be given to ladder logic programming, timers, counters, mathematical function block sequences, shift register, instructions, input/output (I/O), analog/digital modules, and master slave PLC interfacing. Upon completion of this lab, students will be knowledgeable of the control systems it theory, applications, and the function of electrical and non-electrical control components.

Prerequisites: ET 441 and ET 441L. (1)

ET 446. CONSTRUCTION PROJECT MANAGEMENT – Students will develop economic, legal, technical and management knowledge and skills. They will take part in project-oriented group work solving practical management problems. Students will plan, organize and control construction operations and will learn the stages of the process – from initial feasibility studies through design, construction, maintenance, refurbishment and demolition.

Prerequisites: ET 334 and ET 335. (3)

ET 470. INDUSTRIAL SAFETY. This course is designed to create a safe environment through development of occupational safety consciousness and practices. Its contents include planning and maintaining a safe environment for lab students. Instruction in accident prevention in the use of tools, machinery, fire extinguishing equipment, fire drills, first aid, contributing factors, mechanical hazards, accident reporting, safety inspection, housekeeping, protective equipment, and teacher liability is also provided. Prerequisite: ET 374. (3)

ET 472. HISTORY OF TECHNOLOGY. A study of prominent leaders, agencies, and movements that contributed to the development of our technological world. Special emphasis will be given to the economic, philosophical, social and cultural factors which influenced these developments. Prerequisite: ET 374. (3)

ET 474. SUPERVISORY MANAGEMENT. This course deals with supervisory management and problem solving, planning, organizing and controlling work, managing people at work, handling sensitive work problems, and improving employee performance. Prerequisite: ET 374. (3)

ET 476. QUALITY CONTROL (MANAGERIAL CONCEPTS). A study of those aspects of a company which management decision weighs heavily on the efficacy of the quality system; the relations between manager-employee, and top-management mid- management as they pertain to policies, budgets and attitudes; the extent to which management exercises its functions of planning, organizing, leading, and controlling activities. Prerequisites: ET 475 and ET 374. (3)

ET 478. PRODUCTION MANAGEMENT. Course is designed to provide students with a strategic approach to basic concepts of operations and production management. This course includes a coverage and integration of the major topics contained in the production control cycle: production information processing and flow, production planning, forecasting material requirements planning, and monetary control scheduling. Prerequisites: ET 476 and ET 374. (3)

ET 482. INDUSTRIAL PSYCHOLOGY. Role of supervision functions in industry with emphasis upon principles and practices of human behavior and human relations within the industrial environment.

Prerequisite: ET 374. (3)

ET 491. SEMINAR. This seminar is designed to acquaint seniors with advanced writing, speaking, designing of special projects, and job placement in various fields of work. (1)

ET 499. SENIOR PROJECT. This capstone course provides the opportunity for the student to conduct research and to design projects in the Automated Identification Technology area. Prerequisites: MA 111, MA 112, AT 205, ET 211, ET 312, minimum grade of C. (3)

FRENCH-FR

FR 101. ELEMENTARY FRENCH. A beginning course that develops skills in listening, pronouncing, speaking, reading, and writing the French language. (3)

FR 102. ELEMENTARY FRENCH. A continuation of French 101. Prerequisite: FR 101 with a grade of “C” or better. (3)

FR 201. INTERMEDIATE FRENCH. Increases skills developed in the preceding courses with emphasis on elementary composition and reading relevant to French. Prerequisites: FR 101 and FR 102 with a grade of “C” or better. (3) **FR 202. INTERMEDIATE FRENCH.** A continuation of FR 201. Prerequisite: FR 201 with a grade of “C” or better. (3)

FRESHMAN YEAR EXPERIENCE-FY

FY 101. FIRST- YEAR EXPERIENCE SEMINAR. This academic course is a first year experience seminar designed to acquaint first-year and transfer students with the University’s academic expectations, programs and regulations. Course topics include: Success skills, academic support services, service learning requirements, co-curricular experiences, MVSU history and traditions, academic regulations, organizational structure, and study skills. Invited guest speakers may include departmental chairs, university officials, community leaders, and area professionals. (1)

GEOGRAPHY-GO

GO 101. FUNDAMENTALS OF GEOGRAPHY. A study of the major elements of physical and cultural Geography. (3)

GO 301. GEOGRAPHY OF NORTH AMERICA. A study of the geographic patterns of the North American continent and neighboring lands. (3)

HISTORY-HI

HI 101. WORLD HISTORY TO 1500. Political, cultural, social and economic development of human societies from the prehistoric period to 1500, emphasizing commonalities as well as diversity. Major topics include origins of agriculture and consequent development of eastern and western hemisphere civilizations; ancient empires; rise of Islam; Christian European political development and the Renaissance; Mongol expansion and decline; tropical African state systems, external trade and local society organization. (3)

HI 102. WORLD HISTORY AFTER 1500. Development of human societies from 1500 to the present. Major topics include the maritime revolution and European transformations; industrial revolution; Asian empires and trade; the “new imperialism”; world wars, the cold war in a global context, decolonization, globalization and an increasingly interdependent world. (3)

HI 201. EARLY U. S. HISTORY. A survey of United States history from the earliest European settlements in North America through the end of Reconstruction (1877). Emphasizes U.S. political, economic, and social development, the evolution of its institutions, and the causes and consequences of its principal wars. (3)

HI 202. MODERN U.S. HISTORY. A survey of history of the United States from the end of Reconstruction to modern times. Emphasis is placed on internal expansion, isolationism, and U.S. emergence as a world power. (3)

HI 215. AFRICAN-AMERICAN HISTORY. This course examines the African American experience in the United States from slavery to the present era. Students study the chronology of black history, the African heritage, the crucible of slavery, the struggle for equality, Pan-Africanism, and the development and evolution of the African American community.(3)

HI 302. AGE OF REVOLUTIONS: EUROPEAN HISTORY 1789-1989.This course will look at the history of Europe, including Russia, from the origins of the French Revolution in 1789 to the fall of the Berlin Wall in 1989. Topics include the rise and fall of Napoleon, the unification of Germany, the “Long Peace,” World War I and the Russian Revolution, World War 2, the Cold War, and the fall of Communism in Europe. Prerequisites: HI 101 and 102. (3)

HI 309. U.S. DIPLOMATIC HISTORY. A study of U.S. diplomatic history and principles; The Revolution; Early U.S. policies on isolation and expansion; The War of 1812; The Monroe Doctrine; Manifest Destiny; The Civil War; American imperialism and the Spanish-American War; U.S. diplomacy toward Latin America in the 20th century; World War I; attempts to preclude further war; World War II; Cold War; and Contemporary problems. (3)

HI 320. 20TH CENTURY U.S. Major developments in American history from the Populist and Progressive Eras to the present. Prerequisites: HI 201 and HI 202. (3)

HI 330. COLONIAL AMERICA. Analysis of European discovery and colonization of the Americas, particularly North America. Attention is given to European exploration, interaction with Native American cultures, and the beginnings of colonial development to the end of the Revolution and U.S. independence. (3)

HI 331. HISTORY OF THE SOUTH. Political, social, economic, and cultural aspects of the history of the U.S. South. Reconstruction, race, class, and gender relations; economic change; and the role of the South in the nation are explored. (3)

HI 350. SLAVERY AND FREEDOM. The causes and consequences of the Civil War, slavery, sectionalism, the Civil War, Reconstruction and Redemption. Prerequisites: HI 201 and HI 202. (3)

HI 361. AMERICAN CONSTITUTIONAL HISTORY. The development of American constitutional principles and practices, focusing on federalism, the separation of powers, and the Bill of Rights. (3)

HI 382. THE COLD WAR. U.S.-Soviet rivalry from the end of World War II to the fall USSR. Impact of Cold War tensions on nonaligned nations is also considered. (3)

HI 387. SUB-SAHARAN AFRICA. General survey of African historical themes south of the Sahara. Early state systems, interior and exterior trade, development of the trans-Atlantic, trans-Saharan and Indian Ocean trading systems, European colonial rule and African nationalism leading to political independence are discussed. Discussions of current issues of the continent are dealt with in their relation to the historical background. (3)

HI 389. LATIN AMERICAN/CARIBBEAN HISTORY. This course provides a social and cultural survey from the Colonial period to Independence. It also examines the Early National period. Prerequisites: HI 201 and HI 202. (3)

HI 400. TOPICS IN UNITED STATES HISTORY. Introductory exploration and analysis of selected topics in United States history with a specific theme indicated by course title listed in college course schedule. May be repeated for credit as long as different topics are selected. Will count as an HI elective for history majors, but may not be substituted for prescribed courses in the degree program. Prerequisites: HI 201 and HI 202. (3)

HI 401. TOPICS IN WORLD HISTORY. Introductory exploration and analysis of selected topics in history outside the United States with specific theme or world region indicated by course title listed in college course schedule. May be repeated for credit as long as different topics are selected. Will count as an HI elective for history majors, but may not be substituted for prescribed courses in the degree program. Prerequisites: HI 101 and HI 102. (3)

HI 422. U.S. MILITARY HISTORY. U.S. military history from the Revolution to the present. Evaluation of significant battles from the viewpoints of the participants, their resources, decision-making techniques, and the nine principles of war. All U.S. wars are examined. (3)

HI 432. HISTORY OF MISSISSIPPI. Survey of Mississippi history. Emphasis is placed on first civilizations, early statehood, the Civil War/Reconstruction, Mississippi in the Great Depression, and the Civil Rights era. (3)

HI 434 SOUTHERN ENVIRONMENTAL AND AGRICULTURAL HISTORY. Explores how the environment and agriculture have shaped the settling and history of the American South. Topics include staple-crop agriculture and the development of slavery, the diversification of Southern agriculture in the 20th Century, natural disasters such as the 1927 Mississippi River Flood and Hurricane Katrina, non- native invaders including the fire and kudzu, and the role of large-scale environmental projects like the Tennessee Valley Authority in reshaping and redefining the South. (3)

HI 490. HISTORY RESEARCH SEMINAR. Seminar on historiography and the fundamentals of historical research and writing. Students are guided through the stages of preparation of a scholarly research paper, using written, oral, and other primary sources, as well as, scholarly secondary sources. (3)

HI 493. PUBLIC HISTORY INTERNSHIP. An internship course designed to familiarize students with the public history practices of museums, archives, libraries, non-profit organizations and historical tourism agencies. Open to all students working toward an undergraduate degree in History dependent upon site availability. Not mandatory for completion of the degree, but will count toward the HI elective course hours requirements. (3)

HEALTH-HL

HL 101. COMPREHENSIVE HEALTH. Presents a body of knowledge essential for sound decisions in health maintenance. Sound health values and conduct are encouraged. (3)

HL 205. MARRIAGE, FAMILY LIVING AND SEX EDUCATION. Designed to acquaint students with various encounters of family living with emphasis on dating, companionship, marriage, sex education, family planning, parenthood, and divorce as they relate to the social institution. (3)

HL 207. FIRST AID. Designed to provide the citizen responder with the knowledge and skills necessary in an emergency to help sustain life, reduce pain, and minimize the consequences of injury or sudden illness until professional medical help arrives. (3)

HL 302. INTRODUCTION TO NUTRITION. Fundamental principles of human nutrition and effects upon health, development, and performance. (3)

HL 309. CONSUMER HEALTH EDUCATION. Private and public marketing practices, health services, governmental laws related to health services, and public and private agencies available to protect the consumer. (3)

HL 317. METHODS IN HEALTH EDUCATION (P-12). Experiences in learning and evaluating various methods of health instruction. Twenty hours of practicum are required. (3)

HL 318. DRUGS AND ALCOHOL ABUSE. Socio-psychological aspects of our drug oriented society; classification and pharmacology of drugs; physical and emotional effects of drug abuse; characteristics of the drug-prone personality; detection of the drug-dependent personality; federal and state statutes; developing units of instruction to help preclude drug abuse. (3)

HL 330. FIRST AID INSTRUCTOR'S COURSE. This is an American Red Cross prescribed course for the certification of first aid instructors. (3)

MATHEMATICS-MA

MA 095. DEVELOPMENTAL MATHEMATICS. A 10-weeks summer course required for students admitted to MVSU with deficiencies. Course topics include rational expressions, numerical operations, whole numbers, and algebraic functions. (3)

MA 100B. INTERMEDIATE ALGEBRA. Topics include real numbers, algebraic expressions, factoring, algebraic fractions, linear equations and inequalities, quadratic equations, and systems of equations in two variables. (3)

MA 100X. INTERMEDIATE ALGEBRA - CO-REQUISITE. Taken simultaneous with College Algebra. Topics include real numbers, algebraic expressions, factoring, algebraic fractions, linear equations and inequalities, quadratic equations, and systems of equations in two variables. (1)

MA 111. COLLEGE ALGEBRA. Exponents and radicals, polynomials, factoring, functions and graphs, linear and quadratic equations, and inequalities systems of equations are included. Prerequisite: MA 100B or minimum ACT sub-score of 20 in mathematics. (3)

MA 112. PLANE TRIGONOMETRY. Trigonometric functions and their inverses, trigonometric identities and equations, solutions of triangles, analytic trigonometry, logarithms and exponential functions are taught. Prerequisite: MA 111 or Department Approval. (3)

MA 132. CONCEPTS OF MATHEMATICS II. Basic concepts of algebra and informal geometry. (Open only to Elementary and Special Education Majors.) (3)

MA 150. PRE-CALCULUS. Equations and inequalities, coordinate geometry, algebraic and trigonometric functions, exponential and logarithmic functions are taught. Prerequisite: Grade of C or better in MA 111, MA 112, or a minimum ACT sub-score of 20 in mathematics. (3)

MA 191-MA 192. MATHEMATICS SEMINAR. Required of each freshman mathematics major both semesters of the freshman year. Introduces the students to the department, the faculty, college life and mathematics as a major. Effective methods of note taking and research, efficient use of study time, problem solving and group advisement are discussed. A panel-symposium-lecture-discussion is employed. Presentations may be given by students, faculty or guest speakers. Prerequisite(s): Freshman Mathematics or Mathematics Education major. (1)

MA 251. ALGEBRAIC LANGUAGE PROGRAMMING. Using all facilities of FORTRAN including program design, constants and variables, and array processing. Making use of subprograms, and formatted data. Prerequisite: CS 112. (3)

MA 299. CALCULUS I WITH MATHEMATICA. Functions, graphing, limits, differentiation and integration of algebraic and trigonometric functions with some applications, and the use of Mathematica software for visualization of concepts. Prerequisite: MA 111 or MA 150 or ACT sub-test of 22 in mathematics. (3)

MA 300. CALCULUS II. Area, definite integrals, Riemann Sums, differentiation and integration of transcendental functions, and techniques of integration. Prerequisite: MA 299. (3)

MA 301. CALCULUS III. Parametric equations, polar coordinates, and vectors. Partial differentiation, multiple integrals, indeterminate forms, and infinite series. Prerequisite: MA 300. (3)

MA 302. ELEMENTARY STATISTICS. Tabular and graphical representation of statistical data, measures of central tendency and variation, probability, sampling, statistical inference, confidence intervals, linear regression, and correlation. Prerequisite: MA 111 or MA 299. (3)

MA 303. CALCULUS IV. Differential calculus of functions of several variables; multiple integration, and vector calculus. Prerequisite: MA 301. (3)

MA 305. HISTORY OF MATHEMATICS. Historical investigation and presentation of the growth of mathematics knowledge and principles, including the historical development of African American men and women of mathematics and their contributions. Prerequisite: MA 300. (3)

MA 311. MODERN GEOMETRY I. Foundations of Euclidean geometry, metric and synthetic approaches, incidence betweenness, separation, congruence, similarity, and the role of the parallel postulate. Prerequisite: MA 299. (3)

MA 317. ANALYSIS I. Set theory, real numbers, mathematical induction and recursion, and functions. Limits of sequences and functions, Cauchy sequences, completeness, nested intervals, continuity, differentiation, mean value theorem, and 'Hospital's rule. Prerequisite: MA 301 (3)

MA 318. ANALYSIS II. Riemann integral, derivatives of integrals, mean-value and change of variable theorems. Convergence of infinite series, absolute and conditional convergence, comparison test, ratio test, power series, and Taylor series. Uniform convergence of series of functions and power series. Prerequisite: MA 317. (3)

MA 325. PROBABILITY AND STATISTICS I. Probability theory as applied to mathematical models of random events, independent and dependent events, numerical valued events, mean and variance of a probability law, normal and Poisson probability laws and random variable, and probability distribution functions. Prerequisite: MA 300. (3)

MA 331. LINEAR ALGEBRA I. Vectors in n-dimensions, vector spaces in real and complex fields, determinants, matrices and solutions to systems of linear equations, bases, linear transformations, similarity transformation, linear operators characteristics equation, eigenvalues, eigen functions of linear operators, and diagonalization of matrices. Prerequisite: MA 300. (3)

MA 332. LINEAR ALGEBRA II. Hermitian forms inner product spaces in real and complex vector spaces, orthogonal and orthonormal bases, Gram-Schmidt's orthogonalization process, dual and Euclidean spaces. Prerequisite: MA 331. (3)

MA 333. CONCEPTS OF MATHEMATICS III. Deductive reasoning points, lines, distance, rays, angles, angular measurements, bisector, congruent triangle, similar triangle, and overlapping triangle, transformations, reflections, translations, rotations, inequalities, exterior angle theorem, triangle side and angle inequalities, parallel and perpendicular lines, quadrilaterals, area, circles, chords, tangents, secants, regular polygons and geometric solids. Prerequisite: MA 111 or MA 299. (3)

MA 341. DISCRETE STRUCTURES. Elementary logic sets, relations, functions, ordering, equivalence relations, partitions, finite sets, module arithmetic; natural number, mathematical induction, arithmetic string, string programs, structured connectedness, traversals, and graph algorithms. Prerequisite: CS 205 or MA 299. (3)

MA 377. INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS. This course is designed to introduce students to spatial analysis techniques and issues, provide hands-on training in the use of these tools, and enable them to solve a variety of spatial and temporal problems. Emphasis will be placed on the nature of spatial information, spatial data models and structured, data input, manipulation and storage, spatial analytic and modeling techniques and error analysis. Prerequisite: Consent of instructor. (3)

MA 401. ABSTRACT ALGEBRA I. Sets, logic, induction, methods of proofs, Euclidean and division algorithms, basics of group theory, subgroups, cyclic groups, and direct products. Prerequisite: MA 300. (3)

MA 402. ABSTRACT ALGEBRA II. Symmetric groups, permutations, cosets, Lagrange's Theorem, homomorphisms, normal subgroups, rings, subrings, integral domain, and fields. Prerequisite: MA 401. (3)

MA 421. ORDINARY AND PARTIAL DIFFERENTIAL EQUATION I. Various integrals, separable equations, exact equations, linear first order equations, homogeneous equations, Bernoulli equation, and second order linear equations. Prerequisites: MA 300 and Instructor Approval. (3)

MA 275/475 INTERNSHIP. Internships providing students with real-life work-related experiences in the field of computer science and mathematics are valuable part of undergraduate education. Students may choose to satisfy requirements for computer science credits by completing a research internship in a qualifying position. Prerequisite (s): Mathematics or Mathematics Education Major. (3)

MA 451. SENIOR PROJECT IN MATHEMATICS. A comprehensive mathematics project with considerable detail to be completed under the supervision of a faculty member. Topics to be decided in consultation with the faculty member. Prerequisite: Senior Mathematics or Mathematics Education major. (3)

MA 452. METHODS OF TEACHING MATHEMATICS. This course is designed for secondary Mathematics majors. Emphasis is on developing teaching styles and gaining information on psychological and learning theoretical foundations for teaching mathematics. Teaching models and strategies are explored and modeled in class presentations. Students are required to plan lessons, micro-teach, and solve problems involving classroom management, and learning to develop relationships with school personnel and community. Prerequisite: ED 201 and MA 301. (3)

MA 491-MA 492. MATHEMATICS SEMINAR. Required of all senior mathematics majors each semester of the senior year. Methods of research, proofs, current trends and new discoveries, and group advisement on academic and vocational matters are explored. A panel-symposium-lecture-discussion format is employed. Presentations may be given by students, faculty, or guest speakers. Prerequisite: Senior Mathematics or Mathematics Education major. (1)

MASS COMMUNICATION-MC

MC 300. MULTIMEDIA WRITING. Media format-commercials, public service announcements, press releases, and other promotional copies. Also, fundamentals of writing feature articles with human interest for the media. (3)

MC 310. BASIC NEWS REPORTING AND WRITING. An introduction to the fundamentals of news gathering, writing, and reporting with emphasis on developing writing skills. (3)

MC 311. EDITING. Basic concepts in preparing copy for publications. Copy reading, editing, and writing headlines combined with practical training. (3)

MC 313. PHOTOJOURNALISM. Basic techniques of telling news by photographs without text to achieve maximum narrative effect. Lab materials fee: \$15. (3)

MC 315 A,B,C. RADIO-TELEVISION PRACTICUM. Students apply principles learned in their reporting classes to an actual newsroom environment involving gathering, writing, rewriting, producing, and reporting news and public affairs. Programs will be produced on WVSD (91.7 FM) and WVSD-TV (Channel 19) stations. (3)

MC 316 A, B, C. JOURNALISM PRACTICUM. Practical experience in print journalism through assigned work with campus publications. (3)

MC 320. RADIO PRODUCTION. Audio production techniques—recording, editing, and mixing of audio signals. Attention will be given to scripting of radio news and commercial copy. Students will acquire a reasonable level of competence in the operation of all control room equipment in the campus radio station. (3)

MC 325. INTRODUCTION TO MASS COMMUNICATION. A survey of mass media, including practices, history, and its place in society. (3)

MC 335. RADIO-TELEVISION ANNOUNCING. The fundamentals of radio and television announcing will be emphasized. Pronunciation and articulation along with learning how to speak with confidence will be the focus. (3)

MC 337. TELEVISION PRODUCTION I. Techniques and procedures in the creation and production of television programs: cameras, lenses, video switching, editing, lighting and color. This is studio production. Prerequisite: A minimum grade of “C” in MC 340. (3)

MC 340. ADVANCED NEWS REPORTING AND WRITING. Media news writing style, news copy mechanics and scripting formats, news gathering and reporting, newsroom organization and operation. Ethics lab hours included. (3)

MC 350. DIGITAL LAYOUT AND DESIGN. Professional practice in typographical production and design in editorial content and advertising with special attention to the various desktop publishing techniques in commercial use today. (3)

MC 360. RACE, GENDER, CLASS, AND MEDIA. How race, gender and class affect media practices. (3)

MC 400. PRINCIPLES OF ADVERTISING. Basic planning, design and copy preparation of ads in printed and broadcast media. (3)

MC 430. PUBLIC RELATIONS. Introduction to the theory and professional practice of public relations with emphasis on its function, process, public tools, media, research techniques, and professional ethics. (3)

MC 431. ADVANCED PUBLIC RELATIONS. Formulation of goals and strategies and multimedia communications; evaluation of effectiveness, and budget preparation. Case studies and field project are used. (3)

MC 435. COMMUNICATION IN DIVERSE SOCIETIES. Communication practices in a variety of cultures. (3)

MC 437. TELEVISION PRODUCTION II. Theory and techniques of Electronic New Gatherings (ENG) for television, and students will learn how to write television scripts and have experience in all phases of producing and editing. Prerequisite: A minimum grade of “C” in MC 337. (3)

286

MC 440. PUBLIC RELATIONS RESEARCH. A detailed analysis and application of research methods and practices used in public relations. Offered alternate years. (3)

MC 442. PUBLIC RELATIONS CAMPAIGNS. A hands-on course with clients for whom the students design public relations campaigns. Offered alternate years. (3)

MC 444. MASS MEDIA LAW AND ETHICS. Legal rights and responsibilities of the mass media and the public. Defamation (libel and slander), free press and fair trial, right of privacy, commercial speech regulations, and ethical issues in the media are discussed. (3)

MC 450. SENIOR PROJECT. Guided research for senior project, including a survey of research methods and simple statistics used in communication. Culminate in students writing a senior project paper with the help of a senior project adviser. (3)

MC 450I. INDEPENDENT STUDY. Supervised readings and/or study on subject matter or course not offered during the current semester. Prerequisite: Consent of instructor and department chair. May not be taken more than two times during a student’s curriculum. (3)

MC 460. INTERNSHIP. Practicum course combining classroom theories with hands-on experience in an off-campus facility—radio, television, or newspaper or in public relations or in speech communication. Recommended for all communication majors. For details, consult departmental brochure or department chair. (3)

MUSIC- MU

MU 100. INTRODUCTION TO APPLIED MUSIC. This introductory course provides basic instruction in applied music study for voice, instrumental, and keyboard. (2)

MU 101 and MU 102. APPLIED MUSIC. Individual instruction in instrumental or vocal performance. Prerequisite: Music major or permission of instructor. (2)

MU 101 and MU 102. ENSEMBLE. Band or choir. (1)

MU 107. MUSIC APPRECIATION. This course is designed to familiarize students with representative masterworks of Western Art Music through the development of skills in listening, analyzing, and describing such music. Prior knowledge and/ or experience with music is NOT expected. The course will cover basic concepts of music and an overview of major historical style periods of Western Art Music. (3)

MU 111 and MU 112. ENSEMBLE. Woodwind, brass, percussion ensemble or jazz band. (1)

MU 120. BASIC MUSIC SKILLS. Experiences in music fundamentals and ear training for freshmen who lack the background necessary for Theory I. (3)

MU 121. THEORY I. An introduction to music fundamentals with emphasis placed on part writing, analysis, sight singing, and melodic dictation. (3)

MU 122. THEORY II. An integrated study and appreciation of tonality. Course includes the principals of voice leading, root position, part writing, harmonic progression, triads in first and second inversion, cadences, more complex melodic dictation, harmonic dictation, and sight singing. Prerequisite: MU 121. (3)

MU 141, MU 142. PIANO CLASS. Development of keyboard, and improvisational skills. (2)

MU 191 and MU 192. MUSIC SEMINAR. These courses acquaint freshman majors with the University's programs and regulations, and feature music lectures, performances, and demonstrations. In addition, each B.M.E. student must tutor a peer/major in an applied area, or teach music for one hour per week at the MVSU Preschool. Each student must also observe a choral or band director for one hour per week at a local elementary or high school. B.A. students will research professional source materials related to the music field. (1)

MU 201 and MU 202. APPLIED MUSIC. Individual instruction in instrumental or vocal performance. Prerequisite: Music major or permission of instructor. (2)

MU 201 and MU 202. ENSEMBLE. Band or choir. (1)

MU 211 and MU 212. ENSEMBLE. Woodwind, brass, percussion ensemble or jazz band. (1)

MU 221. THEORY III. An integrated study and appreciation of tonality. Course includes small part form, non-chord tones, diatonic seventh chords, secondary function triads and chords, common chord modulation, composition, melodic and harmonic dictation, and sight singing. Prerequisite: MU 122. (3)

MU 222. THEORY IV. An integrated study and appreciation of tonality. Course includes modulation, an introduction to binary and ternary forms, mode mixture, the Neapolitan chord, augmented sixth chords, composition, as well as melodic and harmonic dictation and sight singing. Prerequisite: MU 221. (3)

MU 223. DICTION FOR SINGERS. The primary objective of this course is to help students understand the dynamics of effective vocal production and articulate speech and to improve their own singing skills. (2)

MU 281. PRINCIPLES OF AUDIO I. Examines basic audio concepts, fundamental signal flow of a recording console and technologies used in audio production; a study of microphones design and techniques used for recording acoustic instruments. (3)

MU 282. PRINCIPLES OF AUDIO II. Fundamentals of analog and digital audio; recording console signal flow; principles of signal processing: echo, delay, compression, reverberation, equalization and other effects; hands-on experiences recording different instruments, vocalists, and small wind and brass ensembles. Prerequisite: MU 281 with a minimum grade of C. (3)

MU 291 and MU 292. RECITAL ATTENDANCE. Required attendance at all departmental concerts and Lyceum musical events. (0)

MU 301 and MU 302. APPLIED MUSIC. Individual instruction in instrumental or vocal performance. Prerequisite: Music major or permission of instructor. (2)

MU 301 and MU 302. ENSEMBLE. Band or choir. (1)

MU 311 and MU 312. ENSEMBLE. Woodwind, brass, or percussion ensemble or jazz band. (1)

MU 320-321. MUSIC COMPOSITION. The objective of this course is to encourage individual creative language while exposing the students to contemporary techniques of music composition. (2)

MU 322. ORCHESTRATION/BAND ARRANGING. Arranging and analyzing musical scores. This course will explore all families of instruments, their ranges and timbres. Students will gain experience in arranging, idiomatic notation, score/part preparation, and increase their familiarity with the standard orchestra and band literature. Prerequisite: MU 323. (3)

MU 323. FORM AND ANALYSIS. An intermediate level course on form and structure in music. Topics include phrase structures and grouping, simple part forms, composite part forms, rondo, variation forms, fugue, sonata form, multi – movement form, and composition. Prerequisite: MU 222. (3)

MU 331. MUSIC HISTORY AND LITERATURE I. A study of the development of music in western civilization from antiquity to the Baroque, including recognition of the influences shaping the course of music and the lives of composers. (3)

MU 332. MUSIC HISTORY AND LITERATURE II. A study of the development of music in western civilization from classical to the present, including recognition of the influences shaping the course of music and the lives of the influences shaping the course of music and the lives of composers. Prerequisite: MU 331. (3)

MU 340. MODERN MUSICAL FORM. Primary focus is on form in popular music from the 20th Century to present. This includes harmonic, melodic, and stylistic characteristics of popular music as well as the study of the Nashville Numbering System. Prerequisite: MU 122. (2)

MU 341. ELEMENTARY STRINGS. Elementary performance of violin, viola, cello, and string bass. (2)

***MU 343. MUSIC METHODS AND MATERIALS IN ELEMENTARY SCHOOLS.** The role of the special music teacher and consultant in the elementary schools. (3)

***MU 344. MUSIC METHODS AND MATERIALS IN SECONDARY SCHOOLS.** Analysis of the secondary music program; emphasis on the general music class. (3)

***MU 345. BAND TECHNIQUES.** Scoring for marching band, arranging field shows, purchasing equipment, organizing the band library and learning public relations procedures. (2)

MU 346. VOICE CLASS. A practical introduction to the technical problems involved in the proper use of the voice in singing and teaching of singing. This course is designed for instrumental music majors and beginning non-music majors. (2)

***MU 347. MUSIC METHODS AND MATERIALS FOR TEACHING FINE ARTS IN THE ELEMENTARY SCHOOL.** Materials and methods for teaching music in the elementary grades; a review of fundamentals, study of rhythm, and singing. Prerequisite: MU 107. (3)

MU 351. SOUND DESIGN. Advance practice in sound synthesis, software/hardware sampling, sound sample libraries, integration of different computer platforms and its use in professional studio recording. (2)

***MU 352. INSTRUMENTAL METHODS AND MATERIALS.** Selection and use of suitable instructional materials. (3)

***MU 353. CHORAL METHODS AND MATERIALS.** Choral rehearsal techniques. (3)

MU 360. MISSISSIPPI BLUES HISTORY: This course will cover Mississippi Blues history from 1900 to present, identifying Mississippi geography, musicians, recordings, writings, interviews, and performances. (3)

MU370. CLASS GUITAR. Class guitar is designed to develop an entry-level understanding of basic guitar technique. Students will begin to learn an understanding of notation, lead sheet symbols, improvisation, and simple chord construction. It is recommended that students have their own guitar. (3)

MU 381. MIXING TECHNIQUES AND LAB I. This course explores the practical application of mixing techniques used in modern production. Prerequisite: MU 282 with a minimum grade of C. (3)

MU 382. MIXING TECHNIQUES AND LAB II. Advanced mixing techniques via in-class faculty demonstrations and student participation emphasizing professional industry standards, including an introduction to automation and sophisticated digital reverberation devices and mixing library tapes and production of student projects. Prerequisite: MU 381 with a minimum grade of C. (3)

MU 391 and MU 392. RECITAL ATTENDANCE. Required attendance at all departmental concerts and Lyceum musical events. (0)

MU 401 and MU 402. APPLIED MUSIC. Individual instruction in instrumental or vocal performance. Prerequisite: Music major or permission of instructor. (2)

MU 401 and MU 402. ENSEMBLE. Band or choir. (1)

MU 411 and MU 412. ENSEMBLE. Woodwind, brass, or percussion ensemble or jazz band. (1)

MU 420 and MU 421. MUSIC COMPOSITION. Composition of original works in a variety of media. (2)

MU 426. WIND, STRING, AND PERCUSSION. This course is designed for vocal and keyboard students to acquire performance experience with wind, string, and percussion instruments. (3)

MU 428. INTRODUCTION TO COMPUTER MUSIC. Basic techniques of electronic composition, including use of the MIDI synthesizer, sequencing, and familiarity with appropriate software. (3)

MU 432. SURVEY OF TWENTIETH-CENTURY. Techniques, styles and innovations, and trends in music since the turn of the century. (2)

MU 440. PIANO PEDAGOGY. Methods and techniques of teaching piano, including individual and group instruction. (2)

MU 441. INSTRUMENTAL CONDUCTING. Baton techniques for instrumental ensembles; performances, analysis, and evaluation of literature. A conducting project is required. (3)

MU 442. CHORAL CONDUCTING. The purpose of this course is to develop skills in the fundamentals of choral conducting. Topics to be addressed include baton/gesture techniques, literature, repertoire, diction, methods, and rehearsal procedures. (3)

MU 446. BRASSWIND. Class introduction of brass instruments. (2)

MU 447. WOODWIND. Class introduction of woodwind instruments. (2)

MU 448. PERCUSSION. Class instruction of percussion instruments. (2)

MU 450. SENIOR RECITAL. Recital and research project presented by music majors. (1)

MU 491 and MU 492. RECITAL ATTENDANCE. Required attendance at all departmental concerts and Lyceum musical events. (0)

** These courses include a period of field observation and practicum in the local schools.*

ORGANIZATIONAL MANAGEMENT

OM 310. THE ADULT JOURNEY. This module is specifically designed as the first module in the degree completion program sequence. As such, it has a dual purpose. Academically, it presents both classic and contemporary adult development lifespan theory while linking these concepts to individual experience through assessment and reflection. From an instructional design standpoint, this module provides the foundations for cohort development and lifelong writing skills to be utilized throughout the degree completion program. (3)

OM 320. GROUP AND TEAM DYNAMICS. This module is a study of group and team behavior and how group functioning affects organizational effectiveness. Emphasis is placed on decision making and resolving conflict in groups. Learners develop strategies for efficient and productive group management, and determine which tasks groups or individual handle. (3)

OM 330. ORGANIZATIONAL BEHAVIOR. Learners examine the formal and informal functions of organizations and analyze an agency or organization based on a systems model. Learners will also analyze and solve organizational problems using a step-by-step method. This analysis will be applied to learners' work-related projects. (3)

OM 340. BUSINESS COMMUNICATIONS. This module investigates communication and relationships in creating a productive work environment. Effectiveness in personal and social relationships is also covered through readings and exercises concerning nonverbal communication, constructive feedback, dealing with anger, and resolving conflicts. Learners develop a model for effective relationships. (3)

OM 350. ECONOMICS FOR MANAGERS. This module focuses upon the principles of economics, both micro and macro, as they need to be understood and used by managers and supervisors in all fields. This survey of the field, will allow managers at every level, and in every type of organization, to understand and be able to use the principles of economics to aid in making sound decisions. (3)

OM 360. MANAGEMENT PRINCIPLES. Adult learners will examine the foundations and traditional approaches of management principles: planning, organizing, leading, and controlling. This incorporates the elements of delivering strategic value, building a dynamic organization, mobilizing people, and learning and changing. Leadership and collaboration is integrated with direct applications to the individual and group functioning in today's business environment. (3)

OM 370. ACCOUNTING FOR MANAGERS. In this module, the adult learner will build on the fundamentals covered in earlier, introductory accounting courses. Topics covered at the introductory level will be taken to a greater depth and new dimensions will be added. Also, new topics will be introduced and explained. Adult Learners will be challenged to develop relevant accounting-related skills and to integrate accounting knowledge with broader management issues. (3)

OM 380. HUMAN CAPITAL MANAGEMENT. Learners explore the values and perceptions of selected groups affecting social and economic life through analysis of policies and practices of recruitment, selection, training, development and compensation of employees. Special attention is given to Equal Employment Opportunity and Office of Safety and Health Administration legislation through a series of case studies and simulations. (3)

OM 410. MARKETING FOR MANAGERS. Through assigned readings, case studies, Web-site connections, class discussion, writing assignments and the team project, adult learners will be exposed to basic marketing theory and terminology. They will be given the opportunity to apply these principles and concepts to real worked, domestic and international situations. This exploration provides adult learners with an appreciation of the role of marketing in organizational strategic planning; an awareness of how customer behavior and decision data are collected and analyzed in the marketing planning process; and the confidence to participate with other organizational members to "connect with customers" in a variety of effective and meaningful ways. (3)

OM 420. FINANCE FOR MANAGERS. This module in corporate finance first covers the organization- wide use

of financial planning within the firm. The adult learner will explore the financial tools available for planning and analysis, as well as how those tools are utilized to manage cash flows and financial resources, and to evaluate future investment opportunities. Next, three primary topics in corporate finance will be developed. These topics include the importance of short-term finance for current operations; the use of capital budgeting tools for investment analysis and the foundation of long-term finance for defining the organization's cost of capital and optimal capital structure. (3)

OM 430. BUSINESS ETHICS AND INDIVIDUAL VALUES. This is a module in which the learner formulates a philosophy of life, providing the base for such concerns as ethics in business, accountability in government, respect for human rights, and responsible lifestyle in our contemporary world. Ethical theories and personal values are examined through readings, analysis of the workplace, and classroom discussion. (3)

OM 440. DOMESTIC BUSINESS ISSUES. This module presents an analysis of major contemporary social problems, especially in the United States. Particular attention is given to the problems of poverty, racism, sexism, drug and alcohol abuse, and illiteracy, and their impact on the contemporary workplace. Consideration is given to diverse sociological perspectives regarding the causes, consequences; and solutions to these problems. (3)

OM 450. GLOBAL BUSINESS. Recognizing that today's college graduates will live in a world that is economically, politically, and environmentally connected, this module seeks to challenge learners to think beyond their immediate surroundings and see themselves as part of a large human community. The module focuses on the complex global, intercultural, and cross-cultural issues that graduates will face as citizens of a global and an interdependent world. (3)

OM 460. STRATEGIC MANAGEMENT. This module introduces adult learners to various management planning models and techniques and applies these to actual business cases. It stresses the concepts of strategic planning and strategic management. This is the Organizational Management Capstone Course. (3)

OM 470. RESEARCH METHODS AND STATS. This module will provide an overview of the research process and research methods for management and business learners in the Organizational Management program who are required to complete an independent research project in their workplaces to fulfill degree requirements. It will include how to identify and define a problem suitable for such research, how to find information and literature sources related to the defined problems and how to evaluate and utilize identified sources. Learners will use Microsoft Excel Spreadsheets. Problem analysis and evaluation techniques are presented. Learners are shown methods for defining, researching, analyzing and evaluating a problem they would solve in their work or a vocational environment. Specific statistical information covered in the module includes identifying and measuring objectives, collecting data, working with significance levels, analyzing variance, and constructing questionnaires. (3)

OM 480. BUSINESS APPLICATION PROJECT. Each learner combines his/her research and practical implementation of theories and concepts and develops an individual project. The project examines a problem in a learner's occupation. The learner's project is written and orally presented to the instructor and the learning group. (3)

PUBLIC ADMINISTRATION-PA

PA 101. INTRODUCTION TO PUBLIC ADMINISTRATION. An overall view of the principles of administration in the field of public management. (3)

PA 102. PRINCIPLES OF COMMUNITY DEVELOPMENT LEADERSHIP. The fundamentals of leadership and the different concepts and approaches to community development, including issue formation, conflict resolution, collective responsibility and asset building. (3)

PA 201. ETHICS FOR PUBLIC SERVICES. Professional codes of ethics, and examination of acceptable ethical behavior in public service. (3)

PA 301. PUBLIC PERSONNEL ADMINISTRATION. The development of national, state, and local civil service: the merit system, problems of selection, classification, promotion, service rating, discipline and retirement. (3)

PA 317-A. INTERNSHIP. Students will be placed in a national, state or local agency or any other public organization to work on assigned administrative tasks. The instructor will be responsible for the final grade. (3)

PA 317-B. SPECIAL PROJECT. This can be taken as a substitute for an internship. A major research paper on current problems in Public Administration. The paper will be supervised by a professor and/or defended by the student. (3)

PA 401. ORGANIZATIONAL THEORY AND PRACTICE. Analysis of the role of organization in the contemporary society with particular emphasis on decision making in governmental organizations. (3)

PA. 403. PUBLIC POLICY DEVELOPMENT. Analysis of the motives of Government decision- making, elaboration of policy making process, investigation of the problems of policy formulation, and measurement of outcomes. (3)

PA 404. PUBLIC FINANCE AND FISCAL POLICY. Effects of government spending and taxation on resources, income, prices and employment: major taxes employed at the national, state and local government levels, and emphasis on current policy problems. (3)

PA 406. ADMINISTRATIVE LAW. Delegation of powers, elements of fair administrative procedures, and judicial control over administrative determination. (3)

PA 407. COLLECTIVE BARGAINING IN THE PUBLIC SECTOR. Collective bargaining in the public sector, limits on collective bargaining, grievance and impasse procedures, scope, and conduct of collective negotiations. (3)

PA 411. GRANTSMANSHIP. This course is designed to provide students with instruction in resource development (finding grant sources), writing grants, developing grant budgets and evaluating grant proposals and programs. Students will be expected to work on sample proposals. (3)

PA 412. CONFLICT MANAGEMENT AND RESOLUTION. Exploration of the ethical and practical philosophy and methodology which provides greater self confidence in dealing with conflict. Some of the topics to be covered include: the philosophy of conflict resolution, building relationships by reducing the risk of conflict, and skills practice opportunities in different conflict scenarios. (3)

PA 413. LEADERSHIP THEORY. A focus on historical and philosophical aspects of leadership theory as well as on personalized models for students' future leadership roles. Other emphasis include the importance of vision and values in the leadership process and development of analytical and communication skills. (3)zzzz

PA 415. INDEPENDENT STUDY. Supervised readings in Public Administration and/or study of a subject matter or course not offered during the current semester. Prerequisite: Consent of instructor and program director/coordinator.

PA 418. SPECIAL TOPIC IN PUBLIC ADMINISTRATION. Study of a specific subject matter in Public Administration. (3)

PHYSICAL EDUCATION-PE

PE 102-PE 103. CONCEPTS OF PHYSICAL EDUCATION. This is a survey course required of all freshmen with emphasis on physical fitness, knowledge, skill and appreciation requisite to an active life style. It includes fitness testing, calisthenics, rhythmic activities, and individual and team sports. (2)

PE 108. BEGINNING SWIMMING. Emphasizes fundamental swimming skills which include the American crawl, back crawl, side stroke, and elementary back stroke. (2)

PE 109. INTERMEDIATE SWIMMING. Instruction and laboratory experience in intermediate swimming. Prerequisite: PE 108 or its equivalent. (2)

PE 110. ADVANCED SWIMMING AND WATER SAFETY. Designed to give the student additional swimming practice and training. Students who successfully meet and perform the standards as required by the American Red Cross may receive the Water Safety Instructor's Certificate. (W.S.I.). (2)

PE 120. STRENGTH TRAINING. Knowledge and application of principles of strength training with particular emphasis on specificity of program design. (2)

PE 122. AEROBIC CONDITIONING. Designed to provide the student with the opportunity to improve cardiovascular fitness and to gain necessary knowledge to develop a personal aerobic program. (2)

PE 201. INDIVIDUAL AND DUAL SPORTS. Affords opportunity to develop knowledge and skill in individual and dual sports and games. Additional emphasis is placed on methodology of teaching. Twenty hours of practicum are required. (3)

PE 204. FOUNDATIONS OF HEALTH, PHYSICAL EDUCATION, AND RECREATION. A survey of the history, principles and philosophies that influence programs and practices in the Health, Physical Education, and Recreation professions. Twenty hours of practicum are required. (3)

PE 205. MOTOR DEVELOPMENT. A study of the basic concepts of motor development. Twenty hours of practicum are required. (3)

PE 208. RHYTHMS (K-12). Rhythmic activities designed for K-12 students. (3)

PE 301. METHODS IN PHYSICAL EDUCATION IN ELEMENTARY SCHOOL (K-6). An analysis of effective methods and current practices in teaching health and physical education in the early years. Twenty hours of practicum are required. (3)

PE 302. PRINCIPLES AND PHILOSOPHY OF PHYSICAL EDUCATION. A study of the origin and development of physical education philosophies and the trends, objectives, and principles of physical education. (3)

PE 303. PHYSIOLOGY OF EXERCISE. Basic physiological principles of human responses to exercise. Science-intensive course. Prerequisite: BI 301. (3)

PE 307. ADAPTED PHYSICAL EDUCATION AND RECREATION. Emphasizes the principles and practices involved in providing activities for individuals who have disabilities or temporary limitations and cannot participate in or benefit from the regular activity program. Twenty hours of practicum are required. (3)

PE 308. TEAM SPORTS. Affords the opportunity to develop knowledge and skill in team sports. Additional emphasis is placed on methodology of teaching. Twenty hours of practicum are required. (3)

PE 311. ORGANIZATION AND ADMINISTRATION OF HPER. Designed to familiarize the students with factors involved in the administration of sport, health, physical education, and recreation programs. (3)

PE 320. BADMINTON. Fundamental strokes, footwork and playing techniques, rules and court play for singles and doubles. (2)

PE 321. TENNIS. Fundamental strokes, footwork, playing techniques, and the rules and etiquette of tennis. (2)

PE 322. ARCHERY. Theory and practice in teaching and coaching archery. (2)

PE 323. TRACK AND FIELD. Coaching theory and practice of track and field. (2)

PE 324. GOLF. Develops methods and skills necessary to teach and coach golf. (2)

PE 325. SCIENTIFIC PRINCIPLES OF COACHING FOOTBALL. Theoretical study of football fundamental systems of defensive and offensive play, rules, and signal methods. (2)

PE 326. SCIENTIFIC PRINCIPLES OF COACHING BASKETBALL. Designed to teach theory and practice in the coaching of basketball. (2)

PE 327. SCIENTIFIC PRINCIPLES OF COACHING BASEBALL. Theoretical study of baseball fundamentals. Included are forms in throwing, batting, sliding, and study of different positions and team play. (2)

PE 402. MEASUREMENT, EVALUATION AND ASSESSMENT IN HPER. Methods and techniques of measuring, appraising, assessing student performance in terms of objectives, and various types of tests employed in the field. Students are required to construct, administer, and analyze results of a knowledge test. Students must select, administer, and analyze test results of physical performance or motor skill. Hand calculators and computer programs are utilized. (3)

PE 403. METHODS IN PHYSICAL EDUCATION (K-12). Analysis of effective methods and current practices in teaching physical education classes. Practical experience in planning, instructing and evaluating is required. Writing- intensive course. Twenty hours of practicum are required. Prerequisite: senior status. (3)

PE 405. RESEARCH SEMINAR. Designed to analyze the pros and cons related to crucial issues in the field of Health, Physical Education and Recreation. Writing intensive course. (3)

PE 406. KINESIOLOGY. Designed to acquaint students with concepts of structural kinesiology and muscle physiology relevant to learning motor skills and scientific study of movement. Prerequisite: PE 303. (3)

PE 420. ADVANCED STRENGTH AND CONDITIONING. Designed to bridge the gap between clinical exercise and related course work. Emphasizes practical application of skills of personal training. Students learn to properly screen and evaluate clients for safe participation in an exercise program and design and implement exercise prescriptions for diverse populations. (3)

PE 430. BIOMECHANICS OF MOTOR PERFORMANCE. Basic biomechanical principles as they relate to human movement and movement analysis. (3)

PE 431. SOCIO-PSYCHOLOGY OF EXERCISE AND SPORT. Basic sociological and psychological principles related to sport and exercise. Special emphasis placed on the interrelationships between self- efficacy, motivation, and participation and their effects on selection and involvement in physical activities. (3)

PE 445. CARE AND PREVENTION OF ATHLETIC INJURIES. Training in the care and prevention of athletic injuries; physical conditioning, diet, medication, bandaging, and physician-coach training relationships. Practical experience in the use of therapeutic equipment is also a part of the training. (3)

PE 451. ADVANCED DANCE. Designed to further the knowledge of dance acquired in Rhythms PE 208. (3)

PHYSICS– PH

PH 211. GENERAL PHYSICS I. Statics, dynamics, hydrostatics, kinetic theory and gas laws are introduced. Astronomy, properties of matter, heat and thermodynamics, sound and wave motion are also introduced. Prerequisites: MA 111 and MA 112. (4)

PH 212. GENERAL PHYSICS II. Electrostatics, electrodynamics, alternating current, magnetism, geometric and physical optics, special theory of relativity, and modern physics are taught. Prerequisite: PH 211. (4)

PRE-LAW/LEGAL STUDIES-PL

PL 101. INTRODUCTION TO LEGAL STUDIES. This course offers a basic introduction to the American Legal System focusing on the types of law to which people in the United States have access through the judiciary and which governs their relations among one another. The course will survey constitutional law, criminal law and civil law. Where appropriate, the course will balance its focus on the operation of the contemporary American legal system with background in legal history, philosophy of law and comparative legal systems.

POLITICAL SCIENCE-PS

PS 106. LEGAL ADVOCACY AND CRITICAL REASONING I. This course allows students to develop elementary and advanced skills in legal advocacy and critical reasoning through participation in mock trial or moot court competition. The course is open to all students without prerequisites, but students will be graded by skill level taking into account previous mock trial or moot court experience. (3)

PS 201. AMERICAN NATIONAL GOVERNMENT AND POLITICS. This course surveys the basic structures and processes of American Government and politics. Course coverage includes Congress, the Presidency, the courts system, federalism, parties and pressure groups, campaigns and elections, public opinion, and public policy analysis. (3)

PS 205. INTRODUCTION TO POLITICAL SCIENCE. This course examines the approaches, concepts and methods, basic policy issues, and debates about the discipline of Political Science. The course covers key concepts such as power and citizenship. Instruction includes lectures and discussion, but also emphasizes active learning strategies. Along with a cognitive grasp of key political concepts and information, students should leave the course with skills and dispositions that promote effective citizenship. (3)

PS 206. LEGAL ADVOCACY AND CRITICAL REASONING II. This course allows students to develop elementary and advanced skills in legal advocacy and critical reasoning through participation in mock trial or moot court competition. The course is open to all students without prerequisites, but students will be graded by skill level taking into account previous mock trial or moot court experience. (3)

PS 210. LEGISLATIVE PROCESSES. This course focuses on the study of legislative membership and processes with emphasis on Congress. Students in the course will learn the rules and procedures for making laws, how legislatures make law, and effective techniques for influencing legislative behavior. (3)

PS 216. STATE AND LOCAL GOVERNMENT AND POLITICS. This course analyzes political structures, processes and practices at the state and local levels, and examines state and local governments in the context of the federal system. Students should leave the course with a better understanding of how legislative, executive, and judicial agencies operate at sub-national levels, and how they, as citizens, can influence state and local government and politics. (3)

PS 306. LEGAL ADVOCACY AND CRITICAL REASONING III. This course allows students to develop elementary and advanced skills in legal advocacy and critical reasoning through participation in mock trial or moot court competition. The course is open to all students without prerequisite, but students will be graded by skill level taking into account previous mock trial or moot court experience. (3)

PS 321. COMPARATIVE GOVERNMENT AND POLITICS. This course teaches students elemental approaches and techniques for comparing and contrasting political systems and processes in major western and non-western nation states. Students will explore some specific case studies of political systems outside the United States to illustrate these approaches and techniques. (3)

PS 330. INTERNATIONAL ORGANIZATIONS. This course examines international organizations and how they affect relations among nation-states. Examples of organizations include formal international organizations such as the United Nations (UN), treaty organizations such as the North Atlantic Treaty Organization (NATO), regional organizations such as the European Union (EU), and international nongovernmental organizations (INGOs) like Amnesty International. (3)

PS 331. LATIN AMERICAN GOVERNMENT AND POLITICS. This course analyzes the political cultures, political behavior, and government structures in selected Latin American nation-states. The course focuses on the key literature in political science that has shaped the understanding of Latin American politics in the past, as well as the principal issues that are defining the current analysis of the region. (3)

PS 349. CONSTITUTIONAL LAW. This course focuses on the Supreme Court's interpretation of judicial review, federalism, and executive and Congressional power. Students will be asked to review and brief key court opinions pertaining to these topics. Students will also explore the political background of these opinions. (3)

PS 350. CONSTITUTIONAL LAW II. This course focuses on the Supreme Court's interpretation of civil liberties and civil rights. Students will be asked to review and brief key court opinions pertaining to these topics. Students will also explore the political background of these opinions. (3)

PS 355. POLITICAL PHILOSOPHY I. This course involves the review of key works in Ancient and Medieval political philosophy. Students read full texts by authors such as Sophocles, Aristophanes, Plato, Aristotle, St. Augustine and St. Thomas Aquinas. Students interpret and evaluate these writings through essays and performances. Students should leave the course with a better understanding of both those aspects of Ancient and Medieval political thought that have shaped contemporary life and those aspects that have been abandoned. (3)

PS 356. POLITICAL PHILOSOPHY II. This course examines modern political thought from Machiavelli to Nietzsche. Students explore the continuities and breaks with previous eras by analyzing the concept of modernity and how it is exhibited in a range of authors such as Machiavelli, Hobbes, Locke, Rousseau, Mill, Kant, Marx, and Nietzsche. After taking this course, students should have a better understanding of how modern conceptions of political life have been formed and the challenges that those conceptions entail. (3)

PS 362. POLITICAL PARTIES AND PRESSURE GROUPS. This course examines the development, structure, and role of parties and pressure groups in the United States and in other countries. Students should learn the distinctions among various kinds of parties and pressure groups. They should also learn what strategies and tactics are most effective in specific contexts. (3)

PS 363. POLITICS OF MARGINALIZED GROUPS. This course examines cultural differences and political activities of reference groups in the United States and in other countries. Reference groups (for example, ethnic, gender and racial groups) are groups that create and sustain a sense of political identity. They are frequently pushed to the margins of social, political, civic, and economic life. The course explores the processes of marginalization and the potential remedies that marginalized groups have deployed to address being pushed to the margins. (3)

PS 364. BLACK POLITICS. This course offers a concentrated examination of black politics. It focuses on the role of black politics and its importance to the nation, and the region. The course explores the strategies and tactics that have been used to promote the political aims of Black people in the United States. (3)

PS 365. JUDICIAL PROCESS. This course examines the organization of American courts, their role in our society, the processes through which judges act, and their influence on politics and society. It examines the structural conditions for judicial action including both judicial rules and the extra-judicial institutions that enable and constrain judicial action. It also addresses the political strategies, tactics, and movements that seek to influence

judicial behavior. (3)

PS 366. WOMEN IN POLITICS (Gender, Power, and Politics). This course explores women's political movements, public policies which affect the relative status of women and men, the role of women in electoral politics, and how ideas about gender have shaped political life. (3)

PS 375. HUMAN VALUES, MORAL REASONING, AND WAR. This course studies the ethics of modern warfare. Students in the course will learn about the major theories of ethical behavior in war including pacifism, *realpolitik*, and just war theory. The bulk of the course is devoted to exploring the possibility of a successful theory of just war governing a range of issues including nuclear war, terrorism, reprisals, and humanitarian interventions. (3)

PS 396. SPECIAL TOPICS. This course involves research and intensive writing on selected topics in political science. The instructor focuses on a topic in political science that is not covered in depth in another course. (3)

PS 397. SPECIAL TOPICS. This course involves research and intensive writing on selected topics in political science. The instructor focuses on a topic in political science that is not covered in depth in another course. (3)

PS 398. SPECIAL TOPICS. This course involves research and intensive writing on selected topics in political science. The instructor focuses on a topic in political science that is not covered in depth in another course. (3)

PS 399. SPECIAL TOPICS. This course involves research and intensive writing on selected topics in political science. The instructor focuses on a topic in political science that is not covered in depth in another course. (3)

PS 406. LEGAL ADVOCACY AND CRITICAL REASONING IV. This course allows students to develop elementary and advanced skills in legal advocacy and critical reasoning through participation in mock trial or moot court competition. The course is open to all students without prerequisites, but students will be graded by skill level taking into account previous mock trial or moot court experience. (3)

PS 412. AMERICAN POLITICAL THOUGHT. This course is a survey of American political thought, pre-1776 to the present. The course covers a variety of figures during the colonial, revolutionary and national phases of American history. Students explore both original texts by American political thinkers and commentaries on those texts. The course aims to set these texts in their political and historical context while also considering their enduring significance. (3)

PS 415. AMERICAN CHIEF EXECUTIVE. This course explores the office of the President and the executive branch of the U.S. government. The course sets the President in context as the head of the largest branch of government. The course distinguishes the President's actions within the executive branch by examining various roles such as that of the Commander in Chief of the armed forces. The course examines the President's relationship with the other two branches. The course also examines electoral politics. (3)

PS 418. PUBLIC OPINION. This course examines public opinion formation, measurement, and change, and the impact of public opinion on the political process. Using a variety of approaches, the course explores key questions: What is public opinion? Where does it come from? How does it change? What does it matter? (3)

PS 420. THIRD WORLD DEVELOPMENT AND INTERNATIONAL SECURITY. This course examines the concept of development, its use in political research, and the involvement of developing nations in international security issues. The course balances an examination of different theoretical interpretations of "development" with a review of empirical studies that support and critique these theories. (3)

PS 426. ENERGY STRATEGIES IN THE TECHNOLOGICAL AGE. This course involves an analysis of resource endowment, extraction, values, trading usages, and national policies, and ties these considerations to contemporary debates and analyses of issues such as global warming, energy independence, and global resource inequities. (3)

PS 430. POLITICAL GEOGRAPHY. This course analyzes distribution and relationships among populations, land, regions, cultures, and governments. The course explores how broad political patterns play out over space and place. Students will learn the key concepts, themes, and debates in political geography and the linkages between space, place, and politics. Students will also come to understand the processes behind major contemporary issues and applying political geographic analytical methods. (3)

PS 460. GOVERNMENT AND POLITICS OF THE MIDDLE EAST. This course explores governmental structures, political process and international politics in the Middle East. Students will apply the approaches and methods of comparative government and politics to groups of nation states, and specific nation states in the region. (3)

PS 462. GOVERNMENT AND POLITICS OF SUB-SAHARAN AFRICA. This course explores governmental structures, political process, and international politics of selected African nations. Students will apply the approaches and methods of comparative government and politics to groups of nation states and specific nation states in the region. (3)

PS 466. GOVERNMENT AND POLITICS OF THE FAR EAST. This course explores governmental structures, political process, and international politics in Asian political systems with emphasis on China and Japan. Students will apply the approaches and methods of comparative government and politics to groups of nation states and specific nation states in the region. (3)

PS 471. INTERNATIONAL RELATIONS. This course studies the relations among nations. It treats theoretical approaches, case studies, and current events. The course will require students to exhibit the ability to apply and evaluate competing theories with reference to supporting empirical evidence. (3)

READING-RD

RD 214. EARLY LITERACY I. This course focuses on concepts, materials and teaching strategies for oral language development and systematic early reading and writing instruction. Emphasis will be placed on literacy through speaking, reading and writing. Candidates will be expected to learn to speak using academic language (Standard English) so that it will be modeled within the classroom. The relationship of language to reading and writing will be explored and the research related to the importance of appropriate language use as a foundation for teaching reading will be discussed. Basic skills in reading and writing techniques will be included as well. Prerequisite: Completion of 45 hours of General Education course work. (3)

RD 303. EARLY LITERACY II. This course is a continuation of Early Literacy I and focuses on the continued development of spoken language and reading with emphasis on the concepts, materials, and teaching strategies for teaching appropriate oral language development and early systematic reading and writing instruction specific to vocabulary, fluency, and comprehension. Prerequisite: RD 214, ED 380, and admission to Teacher Education. (3)

RD 310. INTRODUCTION TO LINGUISTICS. This course focuses on the basic concepts of linguistics and methods of analyzing language with an overview of linguistics and the role of language in society. Emphasis will be placed on introduction to phonology, morphology, syntax, semantics, and to problem-solving techniques, with material drawn from a variety of languages. Prerequisite: RD 214 and RD 303. (3)

RD 315. METHODS AND MATERIALS FOR TEACHING READING IN ELEMENTARY SCHOOL. This course is designed to teach candidates the current and traditional methods of teaching reading in the elementary school. Included will be the development of lesson plans, teaching units, development and use of instructional materials, as well as appropriate theory, research and best practices for teaching reading. Field experience that includes micro teaching in the P-12 classroom is included. Prerequisites: ED 280: Introduction to Teaching, ED 380: Instructional Planning and Adapting Instruction, RD 214: Early Literacy Instruction I and RD 310: Introduction to Linguistics. (3)

RD 403. LITERACY IN EARLY CHILDHOOD. An interrelated approach to the teaching of listening,

speaking, and writing skills in a developmentally appropriate environment. Prerequisite: Admission to Teacher Education. (3)

RD 411. READING ASSESSMENTS AND INTERVENTION. Introduction to assessing foundational reading skills to inform effective instruction and interventions. Prerequisites: RD 214, RD 303, and RD 310. (3)

RD 413. METHODS AND MATERIALS FOR TEACHING LANGUAGE ARTS AND LITERATURE IN THE ELEMENTARY SCHOOL. This course is designed for teaching candidates the current and traditional methods and materials for Language Arts and Literature in the Elementary School. Included will be development of lesson plans, teaching units as well as appropriate theory, research and best practices for teaching Language Arts. Prerequisites: ED 280: Introduction to Teaching, ED 380: Instructional Planning and Adapting Instruction, RD 214: Early Literacy Instruction I, RD 310: Early Literacy Instruction II. (Field experience required). (3)

RD 430. READING IN THE CONTENT AREAS. The course covers reading content methods, including strategies, materials, and procedures for identifying the reading attainments and needs of individual students. Prerequisite: Admission to Teacher Education. (3)

RECREATION-RE

RE 305. RECREATION LEADERSHIP. Organization and conduct of municipal, school, and social recreation programs. (3)

RE 306. OUTDOOR RECREATION. Utilization of natural resources as they relate to outdoor and recreational settings. (3)

RE 413. PARKS, RECREATION, AND ADMINISTRATION. Training for supervisory work in various recreational settings. (3)

RE 414. SEMINAR IN RECREATION. Capstone of recreational trends, problems, and experiences. (3)

RE 415. FIELD EXPERIENCES IN RECREATION. A 12-week supervised practical experience in a professional setting. Placement sites may include campus, parks, or recreational centers. Emphasis is on the leadership responsibilities of planning, conducting and evaluating activities and programs. Students must make application to enroll in the course and must have achieved senior rank. (6)

RUSSIAN-RU

RU 101. ELEMENTARY RUSSIAN. A beginning course that develops skills in listening, pronouncing, speaking, reading, and writing the Russian language. (3)

RU 102. ELEMENTARY RUSSIAN. A continuation of Russian 101. Prerequisite: RU 101 with a grade of “C” or better. (3)

RU 201. INTERMEDIATE RUSSIAN. Increases skills developed in the preceding courses with emphasis on elementary composition and reading relevant to Russian. Prerequisite: RU 101 and RU 102 with a grade of “C” or better. (3)

RU 202. INTERMEDIATE RUSSIAN. A continuation of RU 201. Prerequisite: RU 201 with a grade of “C” or better. (3)

SPANISH-SA

SA 101. ELEMENTARY SPANISH. Skills development in listening, pronouncing, reading, and writing Spanish. (3)

SA 102. ELEMENTARY SPANISH. A continuation of SA 101. Prerequisite: SA 101 with a grade of “C” or better. (3)

SA 201. INTERMEDIATE SPANISH. Increases skills developed in the preceding courses with emphasis on elementary composition and on readings pertaining to Spain. Prerequisites: SA 101 and SA 102 with a grade of “C” or better. (3)

SA 202. INTERMEDIATE SPANISH. A continuation of SA 201. Prerequisite: SA 201 with a grade of “C” or better. (3)

SCIENCES–SC

SC 151/152. SURVEY OF BIOLOGICAL SCIENCE I AND II. The study of the essential biological principles of living organisms, their life processes, phylogenetic classification systems, diversity of different life forms, and their interaction with the non-living components of the environment. For non- biology majors. (3)

SC 261/262. SURVEY OF PHYSICAL SCIENCE I AND II. This course examines the main areas of science dealing with the non-living. These areas are chemistry, earth sciences, astronomy, and physics. The course will emphasize the various states of matter, the chemical bases of life, study of celestial bodies, and various physical laws that are universally constant. For non-science majors. (3)

SC 381. PRINCIPLES OF NATURAL SCIENCES. Elucidation of fundamental principles of natural sciences through laboratory exercising familiar materials. Prerequisites: SC 151-152 and SC 261-262 or equivalent upper level courses. (4)

SC 452. METHODS OF TEACHING SCIENCE IN THE SECONDARY SCHOOL. For students interested in pursuing teaching as a career and for teachers requiring additional college credit. The study of the theory of teaching science to high school students with emphasis on presentation techniques, teaching aids, and exam construction. (3)

SPECIAL EDUCATION-SE

Special Education feeder strategy courses: Students with a bachelorette degree with an overall grade point average (GPA) of 2.75 and above from an accredited institution and completed 21 credits hours of these courses may be admitted to the Master of Science in Special Education.

SE 312. ADAPTING THE LEARNING ENVIRONMENT OF CHILDREN WITH DISABILITIES.

Includes the principles of environmental arrangements, equipment and techniques to facilitate the inclusion of children with disabilities in early childhood programs. Assistive devices that will facilitate the full participation of young children will be included. (3)

SE 325. SURVEY OF THE EXCEPTIONAL CHILD. A survey of the education and treatment of children with inferior or superior intellectual abilities, defects of vision, hearing, speech or physical and neurological defects. Prerequisite: ED 102. (3)

SE 350. UNDERSTANDING THE NATURE AND NEEDS OF THE EXCEPTIONAL LEARNER.

This course is designed to provide the undergraduate student an overview of the various disability categories, identify signs, symptoms, and characteristics, and give strategies for teaching children with exceptionalities. This course also includes an overview of resources, placement, laws (Discipline), Parents Rights and responsibilities, and state and federal regulations. (3)

SE 360. EDUCATION AND PSYCHOLOGY OF THE EMOTIONALLY DISABILITY. This course deals with the psychological nature needs of emotionally handicapped children. Prerequisite: SE 325 (3)

SE 370. EDUCATION AND PSYCHOLOGY OF STUDENTS WITH SEVERE AND PROFOUND DISABILITIES AND MENTAL RETARDATION. This course will focus on behavioral, ecological, etiology and psychological characteristics and developmental learning theories and implications for instruction specific to students with severe and profound and mental disabilities. Methods of defining current level of functioning, designing interventions, and monitoring learner progress will also be studied. Also, the course will examine the best

practices appropriate for their education based on their cognitive abilities, needs related to their academic and communication skills; emotional, physical, social development, and their levels of adaptive behaviors. This course will provide students with the skills and understanding needed to teach severely/profoundly disabled students; program needs, services, and an overview of the role of persons with severe or profound disabilities within our society will be covered.

Field-based experiences are required. Prerequisite: SE 325. (3)

SE 372. ASSESSMENT, PSYCHOLOGY AND INDIVIDUAL PROGRAMMING FOR THE

MILDLY/MODERATELY DISABLED CHILDREN. This course is an introduction to the assessment and psychology of children with mild and moderate disabilities. The areas covered in the course include topics of definition, prevalence, causes, characteristics, classification, intervention, identification, assessment, special educational adaptations, and family issues. Adaptive behaviors and the concomitant roles of teaching techniques and inclusion in the education of persons with retardation across various ages and ability levels are emphasized. Also, organization and assessment of students with disabilities and individual programming at the elementary level will be emphasized. Field based experiences are required. Prerequisite: SE 325 (3)

SE 376. EDUCATION OF STUDENTS WITH MILD TO MODERATE DISABILITIES. This

course focuses on methods, materials, and assessment techniques that are appropriate when working with students who are mildly to moderately mentally retarded, learning disabled, and those who have behavioral or emotional disorders. This course requires 30 hours of clinical and field-based experience. (3)

SE 378. EDUCATION AND PSYCHOLOGY OF THE CHILDREN WITH LEARNING

DISABILITIES. An investigation into characteristics of children experiencing language or learning disabilities. Prerequisite: SE 325. (3)

SE 401. EARLY INTERVENTION STRATEGIES. Provides procedures and strategies for facilitating the successful inclusion of young children with disabilities in early childhood settings using developmentally appropriate practices. (3)

SE 410. ORGANIZATIONAL PROCEDURES IN SPECIAL EDUCATION. This course is designed to familiarize students with organizational procedures in special education. (3)

SE 412. BEHAVIOR MANAGEMENT FOR SPECIAL EDUCATION. This course is designed as an introduction to the application of the principles of behavior management in educational settings. Techniques of academic and affective management in classrooms for the educationally disabled students are studied. (3)

SKILLS-SK

*Course credits do not count toward graduation

* **RD 095. DEVELOPMENTAL READING.** An eight-weeks summer course required for students admitted to MVSU with deficiencies. Instruction focuses on vocabulary development and the comprehension of the main idea in reading. (3)

* **SK 095. LEARNING SKILLS LABORATORY.** An eight-weeks summer course required for students admitted to MVSU with deficiencies. Students receive study skills instruction in a group format and work individually on self-paced computerized assignments in writing, reading, and mathematics. (3)

SK 095L. LEARNING SKILLS LABORATORY. (*)

* **SK 102. ACADEMIC SUPPORT LABORATORY.** A study skills course offered during the fall semester is required for students admitted to MVSU through the Summer Developmental Studies Program and students with more than 1 intermediate course (3)

* **SK 103. ACADEMIC SUPPORT LABORATORY.** A study skills course offered during the spring semester that is required for students admitted to MVSU through the Summer Developmental Studies Program and students

with more than 1 intermediate course. (3)

* **SK 107. BASIC READING SKILLS.** Is a course designed to enhance the reading skills of students who do not meet all of the criteria for admission to Mississippi Valley State University. Course topics include comprehension, vocabulary, spelling, word definitions, words usage, and study skills development. (3)

* **SK 192. UNIVERSITY ORIENTATION.** This is the second phase of the first- year experience seminar. The course contents continue to prepare students to acquire those skills and attitudes necessary for success in college and in their careers. Invited guest speakers include departmental chairs, university officials, community leaders, and career counselors. (1)

SOCIOLOGY-SO

SO 211. INTRODUCTION TO SOCIOLOGY. The primary goal is to familiarize the student with basic sociological concepts. Sociologists need the tools and skills necessary to critically assess and analyze the social conditions under which they live. This introduction to Sociology course will present students with basic concepts and theories in the discipline and conceptual frameworks for analysis. All the material presented in this class will reflect a mainstreaming of race, class and gender in the curriculum. All perspectives will reflect multicultural paradigms and address local and global concerns. (3)

SO 212. SOCIAL PROBLEMS. Two main types of social problems are examined: (1) acts and conditions that violate the norms and values present in society, and (2) conditions induced by society that cause psychic and material suffering for any segment of the population. A main goal in this course is to engage the imagination and enthusiasm of students to incorporate the sociological perspective into their social analysis, adopting a critical stance toward all social forms (i.e., question authority, tradition, and the status quo) and considering the premise that individuals are, to a large extent, products of their social environments. Prerequisite: 3 hours of Sociology. (3)

SO 213. SOCIAL PSYCHOLOGY. The purpose of this course is to introduce students to the field of social psychology using a sociological perspective. Students who develop a good grasp of the materials presented in this course should be able to understand some of the basic components underlying the behaviors and mental processes of people involved in social interaction and the methods used by sociologists to construct these theories. (3)

SO 300. SOCIAL STATISTICS. Using an interdisciplinary approach, this course provides instruction in the application and interpretation of statistical analysis in the Social Sciences. At the end of this course, students will be able to: examine current social questions and interpret basic quantitative data using a variety of statistical techniques with both descriptive and inferential statistics that are used to describe and generalize about the characteristics of groups. Students will also be introduced to the Statistical Package for the Social Sciences (SPSS) that is widely used to perform statistical analysis. Prerequisite: 12 hours of Sociology. (3)

SO 301. ETHNOGRAPHY. Ethnography is the scientific description of specific cultures. Instruction in this course will identify several methods by which scientists can obtain data for understanding culture. The study of systems and patterns of human social organization and the functioning of ancient cultures will be analyzed using a combination of anthropological and sociological constructs. Required for Sociology majors. (3)

SO 302. SOCIOLOGY OF CRIME AND DEVIANCE. The sociological context of crime, deviance, social order and social control. By the end of this course, students will be able to explore the relationship between social control and power, be aware of the social differentiation of crime and deviance and analyze societal reactions to crime and deviance, including the role of the mass media. Through an integration of theoretical issues and applied sociology, students should be able to understand the sociological issues raised by society in relation to crime and deviance. (3)

SO 303. SOCIOLOGY OF THE FAMILY. Moving from traditional definitions of the family to the issues facing contemporary U.S. families, several issues are explored. How is the family changing? How have definitions of family changed over time? This model emphasizes the study of the family as an institution rooted in historical and social contexts. The primary variables of race, class, and gender are mainstreamed throughout the entire course experience. (3)

SO 304. NATIONALITY AND RACE RELATIONS. Theories, concepts, principles, processes and experiences

which shape relationships among/between racial, ethnic and other groups in American society and throughout the world. Through a sociological assessment of the experiences and social positioning of various racial and ethnic groups, students will be able to understand present relationships by assessing past patterns of subordinated and dominant group relations. (3)

SO 306. SOCIOLOGY OF POVERTY. Historical perspectives; problems of definition and measurement; socio-cultural situations contributing to deprivation; life chances; social mobility; status attainment; definition of poverty groups; social, cultural, psychological, educational consequences of poverty. This course will further allow students to gain knowledge of the local and regional class and economic structures and examine factors contributing to poverty, and the political and social responses to poverty. (3)

SO 307. BLACK SOCIOLOGICAL THEORY. Examination of the major political and social ideologies advocated by Black scholars from 1900 to the present. Attention is given to the relationship between social and political thought and struggles with intersectionality, marginality, and multiple minority statuses. (3)

SO 308. SOCIOLOGY OF SEX & GENDER. The changing character of gender roles in a changing society is examined. This course also examines the significance of gender roles and/ or multiple minority status in various social institutions. Students will be able to analyze the ideas and practices that define men and women, male and female/masculine and feminine using a combination of cultural, social, political, economic, and psychological perspectives. (3)

SO 400A. SPECIAL TOPICS. Individual instructors will develop the course with relevance to contemporary social issues and topics of interest within Sociology and its fields and subfields. Topics may include: Political Sociology, Immigration and Naturalization, Globalization and Colonization, Cultural Studies, Sociology of Religion, and/or Sociology of the Environment. (3)

SO 400B. SPECIAL TOPICS. Individual instructors will develop the course with relevance to contemporary social issues and topics of interest within Sociology and its fields and subfields. Topics may include: Political Sociology, Immigration and Naturalization, Globalization and Colonization, Cultural Studies, Sociology of Religion, and/or Sociology of the Environment. (3)

SO 400C. SPECIAL TOPICS. Individual instructors will develop the course with relevance to contemporary social issues and topics of interest within Sociology and its fields and subfields. Topics may include: Political Sociology, Immigration and Naturalization, Globalization and Colonization, Cultural Studies, Sociology of Religion, and/or Sociology of the Environment. (3)

SO 401. SOCIOLOGICAL THEORY. The course examines the philosophical and historical contexts of social thought with special emphasis on theorists of race, class, and gender. By the end of this course, students will be able to discuss the contributions of major classical and contemporary sociological theorists. (3)

SO 405: QUALITATIVE RESEARCH METHODS. This course is intended to provide students with the basic skills needed to do qualitative research. Qualitative research is research that focuses on understanding, rather than predicting or controlling, phenomena. It is usually contrasted with traditional experimental and statistical research. Field research techniques, evaluation, and assessment and participatory action research will be major topics. (3)

SPEECH COMMUNICATION-SP

SP 191-192. FRESHMAN SEMINAR. Designed to follow the requirements of the Freshman Year Experience. (2)

SP 201. FUNDAMENTALS OF PUBLIC SPEAKING. Basics of preparing, researching, analyzing, organizing, writing, and delivering speeches. (3)

SP 301. SURVEY OF HUMAN COMMUNICATION. Overview of the theories of human communication, including interpersonal, small group, organizational, and mass communication theories. (3)

SP 310. SMALL GROUP COMMUNICATION. Theories and practice of group process in problem solving and decision making. (3)

SP 340. ISSUES IN COMMUNICATION: GENDER & ETHNICITY. Study of diversity among the ethnic groups in a global society. (3)

SP 400. ADVANCED PUBLIC SPEAKING. Principles and practices of public speaking, including business, technical, and professional speech preparation. (3)

SP 404 A, B, C. FORENSICS PRACTICUM. Participation in forensics activities under the supervision of the forensics faculty. Open to all students. May be repeated up to eight elective hours. (3)

SP 405. BUSINESS & PROFESSIONAL COMMUNICATION. Study of forms and methods of communication for business and professional practices. (3)

SP 410. INTERPERSONAL COMMUNICATION. Exchanges of meaning through verbal and nonverbal behavior in informal face-to-face settings. (3)

SP 420. NONVERBAL COMMUNICATION. Theories and practice of exchanges of meaning through nonverbal means. Emphasis on experiential learning. (3)

SP 425. INTERVIEWING. Analysis of the interviewing process in a variety of specific contexts, and development of communication skills used in interviewing. (3)

SP 430. PERSUASION. Study of psychology of attitude formation and change, including theories of persuasion and principles of persuasive communication. (3)

SP 435. ORGANIZATIONAL COMMUNICATION. A survey of approaches to the study of organizational communication and aspects of the communication process within organizations. (3)

SP 440. INTERCULTURAL COMMUNICATION. Focuses on the communication process of people from diverse cultures; covers issues such as human communication, communication apprehension, cultural contexts, verbal and nonverbal codes, acculturation and culture shock, and intercultural communication in organizations. (3)

SP 449. SENIOR PROJECT RESEARCH. Guided research for senior project, including a survey of research methods and simple statistics used in communication. Prerequisite: Advanced junior standing. (2)

SP 450. SENIOR PROJECT PAPER. Students write a senior project paper with the help of a senior project advisor. (1)

SP 491-492. SENIOR SEMINAR. Designed to familiarize students with graduate school requirements, university and departmental requirements for graduation, and career search and preparation. (2)

SOCIAL SCIENCE-SS

These SS courses are interdisciplinary courses and required for the PL, G&P and SO programs. SS 391 is required of all majors in the department except SO.

SS 299. WRITING FOR THE SOCIAL SCIENCES. This course allows students to develop rudimentary skills for social scientific writing. Students will learn the basics of reasoning and argumentation in the social sciences. Students will be able to read social science articles, and paraphrase and document them. Students will demonstrate competence in writing essays, article summaries, book reviews, and argumentative essays. Upon completing the course, students should be prepared to write a research paper for an advanced course in the social sciences. (3)

SS 305. SOCIAL RESEARCH METHODS. Major research techniques used by social scientists to observe and

interpret the social world. This course focuses on the logic of research, structuring scientific inquiry and research design, as well as, a variety of techniques used to gather data and design surveys and experiments. Students will become more knowledgeable practitioners, consumers, and evaluators of social science data and research. An experiential component is required. Students will design and implement a mini research project. Prerequisite: Any statistics course. (3)

SS 391. JUNIOR SEMINAR. Junior Seminar prepares students to further academic and professional careers, and to deepen their understanding of potential professional careers. The course will focus on preparing students to take the Law School Admission Test or the Graduate Records Examination or the Civil Service Test and make applications to graduate or law schools or civil service jobs. All of the course activities aim to make you students competitive in the market for law students and graduate students and civil service.

SS 453. MATERIALS AND METHODS OF TEACHING THE SOCIAL SCIENCES. Teacher candidates explore the methods of developing objectives, carrying out teaching strategies and evaluating social studies in the secondary grades. The course provides candidates with the necessary experiences and exposure for them to become effective social studies teachers in the secondary school. Emphasis is placed on developing creative unit and lesson plans and on creative teaching using materials designed to heighten student awareness of the contributions of other cultures and to engage students in higher-level thinking tasks. (Must be admitted to Teacher Education). (3)

SOCIAL WORK-SW

SW 210. INTRODUCTION TO SOCIAL WORK. An overview of social work as a profession which includes key concepts and fields of practice. (3)

SW 301. INTERVIEWING TECHNIQUES. The study of interviewing principles and skills and their use in a variety of social service settings. (3)

SW 302 SOCIAL WELFARE POLICY AND SERVICES I. The historical development of social welfare policies and programs and a focus on the implementation and qualifications for use of such programs. Prerequisite SW 210. (3)

SW 303. SOCIAL WELFARE POLICY AND SERVICES II. An in depth application of policy analysis and an introduction to policy advocacy, planning and evaluation. Prerequisite SW 302. (3)

SW 304. CONCEPTS AND ISSUES IN AGING. An introduction to the field of Gerontology. Study of theories, concepts, and issues relates to aging. (3)

SW 307. ISSUES OF DIVERSITY AND SOCIAL JUSTICE. The study of diversity in America with an emphasis on populations at risk, oppressed populations, and social justice. (3)

SW 320. HUMAN BEHAVIOR IN THE SOCIAL ENVIRONMENT I. The study of theories and research about human behavior and the social environment as they relate to understanding and describing human similarity, diversity, and interactional processes from conception to young adulthood. (3)

SW 327. HUMAN BEHAVIOR IN THE SOCIAL ENVIRONMENT II. Continuation of SW 320 with a focus on middle adulthood to end of life. Prerequisite SW 320. (3)

SW 330. METHODS OF SOCIAL WORK PRACTICE I. The study of the generalist social work practice model with an emphasis on micro systems. Prerequisites: Social Work major; SW 210. (3)

SW 375. SPECIAL PROBLEMS OF RURAL ELDERLY. An examination of special concerns and problems faced by the elderly in rural areas. (3)

SW 400. CHILD WELFARE. An examination of programs, policies, and issues affecting services for children and families. (3)

SW 402. BEHAVIOR PROBLEMS OF CHILDREN. Study of behavior problems of children and intervention strategies. (3)

SW 408. STATISTICS FOR SOCIAL WORK. An introduction to basic statistics for application in social work evaluation and research. (3)

SW 409. METHODS OF SOCIAL WORK RESEARCH. An overview of the scientific methods of inquiry and their use in the development of knowledge for social work practice. Prerequisites: Social Work major; SW 408. (3)

SW 410. METHODS OF SOCIAL WORK PRACTICE II. The study of the generalist social work practice model with an emphasis on mezzo systems. Prerequisites: Social Work major; SW 330. (3)

SW 420. METHODS OF SOCIAL WORK PRACTICE III. The study of the generalist social work practice model with an emphasis on macro systems. Prerequisites: Social Work major; SW 410. (3)

SW 430. SOCIAL WORK IN RURAL AREAS. The discussion of characteristics of rural communities and effective means for engaging rural populations in problem-solving and prevention techniques. (3)

SW 436. FIELD PRACTICUM. Supervised internship which allows students to apply the social work curriculum content in entry level practice with a variety of client systems. Prerequisites: Admission to field placement; SW 491; concurrent enrollment in SW 437. (9)

SW 437. INTEGRATION SEMINAR. The integration of the social work curriculum content into entry level practice settings. Co-requisite: Concurrent enrollment in SW 436. (3)

SW 441. SOCIAL WORK WITH ALCOHOL AND OTHER SUBSTANCE ABUSERS. The study of social work practice with alcohol and other substance abusers. (3)

SW 442. SOCIAL WORK IN HEALTH AND MENTAL HEALTH. The study of social work practice in health and mental health settings. (3)

SW 491. PRE-FIELD SEMINAR. Application and admission process for field placement. Prerequisites: SW 408; SW 410; Co-requisites SW 409; SW 420. (1)

THEATER-TH

TH 201. THEATER APPRECIATION. Introduction and survey of various elements of dramatic arts. May satisfy the Fine Arts general education requirement. (3)

TH 302. ORIGINS OF THEATER. Survey of the historical development of the Theater from classical times to present. (3)

TH 305. ACTING I. Principles and practice of character interpretation. Participation in a major production during semester is required. (3)

TH 306. ACTING PRACTICUM A, B, C. Participation in departmental production under supervision of theater faculty. May be repeated at student's discretion. (3)

TH 312. DIRECTING FOR THEATER. Fundamentals and practical applications of the principles of directing. Participation in semester major production required. (3)

TH 405. TECHNICAL THEATER PRODUCTION. Practical applications of the fundamental principles of dramatic production. Participation in departmental production during semester is required. (3)

TH 406. ACTING II. Advanced theories and techniques of acting with emphasis on characterization. Participation in a major production during semester is required. (3)
